Survivors can visit any Disaster Recovery Center location.

Representatives from the U.S. Small Business Administration (SBA) are on hand at the DRC to provide program information and explain how to apply for SBA's low-interest disaster loans for homeowners, businesses, private nonprofits, and renters, and provide printed information about repairs and rebuilding to make homes more disaster resistant.

Disaster survivors are encouraged to submit their SBA loan application as soon as possible. If your application is approved you are not obligated to accept the loan. However, failure to return the application may disqualify you from other types of financial assistance from FEMA.

A FEMA Hazard Mitigation Community Education Outreach Specialist will be on site to assist survivors in preparing for future incidents.
