

Preliminary Flood Maps for Wilson County, Texas, Ready for Public View

Release Date: June 30, 2021

DENTON, Texas – Preliminary Flood Insurance Rate Maps (FIRMs) are available for review by residents and business owners in portions of Cities of Elmendorf and La Vernia; and unincorporated areas of Wilson County, Texas.

Property owners are encouraged to review the latest information to learn about local flood risks and potential future flood insurance requirements. Community stakeholders can identify any concerns or questions about the information provided and participate in the appeal and comment periods for the maps.

The San Antonio River Authority (River Authority) is collaborating with FEMA to schedule open house meetings to help the public learn more about the FIRMs and local flood risk to assist during this public comment period. Information about the open house meetings will be available at www.sariverauthority.org/whats-new/events.

For this Physical Map Revision, the FIRMs for Bexar County serve multiple purposes, including defining Special Flood Hazard Areas (SFHAs) and setting rates for flood insurance. SFHAs are areas at high risk for flooding. Communities and residents can use the information to make informed decisions about building, development and flood insurance.

FEMA stresses that flooding can and does happen outside of the most vulnerable areas. Review the preliminary flood maps by visiting the local floodplain administrator (FPA). A FEMA Map Specialist can help identify community FPAs. Specialists are available by telephone at 1-877-FEMA-MAP (1-877-336-2627) or by email at FEMAMapSpecialist@riskmapcds.com.

The preliminary maps may also be viewed online:

- The Flood Map Changes Viewer at msc.fema.gov/fmcbv.
- FEMA Map Service Center at msc.fema.gov/portal.

For more information about the flood maps:

- Use a live chat service about flood maps at go.usa.gov/r6C (just click on the “Live Chat” icon).
- Contact a FEMA Map Specialist by telephone at 1-877-FEMA-MAP (1-877-336-2627) or by email at FEMAMapSpecialist@riskmapcdfs.com.

Most homeowners insurance policies do not cover flood damage. Cost-saving options are available for those newly mapped into a high-risk flood zone. Learn more about flood insurance options by talking with an insurance agent or visiting www.floodsmart.gov.

The River Authority is the local Cooperating Technical Partner (CTP) with FEMA as they assist in delivering high-quality hazard identification and risk assessment products throughout their four-county jurisdiction of Bexar, Wilson, Karnes, and Goliad counties. As a CTP, the River Authority also provides FEMA outreach support to empower local communities to take action to reduce risk based on informed, multi hazard-based data and resources. For more information about flood risk in Bexar County, please visit the River Authority’s Flood Risk page at: www.sariverauthority.org.
