

FEMA May Be Able to Help if Insurance Doesn't Cover Some Disaster Expenses

Release Date: Nov 18, 2020

FEMA can't duplicate insurance payments for Floridians with losses from Hurricane Sally, but it might be able to help with some expenses that aren't covered fully by insurance. It's a good idea to register with FEMA even if you have insurance.

FEMA may be able to provide grants in these circumstances:

- If the cost of your damage does not reach the level of your insurance deductible.
- If you have received the settlement from the insurance company but you still have unmet needs.
- If you have exhausted the settlement for Additional Living Expenses (for loss of use) and you need disaster-related temporary housing.
- If your settlement does not cover disaster-related needs such as medical, dental and funeral costs, emergency home repairs and other disaster-related expenses.

If your settlement has been delayed longer than 30 days, you may write to FEMA to explain your situation. Provide insurance documentation to prove you've submitted your claim, including the claim number, the date you applied and how long you estimate it will take for the company to settle and mail your letter.
