

# Preliminary Damage Assessment Report

## **Kentucky – Severe Storms, Straight-line Winds, Flooding, Landslides, and Mudslides FEMA-4428-DR**

### ***Declared April 17, 2019***

On April 3, 2019, Governor Matthew G. Bevin requested a major disaster declaration due to severe storms, straight-line winds, flooding, landslides, and mudslides during the period of February 6 to March 10, 2019. The Governor requested a declaration for Public Assistance for 57 counties and Hazard Mitigation for the entire commonwealth. During the period of March 11-28, 2019, joint federal, commonwealth, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested counties and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the commonwealth and the affected local governments, and that Federal assistance is necessary.<sup>1</sup>

On April 17, 2019, President Trump declared that a major disaster exists in the Commonwealth of Kentucky. This declaration made Public Assistance requested by the Governor available to state and eligible local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by the severe storms, straight-line winds, flooding, landslides, and mudslides in Adair, Ballard, Bell, Boyd, Breathitt, Butler, Campbell, Carlisle, Carroll, Carter, Casey, Clay, Crittenden, Cumberland, Edmonson, Elliott, Estill, Floyd, Grant, Greenup, Hancock, Harlan, Henderson, Henry, Jackson, Johnson, Knott, Knox, Laurel, Lawrence, Lee, Leslie, Letcher, Livingston, Madison, Magoffin, Marion, Marshall, Martin, McCracken, McCreary, Metcalfe, Morgan, Owsley, Pendleton, Perry, Pike, Powell, Rockcastle, Russell, Trigg, Union, Washington, Wayne, Webster, Whitley, and Wolfe Counties. This declaration also made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures for the entire commonwealth.<sup>2</sup>

<sup>1</sup> The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor's request for a major disaster or emergency declaration, and by the President in determining a response to the Governor's request (44 CFR § 206.33).

<sup>2</sup> When a Governor's request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA's regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

<sup>3</sup> Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

<sup>4</sup> By law, Federal disaster assistance cannot duplicate insurance coverage. 42 U.S.C. § 5155 and 44 C.F.R. § 206.48(b)(5).

<sup>5</sup> Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

<sup>6</sup> Ibid. 44 C.F.R. § 206.48(b)(3).
