

FEMA Awards City of Cape Coral Nearly \$4.6 Million for Hurricane Irma Expenses

Release Date: July 30, 2019

Orlando, Fla. – FEMA has approved \$4,581,446 for the State of Florida to help the City of Cape Coral defray the costs of debris removal for Hurricane Irma under FEMA's Public Assistance Program.

FEMA funds will reimburse the city for the collection, removal and disposal of debris from within Cape Coral between Sept. 18, 2017 and March 3, 2018 following the September 2017 storm. During that time period, the city's personnel and contractors gathered and hauled away more than 175,510 cubic yards of vegetative debris from rights of way and 773 cubic yards of construction/demolition debris from rights of way and canals. They also removed 848 tree limbs and 103 trees deemed to pose a threat to public safety.

Funding for this Public Assistance (PA) project is authorized under Sections 403 of the Robert T. Stafford Act for Florida to cover Hurricane Irma-related expenses, reimbursing eligible applicants for the cost of debris removal; life-saving emergency protective measures; and the repair, replacement or restoration of disaster-damaged facilities like buildings, roads and utilities.

FEMA's Public Assistance grant program is an essential source of funding for communities recovering from a federally declared disaster or emergency. The Florida Division of Emergency Management works with FEMA during all phases of the PA program and conducts final reviews of FEMA-approved projects.

Applicants work directly with FEMA to develop project worksheets and scopes of work. Following approvals by FEMA and the Florida Division of Emergency Management, FEMA obligates funding for the project.

FEMA's Public Assistance program provides grants to state, tribal, and local governments, and certain types of private non-profit organizations including some houses of worship, so that communities can quickly respond to and recover from major disasters or emergencies.

The federal share for Public Assistance projects is not less than 75 percent of the eligible cost. The state determines how the non-federal share of the cost of a project (up to 25 percent) is split with the sub-recipients like local and county governments.
