

FEMA Response Update: Sally and Western Wildfires

Release Date: September 19, 2020

WASHINGTON - FEMA continues to support states impacted by Hurricane Sally with personnel and commodities in and near the areas of impact. Nearly 30 emergency generators have been delivered to Florida to use at critical care facilities, such as hospitals and long-term care facilities that lost power, and 4,000 tarps have been delivered to Alabama. FEMA has the following commodities staged near the areas of impact for Hurricane Sally, which are available to each affected state, based on need and requests to FEMA for assistance.

- Over **4 million** liters of bottled water
- **3.2** million meals
- **289,000** blankets
- **117,000** tarps
- **52,500** blue roof sheeting
- **6,500** cots
- **23** generators

FEMA has two Incident Management Assistance Teams (IMATs) deployed in response to Hurricane Sally. One team is deployed to Alabama and one to Florida. FEMA also deployed two Mobile Emergency Operations Vehicles to Alabama to provide emergency communication capabilities for federal resources, if needed.

As of today, 376 FEMA responders have been deployed in support of Hurricane Sally.

- National Guard Bureau teams, including search and rescue and logistics operators, are staged throughout the affected areas.
- Emergency Preparedness Liaison Officers from the Department of Defense are deployed in support of Florida.

President Trump approved Emergency Declarations for Alabama, Florida, Louisiana and Mississippi to provide federal assistance and coordinate all disaster

relief efforts in response to Hurricane Sally across the Gulf Coast.

Although Sally has moved offshore, there are still risks in areas impacted by the storm. Anyone in the forecast path of the storm should monitor their local news for updates and directions provided by their local officials and [follow evacuation orders from local officials](#).

- **State and local officials** will have the most up-to-date information on evacuation orders and shelter locations.
- **Alabama residents** should call or text 2-1-1 for evacuation, sheltering and resources for immediate needs.
- **The American Red Cross** (ARC) is prepared to shelter and support families. For assistance, call 3-1-1 or visit the [ARC website](#).
- **Individuals in Alabama and Mississippi** impacted by Sally may register for the American Red Cross Safe and Well program at [safeandwell.communityos.org](#).
- **Use extreme caution** when operating heavy machinery, generators or while removing debris. **Never use generators indoors** and keep them away from windows, doors and vents.
- If you have been evacuated **do not return home until local officials tell you it is safe to do so**.
- **Don't drive or walk through flood waters**. Be aware of downed power lines, standing water and other hidden hazards.
- **Stay off roads** so that emergency workers are able to get through.
- **Wear sturdy shoes or boots** when walking on, or near, debris. Wear long sleeves and gloves when handling debris.
- **When clearing debris from a property**, make sure you know the location of all utilities, both underground and overhead to prevent personal injury. Do not place items in front of, around or on top of buried and above ground utilities.
- **Use caution around any buried utilities**. Cutting vital communications assets such as fiber optic lines can cause a loss of cellular networks, including cell phone service or access to the internet. Residents in Alabama and Florida should call 8-1-1 before digging so utilities can be marked in advance.
- **Response is a whole community effort**; if it's safe to do so, **check on your neighbors**. You may be the help they need right now.
- **Remember to stay safe**, whether you're a responder or survivor. [Wear a mask](#) in public settings especially when [social distancing](#) is not possible, and follow [CDC guidelines to prevent the spread of COVID-19](#).

FEMA

- **FEMA will conduct remote home inspections** to expedite the delivery of recovery assistance to applicants based on their eligibility due to COVID-19 and the need to protect the safety and health of all Americans.

If your property has been flooded due to Sally, call your insurance agent or company to file a claim. Be sure to ask about advance payments. FEMA has nearly **\$7 billion** available to pay flood claims. The agency also has the authority to borrow another **\$10 billion** for claims if necessary.

- Have the name of your insurance company, your policy number and a telephone number or email address where you can be reached when you place your call.
- If you need help finding your insurance agent, carrier or policy number, call the Flood Insurance call center at 877-336-2627.
- Insurance agents and claims adjusters will work closely with you on your claim. With a remote adjustment, it may take several hours or more to document damage. During that time, you'll work with your adjuster to take high-quality photos and detailed measurements.
- You should also discuss with your adjuster what your policy covers, ask any questions you may have about the claims process and determine your next steps.
- For additional information, visit floodsmart.gov/start.

WILDFIRES IN THE WEST

FEMA has the following commodities staged near the areas of impact for wildfires in the West. These commodities are available to each affected state, based on need and requests to FEMA for assistance.

- **227,000** liters of bottled water
- **208,896** meals
- **54,735** blankets
- **6,092** cots
- Hygiene kits, commonly used shelter items and **27** generators are also staged at Joint Base Lewis-McChord (JBLM) in Washington.

FEMA has obligated more than \$1.9 million in mission assignments and is processing 47 active resource requests in support of Oregon. Two Incident

Management Assistance Teams have been deployed to Oregon to support state operations and one team is deployed to California to support state operations. FEMA has also deployed Urban Search and Rescue (US&R) teams along with other specialized teams from federal partners to provide support, and two Mobile Emergency Response Support (MERS) units are deployed to Oregon, providing communications support for command and control of federal resources in support of the Incident Support and US&R Teams.

As of today, 493 FEMA responders have been deployed in support of western wildfires.

- FEMA's Disaster Survivor Assistance (DSA) specialists will be in each Oregon Individual Assistance declared county by Sept. 23.
- Three Mobile Communication Vehicles (MCVs) have been requested to support field operations.
- FEMA Disability Integration and Civil Rights staff are collaborating to ensure DSA and MCV operations are accessible.
- Housing inspectors and quality control inspectors are completing inspections in all eight Oregon Individual Assistance declared counties.
- A Health and Human Services Office of the Assistant Secretary for Preparedness and Response Incident Management Team is operational in Salem, Oregon.
- Health and Human Services Mortuary Affairs are deployed to Oregon to provide technical assistance.
- Two Health and Human Services Disaster Mortuary Operational Response Teams assessment team deployed to provide forensic assessment and support for US&R in Jackson and Lane counties in Oregon.
- Department of Agriculture (USDA) subject matter expertise, including sourcing available animal response equipment, deployment of one animal care and two (virtual) food and nutrition service subject matter experts to support pet and feeding operations, and deployment of one Veterinary Services IMT Incident Commander to support Oregon Department of Agriculture's animal and agricultural response coordination.

President Trump approved Major Disaster Declarations for [California](#) and [Oregon](#) to provide federal assistance and coordinate all disaster relief efforts in response to ongoing wildfires throughout the Western U.S. Registration is open for those

FEMA

affected by wildfires in Clackamas, Douglas, Jackson, Klamath, Lane, Lincoln, Linn, and Marion counties in Oregon. Apply by visiting DisasterAssistance.gov, calling **800-621-3362** or using the FEMA app.

- **Do not wait** for a disaster recovery center or other fixed location to register for assistance.
- **Save your receipts and take photos** before you begin the clean-up process. Documentation of losses will help FEMA process your claim.
- **Disaster assistance may include grants for temporary housing and home repairs**, low-cost loans to cover uninsured property losses and other programs to help individuals and business owners recover from the effects of the disaster.

Public safety is the No.1 priority: residents in at-risk areas should follow local officials' instructions and be ready to take action.

- **If you are in a safe place**, you can help by staying home and off the road. Due to changes to the landscape, even areas that are not traditionally flood prone are at risk of flash flooding and becoming unsafe,
- If you are in an evacuation zone, heed warnings, and **follow local official recommendations without delay**.
- Stay informed by **calling 2-1-1 or 866-698-6155**. You can also text your zip code to 898211 (TXT211). You can also visit wildfire.oregon.gov for the latest information and resources available to those affected by wildfires.
- **Know your evacuation levels!** Level 1 - Be Ready. Level 2 - Be Set. Level 3 - Leave Immediately. DO NOT return the fire area until officials give the OK.
- For a list of temporary shelters, see the [Red Cross Oregon website](https://www.redcross.org).
- If you are affected by the Oregon wildfires, contact your insurance company as soon as possible to discuss homeowner insurance policies and wildfire coverage. The [Oregon Insurance Commission](https://www.oregoninsurancecommission.com) has insurance resources available online.
- Please register for the Red Cross Safe and Well program at safeandwell.communityos.org.
- Visit [ORVOAD.org](https://www.oregonredcross.org) to find out how to help Oregonians and donate to response organizations.
- Amid wildfire, smoke and erratic weather, the COVID-19 pandemic is still rampant. Face coverings are required in all parts of the state and Oregonians are reminded to maintain social distancing, and wash hands frequently.
