

Photos of Whole-of-America COVID-19 Response Volume 21

Release Date: April 17, 2020

WASHINGTON — The whole-of-America response to fighting the COVID-19 pandemic continued worldwide today, as National Guardsmen from Guam to Connecticut provided support, working on alternate care facility plans and drive-thru testing sites. Active duty military members and U.S. postal workers continued their COVID-19 response efforts as well.

FEMA continues to expedite movement of commercially pre-sourced and commercially procured critical supplies from the global market to medical distributors in various locations across the U.S. through Project Airbridge.

As of April 17, 55 flights have been completed to expedite movement of both private sector distributor-procured supplies (Project Airbridge) and federal government-procured supplies. An additional 45-plus flights are scheduled.

Through Project Airbridge, the following supplies have been delivered from overseas manufacturers to the U.S. and into private sector supply chains from March 29 to April 15:

- More than 44.5 million N-95 masks
- More than 523.7 million gloves
- More than 10 million surgical masks
- More than 10 million surgical gowns
- More than 5.6 million face shields
- More than 210,000 coveralls

To date, FEMA and our federal partners have coordinated the delivery of more than 10,000 ventilators, helped establish more than 27,300 additional hospital beds and ensured more than 3 million samples were tested for COVID-19 throughout the country.
