

Photos of Whole-of-Government Sally, Wildfire Response

Release Date: September 21, 2020

WASHINGTON — FEMA continues close coordination with state, tribal and local governments for disaster response across the country. FEMA Administrator Pete Gaynor has visited states impacted by recent fire and hurricane damage. President Trump approved a major disaster declaration for [Alabama](#) and emergency declarations for [Alabama](#), [Florida](#), [Louisiana](#) and [Mississippi](#) to provide federal assistance and coordinate disaster relief efforts across the Gulf Coast. Major disaster declarations were also declared for [California](#) and [Oregon](#) wildfire response. FEMA teams and disaster recovery resources are on the ground assisting with state recovery efforts. Residents in affected states should continue paying attention to their local emergency managers for safety instructions and opportunities for assistance.

Federal, Local Leaders Discuss Hurricane Sally Impacts
