

Thirty-Second Live-Read Radio Public Service Announcement (PSA) Script

A community's flood risk changes over time. Updating a flood insurance rate map helps protect lives and property by showing how those flood risks have changed. FEMA's preliminary flood insurance rate maps for [County name] reflect how *your* risk may have changed. Learn more at msc.fema.gov.

Community members should know that there is an appeal process for those who have information that could change the preliminary flood map. For details on the appeal process and the proposed map revisions, visit [\[website address\]](#).

Again, learn more about [County name]'s preliminary flood insurance rate maps at msc.fema.gov. A message from [County name].
