

# FEMA Authorizes Funds to Fight Bootleg Fire in Oregon

---

**Release Date: July 13, 2021**

**BOTHELL, Wash.** - The Federal Emergency Management Agency (FEMA) authorized the use of federal funds to help with firefighting costs for the Bootleg Fire burning in Klamath County, Oregon.

FEMA Region 10 Acting Regional Administrator Vincent Maykovich determined that the fire threatened to cause such destruction as would constitute a major disaster. He approved the State of Oregon's request for a federal [Fire Management Assistance Grant](#) (FMAG) on Saturday, July 10, 2021, at 5:22 p.m. PT. This is the second FMAG declared to help fight Oregon wildfires in 2021.

At the time of the State's request, the fire was threatening homes in and around the communities of Sprague River, Bly, and Beatty. The fire also threatened roads, bridges, utilities, infrastructure, recreation and businesses in the area. Oregon continues to experience extreme heat conditions and has burn bans and red flag warnings in place.

FMAGs are provided through the President's Disaster Relief Fund and are made available by FEMA to assist in fighting fires that threaten to cause a major disaster. Eligible items can include expenses for field camps; equipment use, repair and replacement; mobilization and demobilization activities; and tools, materials, and supplies. The authorization makes FEMA funding available to pay 75 percent of the State's eligible firefighting costs under an approved grant for managing, mitigating, and controlling designated fires. These grants do not provide assistance to individual home or business owners and do not cover other infrastructure damage caused by the fire.

With this FMAG authorization, an additional \$584,083 will be available to Oregon through the [Hazard Mitigation Grant Program \(HMGP\) Post Fire](#) for the mitigation of wildfire and related hazards, such as flood after fire or erosion. Eligible wildfire project types include defensible space measures, ignition-resistant construction, and hazardous fuels reduction. The Disaster Recovery Reform Act of 2018 authorizes FEMA to provide [HMGP Post-Fire](#) funds to eligible states and territories that receive Fire Management Assistance declarations and federally recognized tribes that have land burned within a designated area.
