APPENDIX A: ALTERNATIVE TEXT ............................................................................................... A-1
Unit 1 – Introduction

Overview

Welcome to the Federal Emergency Management Agency’s (FEMA’s) Mitigation eGrants Management System.

The objective in developing this system was to provide states, federally-recognized tribal governments, territories, local communities, and non-profit organizations with the ability to apply for federal awards and to manage their subapplication processes electronically. FEMA developed this web-based system, which follows the former paper-based application process.

Relationships established for processing the paper applications are used in eGrants. With this electronic system, local entities submit subapplications for mitigation federal award funds to their Applicant. The Applicant reviews and approves the local subapplications and includes them in their applications to FEMA. Federally-recognized tribal governments may apply directly to FEMA or through their state. Award packages, revisions, and amendments are all handled electronically. Paper documents can be scanned and attached to the electronic applications as necessary.

For assistance with eGrants, please contact the eGrants Help Desk toll-free at 1-866-476-0544 or via e-mail at MTeGrants@fema.dhs.gov. For answers to eligibility and program questions, local entities should contact their Applicant’s hazard mitigation officer. States, territories, and tribes should contact their FEMA regional office for assistance.

Terminology in eGrants

The Office of Management and Budget streamlined the Federal Government’s Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards into a consolidated set of regulations. These regulations are in Title 2 of the Code of Federal Regulations, Part 200, and are referred to as the "Super Circular." The Super Circular also introduced new terminology, including "Recipient" instead of "Grantee" and "Subrecipient" instead of "Subgrantee."

Because terminology has changed, many of the terms used in the eGrants screens are not consistent with the current terms used in the Super Circular. Table 1-1 explains the terminology you will encounter in the eGrants System.
Table 1-1: eGrants Terminology

<table>

About This Guide

This guide has been updated for the newest release of the system (System Release 5.18) released in May 2017 and helps you to master creating and submitting subapplications to FEMA.

This guide tells you:

- About the Mitigation eGrants System
- How to become registered and access the Mitigation eGrants System
- How to use the Mitigation eGrants System to create and submit subapplications
• How to use the Mitigation eGrants System to manage a submitted subapplication as it progresses through the application and award processes

Because this guide is a quick reference guide, it focuses specifically on the information you need to step through the activities associated with creating, managing, and submitting subapplications.

In addition, this guide offers tips to help you enter the information needed and to use the Mitigation eGrants System effectively.
Unit 2 – Welcome to the Mitigation eGrants System

The Mitigation eGrants System

FEMA's eGrants system was developed as a part of the eGovernment initiative to reduce the time and paperwork involved in managing the entire federal award lifecycle.

The eGrants system consists of two parts:

- An External System for Applicants and Subapplicants
- An Internal System for FEMA users

What eGrants Can Do

The FEMA eGrants system was developed to provide state and territorial governments, federally-recognized tribal governments, and local governments with the ability to apply for and to manage the application processes for federal awards and subawards electronically. eGrants allows users to:

- Create and submit a project pre-application to the Applicant
- Create and submit a subapplication to the Applicant
- Review and process subapplications
- Create and submit an application to FEMA
- Review and process applications
- View and print award packages
- Submit Quarterly Performance Reports

eGrants currently processes applications for the following types of applications:

- Flood Mitigation Assistance (FMA)
- Pre-Disaster Mitigation (PDM)

eGrants currently processes Quarterly Performance Reports for the following types of federal awards:

- Severe Repetitive Loss (SRL)
- Repetitive Flood Claims (RFC)

Who Uses eGrants

eGrants is for:

- FEMA regional FMA and PDM coordinators
- Assistance Officers and regional management
- State points of contact for implementing the FMA and PDM grant programs
- Local community officials who would like to submit subapplications for funding
- Federally-recognized tribal governments
- FEMA Headquarters program and administrative offices
NOTE: Tribal governments may apply either as an Applicant directly to FEMA or as a Subapplicant, applying through a tribal Applicant or state agency.

How Subapplications and Applications Are Processed

Figure 2-1 depicts the flow of the subapplication and application processes in eGrants.

- A Subapplicant creates a subapplication using eGrants. When complete, the Subapplicant submits the subapplication to the appropriate Applicant for review.
- The Applicant reviews the subapplication for completeness and eligibility. The Applicant may request revisions to the subapplication. If changes are requested, the Subapplicant may revise the subapplication and resubmit it to the Applicant.
- Once the subapplication is approved, the Applicant may include the subapplications in an application to FEMA. A subapplication that is not selected may be stockpiled for future consideration.
- The Applicant creates an application, adds one or multiple subapplications, and submits the application to FEMA for consideration.
- FEMA reviews the application. FEMA may request revisions to the application. If changes are requested, the Applicant may revise the application and resubmit it to FEMA.
- FEMA conducts its review of all the submitted subapplications and selects subapplications for award. FEMA notifies the Applicant that the award package is obligated and the funds are available.

Figure 2-1: Subapplication and Application Flow Through eGrants

In eGrants, applications and subapplications are created, revised, and submitted online.
- The Applicant then manages the federal award and submits Quarterly Performance Reports to FEMA.

**Becoming a Registered User**

You must be a registered user to use eGrants. To become a registered user of eGrants, contact your FEMA region and request user access. You will receive information that will allow you to register.

*NOTE: You must register before you can register Suapplicant users.*

**Internet Access**

Because eGrants is a web-based system, you must have Internet access and e-mail service to become a registered user and access eGrants. You are free to choose any Internet service provider (ISP) and e-mail service that meets your needs.

**User ID and Password**

User access to eGrants is authenticated via a User ID and a password to protect the integrity of the system and the application information.

You will create your own User ID and password the first time you access the eGrants site.

*CAUTION: It is your responsibility to secure and protect your User ID and password from easy detection and use by unauthorized users. Anyone with your User ID and password can log in to eGrants as you, and the system cannot tell the difference. As a precaution, consider changing your password every 30 to 90 days. If at any point you believe your User ID and password have been compromised, immediately notify your FEMA regional office.*
Unit 3 — Using the Mitigation eGrants System

Using eGrants

eGrants offers written directions (Figure 3-1) and helpful hints at the beginning of each screen and at critical positions on each screen to guide the user through the system and follows many of the conventions used in other web-based systems.

Figure 3-1: Example of directions

Navigating within eGrants

eGrants works much like other web-based applications:

- Click a button to perform a function
- Click a blue link to move to a specific place in the application
- Use the [TAB] key (on the keyboard) to move from field to field
- Enter text into text boxes in the format described next to the field
- Use drop-down menus to make selections where applicable
- Use the scrollbars to move up and down through the screens
- Click underlined help links to access help screens

Unlike most web-based systems, however, when working in eGrants, DO NOT use the Back and Forward buttons on your browser to move from one page to another. Instead, use the application buttons—Go Back, Save, and Save and Continue—located at the bottom of the eGrants screens. Using these application buttons ensures that the information you enter is saved and stored in eGrants. Failure to use these application buttons could result in loss of your data.

CAUTION: Always use the eGrants application Back and Forward buttons and not the Back and Forward buttons on your browser. Using the buttons on the browser could result in loss of your data.

Menus

Like most web-based solutions, eGrants is menu driven. Several types of menus are used in eGrants.

Main Menu

The main menu, seen in Figure 3-2, is located across the bottom of the eGrants screen. The main menu allows you to navigate to various user features in eGrants, for example:
Figure 3-2: Main menu

Task Menus

Task menus, seen in Figure 3-3, are found on the Grant Applicant Homepage. The hyperlinked task menus allow you to navigate to a particular activity to perform, for example:

- Administration
- Review submitted subapplications
- Create new applications
- Revise/Amend submitted subapplications
Sidebar Menu

The sidebar menu, shown in Figure 3-4, is located on the left of the application section windows. The sidebar menu allows you to move to a specific section of the application without having to view each section consecutively.
Entering Data

To enter data into a field, click the field if it is a text field, or click the down arrow if the field has a drop-down menu. Then either type the data into the field or select the appropriate data from the drop-down menu. If a specific format is required for the data, the format is shown next to the field.

To change data you have entered in a field, click the field, and either delete the data you previously entered if it is a text field and type in the correct data or make a different selection from the drop-down menu. Remember to save the data by clicking on the Save or Save and Continue buttons at the bottom of the screen to ensure that your data are saved in eGrants.

On some screens, you will see Find and Search buttons that will help you to locate the information you need to enter into a text field. Some text fields also provide an example, like in Figure 3-5, of how to format the information to be entered in the field.

Figure 3-5: Example for data entry format

As you progress through eGrants, you will sometimes encounter text fields that have been filled with data. eGrants fills these fields for you from information you have previously entered, reducing the amount of data you need to enter.

Required Text Fields

Certain text fields within each section of the application are required. Required text fields are designated by a red asterisk (*).

Data must be entered in every required text field before an application can be submitted. This does not mean that you should enter data into every required text field as you create the application. You can enter the data you have, save data you have entered, move to another section of the application, and then return to that section later to complete all the required text fields.

Saving Data

It is important that you actively save the data you enter into sections of eGrants to prevent the loss of your data. Data are not saved in eGrants until you actually save it. Saving the data causes the data to be sent from your computer to the eGrants server, where it is stored.

Two Save buttons are provided at the bottom of each section:

- **Save and Continue**—saves the data you have entered in a section of the application and automatically moves you to the next section of the application.
- **Save**—saves the data you have entered in that section of the application but does not automatically move you to the next section of the application.

Be sure to save your data:
• Before you move to different section or page in the application.
• Before you take a break from entering information into an application.
• Before being timed-out by the system. eGrants times-out after 20 minutes of inactivity, at which time your session is closed and any data you have entered that you have not saved will be lost. Figure 3-6 shows where the session expiration notice appears at the top-left of your eGrants screen.

**Figure 3-6: Session Expiration Notice**

**CAUTION: Failure to use the Save buttons will result in loss of the data you have entered since the last time you clicked on the Save or Save and Continue button.**

### Grayed (Inactive) Buttons
As you access different screens and functions within eGrants, you will notice that, at various points in the process, certain buttons are grayed out (see Figure 3-7). This indicates that these selections are not activated or applicable for use at that time. Usually, this means that information must be provided in a prior text field to activate a grayed button. Entering data into the field and clicking the **Save** button will cause an inactive button to become active.

**Figure 3-7: Example of a grayed out (inactive) button**

### Getting Help
This section explains the variety of help sources available to you in eGrants.

#### Field Help
Many screen fields offer a Help feature. Click the **Help** link at the end of a field to receive an explanation of the information that is expected in that field. For example, see the **Help** link in Figure 3-8.
Application Help

Help at the application level is offered in a variety of ways, all of which are accessible from the Main Menu that appears at the bottom of the eGrants screen:

- **eGrants Help**—allows you to access help, including hints and tips for first-time users, help on technical issues, and lists of resources
- **Glossary**—defines key terms used within eGrants

Technical Support

For additional help, contact your FEMA regional office or the eGrants Help Desk at **1-855-228-3362** or e-mail **MTeGrants@fema.dhs.gov**. Help Desk hours are normally Monday through Friday, 9:00 am to 6:00 pm Eastern Standard Time. Help Desk hours may be extended preceding application deadlines.

Training

FEMA has developed an online independent study course designed to provide Applicants with the basic knowledge to use the eGrants system. The course examines:

- Registering for and access to eGrants
- Creating, reviewing, completing, and submitting subapplications
- Managing submitted applications

The **IS-0031.b Mitigation eGrants for the Applicant** course can be accessed through the FEMA Emergency Management Institute (EMI) website at: https://training.fema.gov/is/courseoverview.aspx?code=IS-31.b.
Unit 4 — Logging into the Mitigation eGrants System

Access to the Mitigation eGrants System

Access to eGrants is restricted and controlled. eGrants is to be used only for official business. Contact your FEMA regional office to obtain the special Access ID (access code) that will allow you to create your User ID and password and to request access to eGrants.

Once you have received your Access ID information:

1. Copy or enter the DHS FEMA Enterprise Identity Management System (FEIMS) website address URL https://portal.fema.gov/famsVuWeb/home into your web browser address bar.

The DHS FEMA Enterprise Identity Management System login screen is displayed (Figure 4-1).

![Figure 4-1: DHS FEIMS Login screen](image)

Requesting Access and Creating Your User ID

The first time you access eGrants, you must complete the profile information to request access to eGrants and to create your User ID and password. You may be notified by e-mail when your application for access is approved. You only create a User ID and password the first time you log into eGrants.

Even though the Access ID allows you to access the eGrants registration process, your request for registration and the User ID and password you create must be approved before you can use them to access the eGrants application system to perform tasks.

**Note:** More than one official from a Subapplicant agency may request access and register to use eGrants.

1. Select the New Non-PIV User? button (Figure 4-2).
2. Follow the instructions on the Security check page (Figure 4-3) and type the characters in the image into the text box and click the Submit button. If you cannot see the characters, click the If you cannot view the image for any reason, please click here to proceed link.

3. Complete the data boxes on the FEIMS registration form (Figure 4-4) by entering text and making the appropriate selections from the drop-down menus. When you have completed all the fields, click the Submit button at the bottom of the registration form.
Organization Search

It is important to ensure that all users from the same organization inputs the organization’s name consistently. To guarantee that this happens, rather than typing in the organization name, you should search the system to find the name as it already appears in the eGrants system.

To locate the name of your organization in eGrants:

1. Click the **Search** link in the Contact(s) section (Figure 4-5).
2. The Organization Search pop up window appears.
   a. From the Fields drop-down menu, select “Contains.”
   b. Type the first few letters of your organization's name in the Criteria text field.
3. Click the **Search** button.
User ID and Password

As you complete the FEIMS registration form, you will be asked to create a User ID (Figure 4-6). Check with your organization and FEMA Region mitigation contact to learn if it has established any naming conventions. Your User ID must meet the following criteria:

- All letters should be lowercase
- A minimum of seven characters
- A maximum of 10 characters
- NOT contain any special characters (e.g., %, $, or ?)

To be granted access to eGrants:

1. Create a password and re-type it to confirm.
2. Click the Submit button at the bottom of the screen.
3. You will receive a confirmation screen, acknowledging your FEIMS Account has been created. This allows you to request privileges to FEMA’s electronic applications.
4. Click the **Click here to request new privileges** link (Figure 4-7).

![Click here to request new privileges](image1)

*Figure 4-7: FEIMS request new privileges link*

5. Click the **Request Access** button for Mitigation eGrants Application (Figure 4-8).

![Request Access button](image2)

*Figure 4-8: Request Access button*

6. Enter the Access ID you were given by your state, territorial, or tribal Applicant and click the **Submit** button.

7. An e-mail message will be sent to the e-mail address you entered when your registration has been approved.

**Note:** The Applicant must be registered with eGrants before any of its Subapplicants can be registered. If information you entered when you created your User ID changes, you must update this information in your user profile.

**Logging in Once You Are a Registered User**

Once your request for access has been approved by your FEMA regional office, you may access and log into eGrants. You log into the system by entering the User ID and password you created when you completed the registration request.

1. Enter or copy the web address for the [FEIMS URL](https://portal.fema.gov/famsVuWeb/home) in the address field of your Internet browser. The FEIMS screen is displayed.
2. Enter your User ID and password and click the **Login** button. The Grant Applicant Homepage is displayed.

**The Grant Applicant Homepage**

The Grant Applicant Homepage (Figure 4-9) is the primary screen for navigating and accessing the different tasks you perform in eGrants. This screen gives you access to functions that allow you to:

- Perform Administrative functions, such as reviewing and approving user registration requests
• Enter, work on, and review subapplications
• Create and work on an Applicant acting as Subapplicant subapplication
• Create, work on, and review an application
• View and print federal awards
• Attach and submit Quarterly Performance Reports
• Change your password
• Edit your user profile
• Access the eGrants help functions, including:
  o Contact information for eGrants
  o eGrants Glossary
  o Link to the FEMA and eGrants Homepages

Click the link for the appropriate activity to access these functions.

Figure 4-9 eGrants Grant Applicant Homepage

NOTE: This User Guide does not cover how to create a subapplication, either from a paper application on behalf of a Subapplicant or as an Applicant acting as a Subapplicant subapplication. Consult the FEMA Mitigation eGrants Subapplicant Quick Reference Guide for directions on how to create a subapplication.

NOTE: For Applicant acting as Subapplicant subapplications, the Applicant must select “Statewide” for the Community name field and for the Federal Identification Processing Standard (FIPS) Place Code field in the Properties section.
Changing Your User Profile

If information changes that you entered when you created your User ID, such as your e-mail address or phone number, you should update this information in eGrants. In addition, periodically you will be prompted by eGrants to confirm and update your user profile.

1. Log into eGrants. The Grant Applicant Homepage is displayed.
2. Click **Edit Profile** link at the top of the screen (Figure 4-10). The Edit Profile screen is displayed.

   ![Figure 4-10: Edit Profile link](image)

3. Click any field that needs to be changed, then delete the existing information and enter the new information.
4. When you have entered all the changes, click the **Save** button at the bottom of the screen. Your User Profile is updated.

Changing Your Password

You should change your password if you have reason to believe your User ID or password has been compromised. You should also consider changing your password every 30 to 60 days as an additional precaution.

1. Log into eGrants. The Grant Applicant Homepage is displayed.
2. Click **Change Password** link at the top of the screen (Figure 4-11). The Change Password screen is displayed.

   ![Figure 4-11: Change Password link](image)

3. Enter your Username, your old password, your new password, and then confirm your new password again.
4. Click the **Save** button at the bottom of the screen. Your password is changed.
Logging out of eGrants

When you are finished performing your activities in eGrants, you should exit the system by logging out. Do not simply click the “X” and close the browser window because this may leave your eGrants session active.

1. From the Grant Applicant Homepage or many other screens in eGrants, click the **Logout** button located at the bottom of the screen. You can also click **Logout** link on the sidebar menu or the Logout menu option in the upper right corner of the eGrants window (Figure 4-12).

   ![Figure 4-12: Logout button and Logout link](image)

   **Figure 4-12: Logout button and Logout link**

2. Your session in terminated and you are logged out of eGrants.

   **CAUTION: You must click the Save or Save and Continue button before logging out of eGrants to ensure that the data you have entered is saved and not lost.**
Unit 5 — eGrants System Administration

System Administration

In addition to completing and submitting applications, Applicants are also responsible for:

- Managing user registration for their Subapplicants
- Reviewing subapplications
- Creating and submitting subapplications and applications

As an Applicant, you may be assigned a user role that requires you to manage the user registration requests of your Subapplicants. This allows you to set certain preferences within eGrants that control what your Subapplicant users can see and do. You must set these options before you or your Subapplicants can submit applications.

Setting Preferences

Preferences allow you to specify which additional features available in eGrants will be available to your grant and Subapplicant users.

**CAUTION:** The preferences you select apply to all of your Subapplicant users; preferences may NOT be set for individual users.

The preferences you will set are:

- **Enable Subgrant Pre-Application**—allows you to activate the pre-application module, which requires Subapplicants to complete a pre-application for projects.
- **Enable Subgrant View of SF 424**—allows a Subapplicant to view the subapplication as an SF 424, Application for Federal Assistance.
- **Enable Subgrant Assurances and Certification**—allows you to activate the Assurances and Certification forms for Subapplicants to complete.
- **Enable External Email**—allows e-mail notifications to be sent to the Subapplicants from within eGrants. If this preference is not set first, no registration emails will be sent to registrants.

**CAUTION:** If external e-mail is not enabled, no registration e-mails will be sent to Subapplicant registrants.

From the Grant Applicant Homepage, click the Administration link (Figure 5-1). The Preferences screen is displayed.
Figure 5-1: Administration link on the Grant Applicant Homepage

1. Click the Set Preferences button. The Set Preferences screen is displayed.
2. Set each preference to “Yes” or “No” by clicking on the applicable radio button (Figure 5-2).

Figure 5-2: Administrative Preferences and radio buttons

3. Click the Help link to receive an explanation of the preference.
4. When you are finished, click the Save and Continue button. The Preferences screen is displayed, showing the preference settings you have selected.

Managing User Registrations

User registration is the process by which information is collected from users about their identity, the organization with which they are associated, and how they can be contacted. The actions that the users can perform are also set.

All users who want access to eGrants must register and be approved by an approving organization:
Applicants approve or deny registration requests from Subapplicants.
The FEMA Regional Office approves or denies registration requests from Applicants.

Access request forms that are completed (online) and submitted by a new user, but have not yet been reviewed and approved or denied are called “Pending Registrations.” If you have been assigned the user role to review and approve user registration requests from your Subapplicants, you must review pending registrations and either approve or deny the request.

**NOTE:** Users cannot access eGrants until their registration requests have been approved.

Registration requests from Subapplicants are automatically routed to you as they are submitted in eGrants. eGrants does not notify you of new pending registration requests, so you need to check on a regular basis.

**HINT:** Access the administration activity on a regular basis to check for pending registration requests.

### Reviewing User Registration Requests
For each registration request, you may perform the following actions:

- **View**—allows you to read the user registration information, but not set user roles or approve, deny, or revoke access to eGrants.
- **Review**—allows you to read the user registration information and to set user roles or approve, deny, or revoke access to eGrants.
- **Deny/Revoke**—allows you to deny the user registration request or to revoke access to a user who has already been granted access without reviewing the user registration information.

### To Process Registration Requests
1. From the Grant Applicant Homepage, click the **Administration** link. The Preferences screen is displayed.
2. Click the **Pending User Registrations** link on the sidebar menu (Figure 5-3). The Pending User Registration screen is displayed, showing a list of the Subapplicant registrations you need to manage.
Figure 5-3: Pending User Registrations link on the sidebar menu

a. Click the **Continue** button to view more pending registrations. If there are no pending user registrations, clicking the **Continue** button will take you to the Approved User Registrations screen (Figure 5-4).

b. Click the **Search** button and enter search criteria to locate a specific user registration request.

3. Click the **View** link in the Action column to view a registration request without approving or disapproving it. The registration request is displayed in read-only format.

4. Click the **Review** link in the Action column to review and approve or disapprove a registration request. The Review Registration screen is displayed.

Review the registration request information. To approve a registration request, select the roles to be assigned to the user. Click the **Action** checkboxes to be applied to this user.

The user roles may be set to:

- View/Print only
- View/Print and Create/Edit
- View/Print, Create/Edit, and Sign/Submit
5. Enter comments in the Comments field.
6. Click the **Save and Continue** button. A standard e-mail message advising the user of the acceptance of his or her registration is displayed.
7. To deny a user registration request, click the **Deny/Revoke Action** checkbox.

**NOTE:** Before you select the Save and Continue button, you must deselect all other roles in the action column or an error message will appear.

8. Click the Comments field and enter text explaining the reason for the denial.
9. Click the **Save and Continue** button. A standard e-mail message advising the user of the denial of his or her registration is displayed.
10. Click the **Send Email** button to send the e-mail message to the user. The Registration Denied/Revoke screen is displayed.
11. Select **Review More Registrations** button to review another pending registration. Click the **Go Back** button to return to previous page or click the **Return to Home** link on the sidebar menu. The Grant Application Homepage is displayed.

**Changing User Roles**

Sometimes it is necessary to change the roles (actions) a user is allowed to perform within eGrants. For example, a user may request permission to sign and submit subapplications, in addition to being able to view/print and create/edit. Roles are changed through the user registrations by the following process:
1. From the Grant Applicant Homepage, click the Administration link. The Preferences screen is displayed.
2. Click the Approved User Registrations link on the sidebar menu. The Approved User Registrations screen is displayed.
3. Locate the user registration you need to change.
4. For that user, click the Review link in the Action column. The Review Registration screen is displayed.
5. Click the Action checkbox(es) you want to select or deselect for this user.
6. Click the Comments field and enter comments explaining the reason for this change in user roles (Figure 5-5).

![Figure 5-5: Comment explaining the reason for change in user roles](image)

7. Click the Save and Continue button. A standard e-mail message is displayed.
8. Click the Send Email button to send the e-mail message to the user.
9. Click the Review More Registrations button to find another user to change that user's roles or click the Return to Homepage link on the sidebar menu to return to the Grant Applicant Homepage.

### Reassigning Permissions to an Application or Subapplication

It is sometimes necessary to reassign permissions for subapplications that can be accessed by a user. For example, if an Subapplicant user is retiring and needs to provide his or her successor with access to a subapplication, the Applicant can use the Reassign Permissions function. FEMA can also reassign user permissions for Applicants. The original user will still retain access privileges to the applications, so it also may be necessary to revoke the original user’s access privileges (see the Revoking a User ID section).

**CAUTION:** When you reassign permissions, you are reassigning access for all of the user's subapplications.

**CAUTION:** When you reassign permissions, the original user will still retain access privileges. If necessary, you will also have to revoke the original user’s User ID.

To reassign permissions:

1. From the Grant Applicant Homepage, click the Administration link. The Preferences screen is displayed.
2. Click the **Approved User Registrations** link on the sidebar menu. The Approved User Registrations screen is displayed.
3. Locate the user registration you need to change.
4. For that user, click the **Reassign Permissions** link in the Action column (Figure 5-6). The Search screen is displayed.

![Figure 5-6: Reassign Permissions link](image)

5. Enter the search criteria to locate the user whom you wish to reassign permission to all applications and subapplications.
6. Click the **Search** button. The Search Results screen is displayed, showing all the users who meet the search criteria.
7. Check the box next to the user for whom you want to authorize access. Click the **Reassign Permission(s)** button (Figure 5-7).

![Figure 5-7: Checkbox selected and Reassign Permission(s) button](image)

8. The Confirm Reassignment of User Permission(s) screen is displayed. Click the **Yes** button to confirm the reassignment of all permissions to the selected user.
9. A confirmation message appears, indicating that you have successfully reassigned applications to another user. Click the **Return to Homepage** link on the sidebar menu to return to the Grant Applicant Homepage.
Revoking a User ID

It may be necessary to revoke a user’s registration and, therefore, the user’s access to eGrants. For example, if a user no longer works for the local government agency represented in the registration.

To revoke a User ID:

1. From the Grant Applicant Homepage, click the Administration link. The Preferences screen is displayed.
2. Click the Approved User Registrations link on the sidebar menu. The Approved User Registrations screen is displayed.
3. Locate the user registration you need to change.
4. For that user, click the Review link in the Action column. The Review Registration screen is displayed.
5. De-select all other roles in the Action section. You must do this or an error message will appear when you try to Save this action.
6. Click the Deny/Revoke checkbox in the Action column (Figure 5-8).

Figure 5-8: Deny/Revoke checkbox

7. Click the Comments field and enter comments explaining the reason for denying this user’s access to eGrants.
8. Click the Save and Continue button. A standard e-mail message is displayed.
9. Click the Send Email button to send the e-mail message to the user.
10. Click the Review More Registrations button to find another user to change that user’s roles or click the Return to Homepage link on the sidebar menu to return to the Grant Applicant Homepage.
Entering a Paper Subapplication (Application Intake)

Entering a paper subapplication into eGrants is the same as creating a subapplication, except the Applicant user must certify that a signed copy of the paper subapplication is on file.

**NOTE:** Subapplication numbers for subapplications submitted in paper form are marked with a red P in the eGrants system.

1. From the Subgrant Applications task menu on the Grant Applicant Homepage, click the **Enter Paper Subgrant Application (Application Intake)** link (Figure 5-9). The Enter Paper Subgrant Application screen is displayed.

![Figure 5-9: Enter Paper Subgrant Application (Application Intake) link](image)

2. Enter the subapplication title and select the application type from the drop-down menu.
3. If applicable, enter the Paper Application Document Control Number in the text field.
4. Check the electronic signature checkbox to certify that you are processing the paper subapplication (Figure 5-10).

![Figure 5-10: Electronic signature checkbox](image)

5. Click the **Save and Continue** button. The Start New Subgrant Application screen is displayed.
6. Click the **Start New Application** button. The Application Status screen is displayed, showing each of the sections that need to be completed for the type of subapplication you selected (Figure 5-11). In the directions, there will be a statement in red text, “This is a paper application.”
7. Click the **Subapplicant** link (or the link for any other subapplication section) on the sidebar menu. The Subapplicant Information screen is displayed.

8. You can access each section of the subapplication either by clicking on a section’s **Incomplete** link in the Application Status screen or by clicking on the specific section link in the sidebar menu.

**NOTE:** Required fields are designated with an asterisk (*). Information must be entered into all of the required fields before the subapplication can be submitted. If you do not have all of the required information at this point, you may enter what you have, save the information, and return later to complete the remaining fields.

9. When you have finished entering the data in this section, click the **Save and Continue** button. The next section required for the subapplication is displayed.

**CAUTION:** Do not use the Back and Forward buttons on the browser toolbar to move through the subapplication. Instead use the eGrants buttons—Go Back, Save, and Save and Continue—located at the bottom of the screens. Using these buttons ensures that the information you enter is saved and stored in eGrants. Failure to use these application buttons could result in a loss of data.

10. Continue entering information into the different sections of the subapplication until you have completed each section. When you have
entered all information, your subapplication is ready to be reviewed and submitted.

Reviewing and Submitting a Paper Subapplication

When all sections of the paper subapplication have the status of "Complete," the subapplication may be submitted electronically in eGrants on behalf of the Subapplicant. Only users with Sign/Submit access may submit a paper subapplication into eGrants. The **Review and Submit** link in the sidebar menu facilitates this process.

1. On the Grant Applicant Homepage, click the **Work on Un-submitted Paper Subgrant Application** link (Figure 5-12).

   ![Figure 5-12: Work on Un-Submitted Paper Subgrant Application link](image)

   **Figure 5-12: Work on Un-Submitted Paper Subgrant Application link**

   2. The Grant Status: Un-submitted Paper Application(s) screen displays. Click the **Update Application** link for the subapplication title.

   3. The Application Status screen displays. Click the **Review and Submit** link on the sidebar menu (Figure 5-13).
4. The Review and Submit Application screen displays. Click the **Complete** link for each section and review the information to ensure that is complete and accurately reflects the information from the paper subapplication.

5. If applicable, enter or update the Paper Document Control Number in the text field.

6. To print the subapplication, click the **Entire Application** checkbox and click the **Print** button (Figure 5-14).
7. Click the electronic **signature** checkbox to indicate that you are signing the subapplication. Then, click the **Submit Application** button.

Once submitted, the paper subapplication will be added to the list of all subapplications available to be attached to an application. The number assigned to the paper subapplication will be prefaced with a red “p” to indicate that it was compiled and submitted on paper by the Subapplicant, but entered into the eGrants system by the Applicant.

### Reviewing Subapplications

**What is a “Review”?**

As an Applicant, you must review and approve (or not approve) subapplications that have been submitted to you. Reviewing subapplications is one of the core functions of eGrants. When you review a subapplication, you review the content of each section and determine if the subapplication submitted is:

- Sufficiently complete to approve
- Incomplete and in need of revision
- To be released to the stockpile, or retained for consideration for another application
- To be disapproved

When you review a subapplication, you locate the subapplication, check it out, review each of the sections, request revisions as needed, and then check it back in.

**NOTE:** Applicants do not need to review their own Applicant acting as Subapplicant subapplications.

**NOTE:** Subapplications can be viewed only by the Subapplicant’s state, tribe, or territory. Applicants from other states, tribes, or territories may NOT view a Subapplicant’s application. Once a subapplication is attached to an application and submitted to FEMA, FEMA can also view it.

### Checking Out and Checking In Subapplications

For any Applicant, there may be more than one registered user with review and/or approval rights for subapplications. To ensure that only one person is working on a subapplication at a time, you must first **Check Out** the subapplications, much like checking out a book from a library. While a subapplication is checked out, no other users can work on it. Other users may view (Read Only) the subapplication, but will not be able to review it or check it out.

When you are finished reviewing a subapplication, you must **Check In** the subapplication so that it is available to other users. You must **Check In** a
subapplication before a Subapplicant can access it to make revisions and before you can attach it to an application.

The check-out/check-in feature ensures that another user does not duplicate your review. It also allows you to reserve applications that you would like to include in an application for your agency.

Reviewing a Subapplication

To Review a Subapplication

1. From the Grant Applicant Homepage, click the **Review Submitted Subgrant Application(s)** link (Figure 5-15).

![Figure 5-15: Review Submitted Subgrant Application(s) link](image)

2. The Overview screen is displayed, showing your pending tasks in the upper part of the screen and the subapplications checked out to you in the lower part of the screen. Click the **View Subgrant Application(s)** link in the sidebar menu (Figure 5-16).
3. The View Subgrant Applications screen is displayed, listing the submitted subapplication to which you have access to review. The Review Status column shows the current status of the subapplication.

4. Click the Continue button or click the Check Out Subgrant Applications link on the sidebar menu (Figure 5-17). The Check Out Subgrant Applications screen is displayed.

NOTE: Users may view subapplications without checking them out by simply clicking the View link in the Comments column next to the appropriate subapplication. However, for a subapplication to be reviewed and approved, it must be checked out first. You must check in subapplications that you approve before you can include them in an application.
5. Click the checkbox next to the subapplication(s) you want to check out.
6. Click the **Check Out Applications** button (Figure 5-18). The Confirm Application Check Out screen is displayed, showing the subapplication(s) you selected for check-out.

![Checkbox selected and Check Out Applications button](image)

Figure 5-18: Checkbox selected and Check Out Applications button

7. Click the **Yes** button to check out the selected subapplication(s). The Review Subgrant Applications screen is displayed, showing all the subapplications checked out to you.
8. Click the **Review** link in the Action column for the subapplication you want to review. The Review Subgrant Application screen is displayed, showing the status of each section of the subapplication (Figure 5-19).
9. Click the **Complete** or **Incomplete** links in the Status column to review the contents of each section.

10. Enter comments and data as needed, and click the **Save and Continue** button. To enter a comment:
   a. Click the **Add Comments** button at the bottom of the page. The Add/Modify Comments screen is displayed.
   b. Click the appropriate text box and enter your comment.
   c. Click the **Save** or **Save and Continue** button. The Review Subgrant Application screen is displayed.

11. Once you have reviewed all the application sections you can select the appropriate Review Status radio button to approve, request revisions, release to stockpile, or disapprove the subapplication (Figure 5-20).

**HINT:** If you change or add any data to the subapplication, it is best to document your changes in the Comments field for the section you changed. This documents the change or addition and allows you to explain why it was needed.

**NOTE:** Sections that must be completed by the Applicant are noted in the Sections to be Completed column.
To Approve a Subapplication

1. Click the Approve radio button.

**NOTE:** All of the sections in the Application Status table must be complete before an application can be approved.

2. Enter any additional comments in the Comments field.
3. Click the Save and Continue button.

To Request Revision of a Subapplication

1. Click the Request Revision radio button.
2. Enter the date by which the revisions must be submitted by the Subapplicant in the Set Revision Deadline field.
3. Enter comments explaining the revisions you would like made to the subapplication in the Comments field (see example in Figure 5-21).

4. Click the Save and Continue button. The subapplication is returned to the Subapplicant for revision.
To Release the Subapplication to the Stockpile

The “Stockpile” is simply a collection of subapplications that have neither been approved nor disapproved, like putting the subapplications in a file drawer.

1. Click the **Release to Stockpile** radio button.
2. Click the **Save and Continue** button.

To Disapprove a Subapplication

1. Click the **Disapprove** radio button.

**NOTE:** Subapplications that are disapproved are moved to the stockpile.

2. Enter your reason(s) for disapproving the subapplication in the Comments field.
3. Click the **Save and Continue** button.

When you click the **Save and Continue** button after approving, requesting revisions, releasing to stockpile, or disapproving the subapplication; the Review Subgrant Application Results screen is displayed. The Review Subgrant Application Results screen shows the current status of the subapplication (Figure 5-22).

![Review Subgrant Application Results](image)

**Figure 5-22: Review Subgrant Application Results screen**

4. Click the **Return to Review Applications** button to return to the Review Subgrants Applications screen.
5. Check In the subapplication.

To Check in One or More Subapplications

1. From the Grant Applicant Homepage, click the **Review Submitted Subgrant Application** link. The Overview screen is displayed, showing your pending tasks in the upper part of the screen and the subapplications checked out to you in the lower part of the screen.
2. Click the **Check In Subgrant Application(s)** link on the sidebar menu (Figure 5-23). The Check In Subgrant Applications screen is displayed, showing a listing of the subapplications currently checked out to you.

![Check In Subgrant Application(s) link on the sidebar menu](image)

*Figure 5-23: Check In Subgrant Application(s) link on the sidebar menu*

3. Click the checkbox next to the application(s) you want to check in.
4. Click the **Check In Applications** button (Figure 5-24). The Confirm Application Check In screen is displayed, showing the subapplication(s) you selected for check in.

![Select checkbox and Check in Applications button](image)

*Figure 5-24: Select checkbox and Check in Applications button*

5. Click the **Yes** button to check in the selected subapplications. The Overview screen is displayed, showing your pending tasks and the subapplications still checked out to you.
Creating Applications in eGrants

Applications in eGrants

In addition to facilitating your review of subapplications, another primary purpose of eGrants is to assist you in creating applications. Through eGrants, you can electronically prepare and submit:

- Applications, depending on your roles, including:
  - Flood Mitigation Assistance (FMA) applications: Project, planning, management costs, and technical assistance
  - Pre-Disaster Mitigation (PDM) applications: Project, planning, and management costs
- Subapplications, when you are:
  - Acting as a Subapplicant to submit a subapplication on behalf of the Applicant
  - Entering a paper subapplication that was submitted to you on behalf of a Subapplicant (Application Intake). For instructions on the Application Intake process, refer to the *Entering a Paper Subapplication* section above.

You can find instructions for preparing subapplications in the *Mitigation eGrants Subapplicant Quick Reference Guide*.

Sections of the Application

eGrants automatically presents you with the application sections you must complete. In addition, eGrants ensures that you have provided all the data elements required to process the application and, where it can, validates the format of the data. Table 2-1 outlines the sections of the application.

<table>

How to Create a New Application

eGrants guides you through the process of creating your application.

1. From the Grant Applicant Homepage, click the **Create New Grant Application** link (Figure 5-25). The Create New Grant Application screen is displayed.

![Image of Create New Grant Application link](Figure 5-25)

   - Enter a descriptive application title.
   - Select the application type from the drop-down menus.
   - Click the **Save and Continue** button. The Start New Grant Application screen is displayed.
   - Click the **Start New Application** button (Figure 5-26). The Application Status screen is displayed, showing the sections to be completed for this type of application.

![Image of Start New Application button](Figure 5-26)
NOTE: You may also use the Copy Existing Application button to copy sections from an existing application. See the Copying an Existing Application section for more information.

1. Click the Applicant Information link on the sidebar menu. The Applicant Information screen is displayed (Figure 5-27).

HINT: You can access each section of the application by clicking on the section’s Incomplete link in the Application Status window, the specific section on the sidebar menu, or Save and Continue button.

2. Enter the data elements requested. If you have any questions about the data you are entering or if you need help finding information, contact your FEMA Regional office.

NOTE: Required fields are designated with an asterisk (*). Information must be entered into all of the required fields before the application can be submitted. If you do not have all of the required information, you may enter what you have and save the application, then return later to complete the remaining fields.

3. When finished entering the data in this section, click the Save and Continue button. The next section required for the application is displayed.

CAUTION: Be sure to click either Save or Save and Continue before you move from to another section to ensure that your data are saved.
4. Continue entering information into the different sections of the application until you have completed each section. When you have entered all of the information, your application is ready to be reviewed and submitted.

Copying an Existing Application

You may find that the information required in an application is the same across applications. This is especially true for information about your organization and contact information, but may also be true for other sections. The copy feature helps to reduce the need to re-enter information between similar applications.

The copy feature allows you to copy all or specific sections from an existing application into a new application. You can then access the sections and fields that are different in the new application to change and save the new values.

Create a Template

One technique is to create a “template” of your standard organizational information. When starting each new application, you then copy the information from the template as the first step.

To create a template:

1. Start a new application. Title the application "Project Template" or something similar (Figure 5-28).

![Figure 5-28: “Project Template” application title example]

2. Enter the organizational information that will not change for each application, such as your organization name and address and contact information.
3. Save the "template" application.
4. When you start a new application, select the appropriate template application and click the Copy Existing Application button (Figure 5-29).
5. Access each section to verify that the information you copied from the template applies to this application and change any copied information that needs to be changed.
6. Enter the remaining information needed for the application.
7. Review and submit the application following the normal process.

To Create a New Application from an Existing Application

From the Grant Applicant Homepage, click the Create New Grant Application link. The Create New Grant Application screen is displayed.

1. Enter an application title and select the application type. Click the Save and Continue button. The Start New Grant Application screen is displayed, showing the list of applications you have already created.
2. To view an application before selecting it to copy, click the View Application link in the View column. The View Grant Application Sections window is displayed. Click the View link associated with a specific section of the application to view it (Figure 5-30).
a. Click the checkbox associated with one or more sections and click the Print button to print specific sections of the application.
b. Click the Close Window button to close the View Grant Application Sections window.

3. Click the radio button next to the name of the application you want to copy.
4. Click the Copy Existing Application button. The Copy Application Sections screen is displayed.
5. Click the checkboxes for each section you want to copy. Click the Save and Continue button. The Application Status screen is displayed.
6. Using the sidebar menu, click each section of the application to review its contents and change the data as needed. As you finish each section, click the Save and Continue button to save your new data. The next section required for the application is displayed.

**CAUTION:** If the sections in the application you copied from were complete, those sections will be shown as complete in your new application.

**CAUTION:** The comments and attachments in the sections selected will be copied to the new application.

**CAUTION:** When you copy sections from an existing application, always be sure to review the data elements in each section of the new application to ensure that the copied data are applicable to the new application.
7. When you have reviewed each section, and changed the data that needs to be changed, enter data for the new application into the remaining application sections.

8. When finished with the remaining sections, the new application is ready to be reviewed and submitted.

How to Use a Find and Search Functions

Find and Search buttons are associated with various fields on a variety of screens. These buttons allow you to search for information (e.g., an organization name or contact name) that already resides in eGrants. These features help to standardize wording and capitalization that is used across applications.

1. Click the Find button (Figure 5-31) or Search button (Figure 5-32) that is located next to the field. The Search screen is displayed.

![Figure 5-31: Example of a Find button](image1)

![Figure 5-32: Example of a Search button](image2)
2. Enter the search criteria (Figure 5-33).

![Figure 5-33: Search criteria for Registered Users](image)

3. Click the **Search** button. The Search Results screen is displayed, showing the information stored in eGrants that meets the criteria you entered.

4. Click the appropriate entry and then click the **Select** button. The eGrants section screen is displayed with the information you selected populated in the appropriate field.

5. If the search results did not show the information you were searching for, click the **Go Back** button to return to the eGrants screen and enter different search parameters.

**Attaching Subapplications to Your Application**

You attach subapplications to your application through the Subgrant Application screen.

---

**NOTE:** A subapplication must have been submitted and approved by you as the Applicant before you can attach it to an application.

---

The Subgrant Application screen lists the subapplications that are currently attached to your application, allows you to search for subapplications to attach to your application, and allows you to attach additional subapplications to your application.

1. On the Subgrant Applications screen, click the **Add Subgrant Application(s)** button (Figure 5-34). The Select Subgrant Applications screen is displayed, listing all approved subapplications.

---

**NOTE:** A subapplication must have been Checked In to be listed for adding to applications.
2. Click the checkbox next to the subapplication(s) you want to attach to your application. Click the **Add Subgrant Applications** button. A confirmation screen is displayed.

3. Click the **Yes** button. The Edit Subgrant Ranks screen is displayed.

4. Enter a rank for each subapplication in the Rank column (see example in Figure 5-35). (For more information, see the Ranking Subapplications section below.)

5. Click the **Save and Continue** button. The Subgrant Applications screen is displayed, showing the subapplication you’ve attached to your application and the rank you assigned to each.

6. Click the **Edit Rank** button to change any of the ranks you have assigned.

7. Click the **Add Subgrant Applications** button to add more subapplications to your application. If necessary, refer to the **Detaching a Subapplication** section below.

8. When you have finished attaching subapplications to your application, click the **Save and Continue** button. The Schedule screen is displayed.

9. Continue completing each section of the application until all sections have been completed.

**Ranking Subapplications**

Subapplications are ranked differently depending on the grant program.

- For a **PDM** subapplication, assign a unique rank of 1 to x to each subapplication, where x represents the total number of subapplications.
you've attached to your application. With this sequential ranking, the ranks for PDM subapplications are 1, 2, 3, etc.

- For an **FMA** subapplication, the ranking is based on level of priority. High priority subapplications are assigned a rank of 1, medium priority subapplications receive a rank of 2, and low priority subapplications are ranked with a 3.

Regardless of program, Applicants should provide an explanation for why they ranked the subapplications as they did. Typically, this will include references to the Applicant’s hazard mitigation plan.

### Detaching a Subapplication

If you need to detach a subapplication from an application:

1. From the Subgrant Applications screen, click the **Delete** link in the Action column for the subapplication you want to detach (Figure 5-36). The Delete Attached Subgrant Application screen is displayed.

2. Click the **Yes** button to confirm the deletion from this application.

   **NOTE:** Clicking on the Yes button does not delete the subapplication from eGrants; it simply detaches the subapplication from the application.

3. The **Subgrant Applications** screen is displayed, and the subapplication is no longer listed.

### Attaching Documents, Maps, and Studies to Your Application

Additional documents, maps, and studies often are necessary or helpful in the processing of your application. These items can be attached to your application, or you can indicate that you are sending hard copies of these documents by regular mail.

**NOTE:** To make the review process easier, it is recommended that you attach documentation by using the Attach File button while you are completing a particular section. Attachments may also be added by
using the **Comments and Attachments** link on the sidebar menu; however, using this method does not associate the comments and attachments with the relevant eGrants input.

1. Click the **Attach File** button. The Attach Document screen is displayed.
2. Click the radio button for the appropriate attachment option – Regular Mail or Electronic File (Figure 5-37).

![Figure 5-37: Regular Mail and Electronic File radio buttons](image)

   a. If you selected regular mail, enter the date on which the document was mailed and a brief description of the document.
   b. If you selected electronic file, complete the fields describing the file format. Browse for or enter the name of the file to be attached (uploaded) to the application.
3. Click the **Save and Continue** button. The Document(s) Attached screen is shown and the document you attached should be listed.

** Updating/Completing an Un-submitted Application **

You will often not have all the information necessary to complete an application when it is first created. eGrants allows you to create the application, enter the information you have, save the application, and then return to it at a later time to update and complete the application.

** CAUTION: It is important to remember that even though you have created and saved an application, it is not submitted for processing until you click the Submit Application button. **
1. Access the Grant Applicant Homepage.
2. Click the **Work on Un-submitted Grant Application(s)** link (Figure 5-38). The Grant Status: Un-submitted Grant Applications screen is displayed, showing a list of your unsubmitted applications.

![Figure 5-38: Work on Un-submitted Grant Application(s) link](image)

3. Click the **Update Application** link in the Action column for the application you want to update or complete (Figure 5-39).

![Figure 5-39: Update Application link](image)

4. The Application Status screen is displayed, showing the sections that are required for this type of application. The status of each section is shown as a **Complete** or **Incomplete** link.
5. Click the **Complete** or **Incomplete** link for the section of the application you want to update or complete. That section of the application is displayed.

**NOTE:** If the section you want to update has already been marked **Complete**, it is still possible to make changes by clicking the **Complete** link in the Status column.
6. Click the field(s) into which you want to enter data and enter the data. When you have finished entering data, click the Save and Continue button. The next section required for the application is displayed.

**NOTE:** At any point, you may click the Application Status link at the top of the sidebar menu to display the current status of each section of the application. The updated status will tell you which sections are currently Complete and Incomplete.

7. Continue accessing the sections you need to complete until you have accessed and entered data for each section.
8. Click the Return to Homepage link at the bottom of the sidebar menu. The Grant Applicant Homepage is displayed.
9. If you have completed all the sections of the application, it is ready to be reviewed and submitted.

You may delete an application that you started, but have not submitted.

1. From the Grant Applicant Homepage, click the Work on Un-submitted Grant Application(s) link. The Grant Status: Un-submitted Grant Applications screen is displayed.
2. Click the checkbox next to the application you want to delete.
3. Click the Delete Application button (Figure 5-40). A confirmation screen is displayed.
4. Click the Yes button. The selected application is deleted and the Grant Status: Un-submitted Grant Applications screen is displayed.

**NOTE:** You cannot delete an application that has been submitted to FEMA.

**CAUTION:** An Applicant can submit one application for each grant program per year.
Entering Assurances and Certifications for an Application

The application must be certified before it can be submitted. This is done in the Assurances and Certifications section.

1. From the Application Status screen, select the **Assurances and Certifications** link on the sidebar menu or the **Incomplete** link for the Assurances and Certifications section on the Application Status screen (Figure 5-41).

2. The Assurances and Certifications screen is displayed. For each form, click the **Incomplete** link (Figure 5-42).
1. Click the Grants.gov link URL https://www.grants.gov/web/grants/forms.html#sortby=1. The Forms screen appears (Figure 5-43).

Figure 5-43: SF-424 Family link on Grant Forms screen

3. The SF-424 Family screen appears (Figure 5-44). Click the PDF links to download the appropriate fillable forms for Assurances (Part I), Certifications Regarding Lobbying (Part II), and Disclosure (Part III):
   - Assurances for Non-Construction Programs (Standard Form (SF) 424B) or
   - Assurances for Construction Programs (SF-424D)
   - Grants.gov Lobbying Form (Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibilities Matters; and Drug-Free Workplace Requirements)
   - Disclosure of Lobbying Activities (SF-LLL)
Figure 5-44: PDF links to download fillable Assurances and Certification forms

4. Print each document, so an authorized member of your organization can complete and sign it. Then, scan and save each document with a descriptive file name.

5. Return to the Assurances and Certification section screen and click the Incomplete link for a document. When the appropriate screen appears, click the Attach File button to upload the document to eGrants. To attach a document or send it through regular mail, refer to the Attaching Documents, Maps, and Studies to Your Application in this guide.

6. Click the Save and Continue button to attach the next document.

Completing the FEMA Grants Application Section

This section is only accessible through the Review and Submit Application link on the sidebar menu. To complete this section, you must obtain and complete a copy of the SF-424 Application for Federal Assistance. The completed form must be scanned and attached to the section. To obtain a copy of the form:

1. Click the Review and Submit Application link on the sidebar menu. The Review and Submit Application screen is displayed.
2. Click the Incomplete link in the Select column for the FEMA Grants Application section. The FEMA Grants Application screen is displayed.
4. When you have completed the form, save it with a descriptive file name.
5. Return to the Review and Submit Application screen and click the Incomplete link for the FEMA Grants Application section. When the FEMA Grants Application screen appears, click the Attach File button to upload the completed SF-424 to eGrants. To attach a document or send it through
Reviewing and Submitting Your Application

When you have completed all the sections of the application and are ready to submit the application, review the application for completeness and then submit the application for processing.

1. Access the Grant Applicant Homepage.
2. Click the Work on Un-submitted Applications link. The Grant Status: Un-submitted Applications screen is displayed, showing a list of your unsubmitted applications.
3. Click the Update Application link in the Action column for the application you want to update or complete. The Application Status screen is displayed, showing the sections that are required for this type of application. The status of each section is shown as a Complete or Incomplete link.
4. Click the Review and Submit Application link in the sidebar menu. The Review and Submit Application screen is displayed. The status of sections that are missing required information are shown as Incomplete. If all the sections are Complete, then the Submit Application button is active; if any of the sections are Incomplete, then the Submit Application button is inactive (Figure 5-45).

**NOTE:** To complete the FEMA Grants Application section, you must attach a completed copy of SF-424, Application for Federal Assistance. See Completing the FEMA Grants Application Section in this guide for more information.

**NOTE:** If all of the sections are Complete and the Submit Application button is not active, you may not have the Sign/Submit user role. You may authorize access to the application to the appropriate user who has Sign/Submit permissions. See the Authorizing Access to Applications section.
5. If needed, change the Federal Fiscal Year by clicking on the Change Year button (Figure 5-45) and selecting a different fiscal year.

6. Click the checkbox to sign the application.

7. Click the Submit Application button. The Submit Application Results screen is displayed, confirming that your application has been submitted.

8. Click the Print Application button to print a hardcopy of your application.

**HINT:** Although not required, it is recommended that you print a hardcopy of your application for your records.

9. Click the Return to Homepage button. The Grant Applicant Homepage is displayed.

**Authorizing Access to Applications**

Contact your FEMA regional office to request access (View/Print, Create/Edit, and/or Sign/Submit) be provided to other users for applications you have created. Authorizing access for other users permits:

- Other users in your organization to complete or review and edit portions of the application.
• Another user with signature authority in your organization to sign and submit the application.
• A FEMA regional office user to review and make recommendations on the application before it is formally submitted.

Authorizing Access to Subapplications

As an Applicant user, you may authorize access to subapplications created by Subapplicants or to ones you have created by using the Authorize/Revoke Access function.

**NOTE:** To perform the roles you select, the user for whom you wish to provide access must have been granted that same level of access as the Subapplicant (in the case of Application Intake) or your organization. If the user has not been granted a role by the Subapplicant or your organization, you cannot assign that role to the user.

To authorize access to a subapplication

1. Search for the registered user.
2. Access the Grant Applicant Homepage.
3. Click the **Work on Un-submitted Subgrant Application(s)** link if the application has not yet been submitted or the **Work on Submitted Subgrant Application(s)** link if the application has been submitted. The Grant Status: Un-submitted Applications or the Grant Status: Submitted Applications screen is displayed, showing a list of applications.

**NOTE:** If it is a paper subapplication, select either the **Work on Un-submitted Paper Subgrant Application(s)** or the **Work on Submitted Paper Subgrant Application(s)** link.

4. Click the **View Details** link (Figure 5-46) in the Authorize/Revoke Access column for the application. The Authorize/Revoke Access screen is displayed, showing the list of users who currently have access to this application.
5. Click the **Authorize Access** button (Figure 5-47). The Find Registered Users screen is displayed.

6. Enter search criteria to locate the user for whom you want to authorize access.

7. Click the **Search** button. The Search Results screen is displayed, showing all of the users who meet your search criteria.

8. Click the radio button next to the user for whom you want to authorize access. Click the **Authorize Access** button (Figure 5-48). The Update Access screen is displayed.
9. Click the appropriate checkbox(es) to specify the access permissions you want to authorize: View/Print, Create/Edit, and/or Sign/Submit (see example in Figure 5-49).

**NOTE:** Permissions can be View/Print only, View/Print and Create/Edit, or all three (View/Print, Create/Edit, and Sign/Submit).

10. Enter a period of time for the duration of the user’s access.
11. In the **Justifications** text box, enter any information you want to retain concerning your justification for this authorization.
12. When you have finished, click the **Save and Continue** button. The Authorize/Revoke Access screen is displayed, showing the user added to the list of users who have access to this selected application.
13. Click the **Authorize Access** button to authorize access for other users, or click the **Return to Homepage** button to return to the Grant Applicant Homepage.

**To Change or Update a User’s Access Permissions**

1. Access the Grant Applicant Homepage.
2. Click the **Work on Un-submitted Applications** link if the application has not yet been submitted or the **Work on Submitted Applications** link if the application has been submitted. The Grant Status: Un-submitted Applications or the Grant Status: Submitted Applications screen is displayed, showing a list of your applications.
3. Click the **View Details** link in the Authorize/Revoke Access column for the application. The Authorize/Revoke Access screen is displayed, showing the list of users who currently have access to this application.
4. Click the **Update** link in the Action column for the user whose permissions you want to change. The Update Access screen is displayed, showing the current setting of the access permissions.
5. Click the appropriate checkbox(es) to change the user’s access permissions for this application.
6. Enter a period of time for the duration of the user’s access.
7. Select the appropriate unit of time from the drop-down menu.
8. In the **Justifications** text box, enter any information you want to retain concerning your justification for this authorization.
9. When you have finished, click the **Save and Continue** button. The Authorize/Revoke Access screen is displayed.
10. Click the **Return to Homepage** button to return to the Grant Applicant Homepage.

**To Revoke a User’s Access Permissions**

1. Access the Grant Applicant Homepage.
2. Click the **Work on Un-submitted Applications** link if the application has not yet been submitted or the **Work on Submitted Applications** link if the application has been submitted. The Grant Status: Un-submitted Applications or the Grant Status: Submitted Applications screen is displayed, showing a list of your applications.
3. Click the **View Details** link in the Authorize/Revoke Access column for the application. The Authorize/Revoke Access screen is displayed, showing the list of users who currently have access to this application.
4. Click the **Deny/Revoke** link in the Action column for the user whose permissions you want to change (Figure 5-50). The Deny/Revoke Access screen is displayed, showing the current setting of this user’s access permissions.
5. Click the **Yes** button to confirm that you want to revoke this user’s access to this application. The Authorize/Revoke Access screen is displayed. The user has been removed from the list of users who have access to this application.

6. Click the **Return to Homepage** button to return to the Grant Applicant Homepage.
Unit 6 — Working with Submitted Applications

Viewing the Status of a Submitted Application

Once you have submitted an application to FEMA, you may monitor its status in eGrants as it is reviewed.

1. Access the Grant Applicant Homepage.
2. Click the **Work on Submitted Grant Application(s)** link. The Grant Status: Submitted Applications screen is displayed, showing a list of your submitted applications. The current status of each application is shown in the Review Status column (Figure 6-1). Submitted applications will either show the status of “In Progress” or “Revision Requested.” Applications that have been approved for a federal award will show the status of “Obligated.”

![Figure 6-1: Application Review Status](image)

Revising/Amending a Submitted Application

FEMA may request changes to an application. eGrants allows Applicants to:

- Make revisions to a submitted application.
- Make revisions to an attached subapplication (either one submitted by a Subapplicant or by the Applicant acting as a Subapplicant).
- Request a Subapplicant to revise and resubmit a subapplication to FEMA for reconsideration.

You will be notified of a request for revisions through an e-mail message from the FEMA reviewer.
NOTE: Before you can revise an application that has been submitted to FEMA, FEMA must “release” the application for revision in eGrants. If you see a revision request but can’t access the application to revise it, contact your FEMA regional office to verify that the application has been released by FEMA.

To Revise a Submitted Application

1. Access the Grant Applicant Homepage.
2. Click the **Work on Submitted Grant Application(s)** link. The Grant Status: Submitted Grant Applications screen is displayed.
3. In the pending tasks at the top of the page, click **Review Revision Requests** link (Figure 6-2). The applications for which revisions have been requested are listed.

![Figure 6-2: Review Revision Requests link](image)

4. Select the **Review Revision Requests** option from the drop-down menu in the Action column for the application you want to revise (Figure 6-3).
5. Click the **Go** button. The Overview screen is displayed.

6. Click the **Update** link in the Action column (Figure 6-4) to access revisions requested for this application. The Overview screen is displayed, showing the sections of the application that need to be revised/updated.

7. Review the revision requested in the **Comments from FEMA** field.

8. Click the **Update** link next to a section to revise it (see example in Figure 6-5). The section is displayed.
9. Click the field(s) to be revised and enter or select the revised information.
10. Click the **Save and Continue** button. The Review and Re-Submit Application screen is displayed.
11. If all the requested changes have been made, you can review and re-submit the application.
12. When you have revised all the sections as requested, resubmit the application by clicking on the checkbox to sign the application.
13. Click the **Resubmit Application** button. The Submit Application Results screen is displayed, confirming that your application has been resubmitted.
14. Click the **Print Application** button to print a hardcopy of your application.

**HINT:** Although not required, it is recommended that you print a hardcopy of your revised application for your records.

15. Click the **Return to Homepage** button. The Grant Applicant Homepage is displayed.

**To Revise a Submitted Subapplication**

1. Access the Grant Applicant Homepage.
2. Click the **Work on Submitted Grant Application(s)** link. The Grant Status: Submitted Grant Applications screen is displayed.
3. In the pending tasks at the top of the page, click **Review Revision Requests**. The applications for which revisions have been requested are listed.
4. Select the **Review Revision Requests** option from the drop-down menu in the Action column for the application you want to revise.
5. Click the **Go** button. The Overview screen is displayed.
6. Click the **Review** link in the Action column to access revisions requested for this application (Figure 6-6).
7. The Review and Resubmit Application screen is displayed, showing the sections of the application that need to be revised/updated.

8. Review the revision(s) requested in the Comments from FEMA field.

9. Click the Review Section link next to a section to revise it (see example in Figure 6-7). The section is displayed.

**NOTE:** As an Applicant, you can either update the section or release the subapplication section to the Subapplicant for them to revise.

**NOTE:** Sections marked with a red IC are incomplete and must be completed before the subapplication can be resubmitted.
10. To make the revisions to the subapplication section, select the **Update (name of) Section** radio button (see example in Figure 6-8).
11. Click the field(s) to be revised and enter or select the revised information.

12. Click the **Save and Continue** button. The Review and Resubmit Application screen is displayed.

13. If all the requested changes have been made, you can sign and re-submit the application.

14. When you have revised all the sections as requested, resubmit the application by clicking on the checkbox to sign the application.

15. Click the **Resubmit Application** button. The Submit Application Results screen is displayed, confirming that your application has been re-submitted.

**NOTE:** For Applicant acting as Subapplicant subapplications, all sections may be updated by the Applicant. This means the subapplication section is displayed immediately after selecting the Review Section link from the Review and Resubmit Application screen.
16. Click the Print Application button to print a hardcopy of your application.

To Release a Submitted Subapplication to a Subapplicant for Revision

1. Access the Grant Applicant Homepage.
2. Click the **Work on Submitted Grant Application(s)** link. The Grant Status: Submitted Grant Applications screen is displayed.
3. In the pending tasks at the top of the page, click **Review Revision Requests**. The applications for which revisions have been requested are listed.
4. Select the **Review Revision Requests** option from the drop-down menu in the Action column for the application you want to revise.
5. Click the **Go** button. The Overview screen is displayed.
6. Click the **Review** link in the Action column to access revisions requested for this application. The Review and Resubmit Application screen is displayed, showing the sections of the application that need to be revised/updated.
7. Review the revision requested in the **Comments from FEMA** field.

**NOTE:** **Comments from FEMA are automatically populated into the Comments from FEMA field. You can keep, delete, or add to them.**

8. To release the subapplication section to the Subapplicant for revisions, select the **Release **{name of}** Section (Request Change)** radio button (see example in Figure 6-9).

![Figure 6-9: Example of Release Cost Share Section (Request Change) radio button](image)

9. Set a revision deadline. This is a required field.
10. Comments are required. Enter comments in the **Comments** field, as appropriate.
11. Click the **Save and Continue** button.
12. The **Release **{name of}** Section** screen is displayed. An e-mail to the Subapplicant appears. You can review it and make any necessary changes.
13. Click the **Release Application Section** button (Figure 6-10). The Release Section Results is displayed.
14. Click the **Return to Review and Resubmit** button.
15. When the Subapplicant resubmits the subapplication and all other requested revisions have been completed, you can sign and resubmit the application.
16. Click the **Save and Continue** button. The Review and Resubmit Application screen is displayed.
17. If all the requested changes have been made, you can sign and resubmit the application.
18. Resubmit the application by clicking on the checkbox to sign the application.
19. Click the **Resubmit Application** button. The Submit Application Results screen is displayed, confirming that your application has been resubmitted.
20. Click the **Print Application** button to print a hardcopy of your application.

**Changing the Point of Contact for a Submitted Application**

The Authorized Agent, or the person and information listed on the Contact Information screen, is the person who will receive e-mail messages about the application and the person who will be contacted by FEMA concerning the application. The Authorized Agent may or may not be the user who created or submitted the application. If needed, the Authorized Agent may be changed after the application has been submitted. The Point of Contact is the alternate person who will receive e-mails messages and be contacted by FEMA about the application.
To Change the Authorized Agent for a Submitted Application

1. Access the Grant Applicant Homepage.
2. Click **Work on Submitted Grant Applications**. The Grant Status: Submitted Applications screen is displayed.
3. Select the **Edit Contact Information** option from the drop-down menu in the Action column for the appropriate application (Figure 6-11).

![Figure 6-11: Edit Contact Information option selected and Go button](image)

4. Select the **Go** button. The Edit Contact Information screen is displayed.

**NOTE:** You can only edit the contact information for submitted applications that you submitted to FEMA.

5. Click a field to be revised and enter the new information.
6. Click the checkbox to sign the application.
7. Click the **Submit Contact Information** button (Figure 6-12). The Submission Confirmation screen is displayed.
8. Click the **Return to Homepage** button. The Grant Applicant Homepage is displayed.
Unit 7 — Award Packages

Award Packages in eGrants

eGrants allows you to view and print award packages. The award package documents are Read-Only and cannot be modified.

When FEMA approves your application for award, an e-mail message is sent to the Authorized Agent and the Point of Contact you provided in the Contact Information section of the application. The message notifies them that there is an award package in eGrants.

The award package has three parts:

- The Award Letter
- The Agreement Articles
- The Obligating Document for Award/Amendment (FEMA Form 76-10A)

Once an award package has been created, award funds are obligated by FEMA. It is no longer necessary for you to approve and sign an award package to accept the federal award. Funds are immediately available to you and your Subrecipients.

Viewing an Award Package

The award package is listed as a pending task in eGrants for applications with an Obligated status (Figure 7-1).

![Figure 7-1: Obligation review status for approved applications](image)

eGrants allows you to view the award package from FEMA electronically. You may also print a copy of the award package.
1. From the Grant Applicant Homepage, click the **Work on Submitted Grant Application** link. The Grant Status: Submitted Grant Applications screen is displayed.

2. Select the **View FEMA Award Package** option from the drop-down menu in the Action column and then click the **Go** button (Figure 7-2). The Grant Status: Submitted Grant Applications screen is displayed, showing the applications that have been approved by FEMA.

![Figure 7-2: View FEMA Award Package option selected and Go button](image)

3. Click the **View Award Package** link in the Action column for the federal award package you want to view (Figure 7-3). The Overview screen of the Awards section of eGrants is displayed.

![Figure 7-3: View Award Package link](image)

4. Click the **Grant Application Number** link to view the application (Figure 7-4).
5. Click each **View Award Package** link to view each part of the award package (Figure 7-5: Part 1 is the Award Letter, Part 2 is the Agreement Articles, and Part 3 is the FEMA Form 76-10A).
   a. While viewing a part of the award package, you may click the **Continue to Next Award Package Section** button to view the next section of the award package. When you are finished, click the **Go Back** button to return to the View Award Package screen.

6. Click the **Print Award Package** button to print the entire award package (Figure 7-6).
7. Click an Application Number link to view any of the subapplications that were included in the application (see example in Figure 7-7).

8. Click the View More FEMA Signed Packages button to view award packages for other federal awards which have been awarded to your organization.
Unit 8 — Quarterly Reports

Quarterly Reports in eGrants

Federal regulations require that Recipients submit performance and financial reports for all federal awards under their administration. FEMA requires Recipients to provide these reports quarterly and the reports are due to FEMA no later than 30 days after the end of each federal fiscal quarter following the award date.

eGrants allows you to attach and submit Quarterly Performance Reports through the Quarterly Reports function. However, you must use the Payment and Reporting System (PARS) outside of eGrants to create and submit your Quarterly Financial Status Reports.

Currently, there is no Quarterly Report function for Subrecipients to submit Quarterly Performance Reports via eGrants. Therefore, you may wish to record the status of subawards in the Subgrant Quarterly Reports.

NOTE: To submit Quarterly Performance Reports in eGrants, you must have Sign/Submit selected in your user permissions. If you do not have this permission, authorize access to the application to the appropriate user with Sign/Submit permission. See the Authorizing Access to Applications section for more information.

Submitting a Quarterly Performance Report

The Quarterly Reports function is activated when FEMA obligates the federal award. On the first day of each quarter following the award, the next quarterly report is activated in your quarterly reports matrix.

1. Access the Grant Applicant Homepage and click the Work on Submitted Grant Applications link (Figure 8-1). The Grant Status: Submitted Grant Applications screen is displayed.
2. On the Grant Status: Submitted Grant Applications screen, select the **View FEMA Award Package(s)** link. The Submitted Grant Applications matrix appears.

3. Select the **Manage Grants** option from the drop-down menu in the Action column for the appropriate application. Click the **Go** button (Figure 8-2).

4. The Quarterly Reports screen is displayed, showing which Quarterly Performance Reports are due, the deadline for each report, and the actions you can perform. Click the **Update** link in the Action column (Figure 8-3) to attach and submit your Quarterly Performance Report.

**CAUTION:** The Quarterly Financial Report links on this page are not active because the PARS System should be used to prepare and submit Quarterly Financial Status Reports.
5. The Update Quarterly Report screen is displayed. Click the **Incomplete** link for the Grantee Quarterly Performance Report (Figure 8-4).

![Figure 8-3: Update link](image)

**Figure 8-3: Update link**

6. The Grantee Quarterly Report screen is displayed. Click the **Attach File** button to attach the Quarterly Performance Report.
7. The Attach Documents screen is displayed. To attach a document or send it through regular mail, refer to the *Attaching Documents, Maps, and Studies to Your Application* section in this Guide.
8. Click the **Save and Continue** button to attach the Grantee Quarterly Performance Report.
9. Either the Document(s) Mailed screen or Document(s) Attached screen is displayed. Click the **Save and Continue** button. The Grantee Quarterly Performance Report screen is displayed. Click the **Save and Continue** button.
10. The Update Quarterly Reports screen is displayed. If you have reported on individual subawards in your Grantee Quarterly Performance Report, you may select the **Not Electronically Submitted** checkbox for the Subgrant Quarterly Performance Report (Figure 8-5). If you will be submitting Subgrant Quarterly Performance Report(s), see the *Submitting*
a Subgrant Quarterly Performance Report section in this Guide. Click the Save and Continue button.

**NOTE:** If you will not be submitting a Subgrant Quarterly Performance Report form, click the Not Electronically Submitted checkbox next to the form and then click the Save button. The Action for that report is changed to NES (Not Electronically Submitted).

![Image of eGrants interface showing Subgrant Quarterly Performance Reports]

**Figure 8-5: Subgrant Quarterly Performance Reports “Not Electronically Submitted” box selected**

11. When the Grantee Quarterly Performance Report displays the Complete status and the Subgrant Quarterly Performance Reports displays either the Complete or NES status link, the Submit Report button is now activated.

**NOTE:** To submit Quarterly Performance Reports in eGrants, you must have Sign/Submit selected in your user permissions. If you do not have this permission, authorize access to the application to the appropriate user with Sign/Submit permission. See the Authorizing Access to Applications section for more information.

12. To submit the report, click the electronic signature checkbox next to your name to sign the report.

13. Click the Submit Performance Report button (Figure 8-6). Your report(s) is submitted to FEMA.
Submitting a Subgrant Quarterly Performance Report

1. Access the Grant Applicant Homepage.
2. Click **Work on Submitted Grant Applications**. The Grant Status: Submitted Grant Applications screen is displayed.
3. On the Grant Status: Submitted Grant Applications screen, select the **View FEMA Award Package(s)** link. The Submitted Grant Applications matrix appears.
4. Select the **Manage Grants** option from the drop-down menu in the Action column for the appropriate application. Click the **Go** button.
5. The Quarterly Reports screen is displayed, showing which Quarterly Performance Reports are due, the deadline for each report, and the actions you can perform. Click the **Update** link in the Action column to attach and submit your Quarterly Performance Report.
6. The Update Quarterly Report screen is displayed. Click the **Incomplete** link for the Subgrant Quarterly Performance Reports (Figure 8-7).

---

*Figure 8-6: Electronic signature checkbox and Submit Performance Report button*

*Figure 8-7: Incomplete link for Subgrant Quarterly Performance Reports*
7. The Subgrant(s) for Quarterly Performance Reporting screen displays the subaward(s) included in the federal award. Select the Incomplete link for the subaward on which you wish to report (Figure 8-8).

![Example of an Incomplete link for a subaward](image)

Figure 8-8: Example of an Incomplete link for a subaward

8. The Subgrant Quarterly Report screen is displayed. Click the Attach File button to attach a Subgrant Quarterly Performance Report.

9. The Attach Documents screen is displayed. To attach a document or send it through regular mail, refer to the Attaching Documents, Maps, and Studies to Your Application in this guide.

10. Click the Save and Continue button to attach the Quarterly Performance Report. Select the Attachments button to attach additional Subgrant Quarterly Performance Reports. When you are finished attaching reports, select the Save and Continue button.

11. The Subgrant Quarterly Reports screen is displayed. Click the Save and Continue button. Repeat the process to attach additional Subgrant Quarterly Performance Reports. Click the Save and Continue button.

12. When the Subgrant Quarterly Reports screen refreshes, click the Save and Continue button.

13. When the both the Grant Quarterly Performance Report and the Subgrant Quarterly Performance Reports display the Complete status link, the Submit Report button is activated.

14. To submit the report, click the checkbox next to your name to sign the report.

15. Click the Submit Performance Report button. Your reports are submitted to FEMA.

**NOTE:** To submit Quarterly Performance Reports in eGrants, you must have Sign/Submit selected in your user permissions. If you do not have this permission, authorize access to the application to the appropriate user with Sign/Submit permission. See the Authorizing Access to Applications section for more information.
Revising a Submitted a Quarterly Performance Report

You may want to revise a submitted Quarterly Performance Report because you need to change the information provided in the report or because FEMA has requested that you revise the report.

If you discover that you need to revise a submitted Quarterly Performance Report, request FEMA to send the report back to you.

To Request a Revision to a Submitted Quarterly Performance Report

1. Access the Grant Applicant Homepage.
2. Click the Work on Submitted Grant Application(s) link. The Grant Status: Submitted Grant Applications screen is displayed.
3. In the submitted grant application matrix, select the Manage Grants option from the drop-down menu in the Action column for the appropriate application and then click the Go button. The Quarterly Reports screen is displayed, listing your Quarterly Performance Reports.
4. Locate the Quarterly Performance Report you have submitted and wish to revise and click Request Revision link in the Action column (Figure 8-9). The Request Revision for Quarterly Report screen is displayed. Follow the instructions on the screen to have the report returned to you to be revised.

Figure 8-9: Request Revision link

5. If FEMA requests that you revise a Quarterly Performance Report, you will be notified by e-mail of the request and the report will be listed on your Quarterly Reports screen.

To Revise a Submitted Quarterly Performance Report

1. Access the Grant Applicant Homepage.
2. Click the Work on Submitted Grant Application(s) link. The Grant Status: Submitted Grant Applications screen is displayed.
3. In the submitted grant application matrix, select the Manage Grants option from the drop-down menu in the Action column for the appropriate application and then click the Go button. The Quarterly Reports screen is displayed, listing your quarterly reports.
4. Locate the report that has been released by FEMA for revisions within the quarterly reports matrix. The status of the field will be "Revision Requested by FEMA" and the Update link is activated (Figure 8-10).

Figure 8-10: Update link on Quarterly Reports screen

5. Click the Update link in the Action column for the report you would like to revise.

6. The Update Quarterly Report screen is displayed. The revisions requested and deadline for the revisions are shown at the top of the screen (Figure 8-11). Click the Complete link in the Action column for the report you need to revise. The Update Quarterly Report screen is displayed.

Figure 8-11: Revision deadline, FEMA comments, and Complete link

7. The Update Quarterly Performance Report screen is displayed. Click the Attach File button to attach the revised Quarterly Performance Report.

8. The Attach Documents screen is displayed. To attach a document or send it through regular mail, refer to the Attaching Documents, Maps, and Studies to Your Application in this guide.

9. Click the Save and Continue button to attach the Quarterly Performance Report.
10. Either the Document(s) Mailed screen or Document(s) Attached screen is displayed. Click the **Save and Continue** button. The Grant Quarterly Performance Report screen is displayed. Click the **Save and Continue** button.

11. The Update Quarterly Reports screen is displayed. If you have reported on individual subawards in your Quarterly Performance Report, you may select the **Not Electronically Submitted** checkbox for the Subgrant Quarterly Performance Report. If you will be revising a submitting Subgrant Quarterly Performance Report(s), see the **Revising a Submitted Subgrant Quarterly Performance Report** section in this Guide. Click the **Save and Continue** button.

**CAUTION: If you change any information, you must click the Save or the Save and Continue button to save your new data before leaving the screen or your new data will be lost.**

12. To resubmit the report, click the **electronic signature** checkbox next to your name to sign the report.

13. Click the **Resubmit Report** button (Figure 8-12). Your report is resubmitted to FEMA.
