On September 10, 2017, Chairman Marcellus W. Osceola, Jr. requested an expedited major
disaster declaration as a result of Hurricane Irma during the period of September 4 to October 4,
2017. The Chairman requested a declaration for Individual Assistance; Public Assistance,
including direct Federal assistance; and Hazard Mitigation for the Seminole Tribe of Florida. The
Chairman further requested a 100 percent Federal cost share for debris removal and
emergency protective measures (Categories A and B) for the first 30 days;
90 percent thereafter, and a 90 percent Federal cost share for Public Assistance for permanent
work (Categories C-G). This event was of the severity and magnitude that the need for
supplemental Federal assistance was determined to be necessary prior to the completion of joint
Federal, Tribal, and local government Preliminary Damage Assessments (PDAs). Per 44
C.F.R.§ 206.33(d) and § 206.36(d), the requirement for a joint PDA may be waived for those
incidents of such unusual severity and magnitude that formal field damage assessments are not
required to establish the need for supplemental Federal assistance under the Stafford Act.1

On September 27, 2017, President Trump declared that a major disaster exists for the Seminole
Tribe of Florida and associated lands. This declaration made Individual Assistance requested by
the Chairman available to affected individuals and households of the Seminole Tribe of Florida
and associated lands. This declaration also made Public Assistance requested by the Chairman
available to the Seminole Tribe of Florida and associated lands and certain private nonprofit
organizations on a cost-sharing basis for emergency work and the repair or replacement of
facilities damaged by Hurricane Irma for the Seminole Tribe of Florida and associated lands.
For a period of up to 30 days from the start of the incident period, FEMA is authorized to
provide federal funding for emergency protective measures (Category B), including direct
federal assistance, at 100 percent of the total eligible costs. Finally, this declaration made
Hazard Mitigation Grant Program assistance requested by the Chairman available for hazard
mitigation measures for the Seminole Tribe of Florida and associated lands.2

Summary of Damage Assessment Information Used in Determining Whether to
Declare a Major Disaster

Individual Assistance

- Total Number of Residences Impacted:3 N/A
  - Destroyed - 
  - Major Damage - 
  - Minor Damage - 
  - Affected -

The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48).

The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

Degree of damage to impacted residences:
- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

By law, Federal disaster assistance cannot duplicate insurance coverage. 42 U.S.C. § 5155 and 44 C.F.R. § 206.48(b)(5).

Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

Based on State population in the 2010 Census.
