

California – Severe Winter Storms, Flooding, and Debris and Mud Flows FEMA-1952-DR

Declared January 26, 2011

On December 29, 2010, Lieutenant Governor Abel Maldonado requested a major disaster declaration due to severe winter storms, flooding, and debris and mud flows during the period of December 17, 2010, to January 4, 2011. The Lieutenant Governor requested a declaration for Individual Assistance and Public Assistance for 11 counties and Hazard Mitigation statewide. The Lieutenant Governor further requested direct Federal assistance. On January 11, 2011, Governor Edmund G. Brown Jr. amended the December 29, 2010, request and provided the estimate of amount and severity of damages found during the joint FEMA, State, Tribal and local government Preliminary Damage Assessments (PDAs) conducted during the period of January 4-7, 2011. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments, and that Federal assistance is necessary.¹

On January 26, 2011, President Obama declared that a major disaster exists in the State of California. This declaration made Public Assistance requested by the Governor available to State and eligible local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by the severe winter storms, flooding, and debris and mud flows in Inyo, Kern, Kings, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, and Tulare Counties. This declaration also made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures statewide.²

Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster

Individual Assistance

- Total Number of Residences Impacted:³ 163
 - Destroyed - 2
 - Major Damage - 54
 - Minor Damage - 81
 - Affected - 26

- Percentage of insured residences:⁴ 1%
- Percentage of low income households:⁵ 12%
- Percentage of elderly households:⁶ -
- Total Individual Assistance cost estimate: \$1,909,557

Public Assistance

- Primary Impact: Damage to roads and bridges
- Total Public Assistance cost estimate: \$75,414,223
- Statewide per capita impact:⁷ \$2.23
- Statewide per capita impact indicator:⁸ \$1.30
- Countywide per capita impact: Inyo County (\$10.36), Kern County (\$9.81), Kings County (\$5.67), Los Angeles County (\$0.01), Orange County (\$5.53), Riverside County (\$9.54), San Bernardino County (\$8.38), San Diego County (\$4.77), San Luis Obispo County (\$6.44), Santa Barbara County (\$9.43), and Tulare County (\$11.81)
- Countywide per capita impact indicator:⁹ \$3.27

¹ The preliminary damage assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor's request for a major disaster or emergency declaration, and by the President in determining a response to the Governor's request (44 CFR § 206.33).

² When a Governor's request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA's regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

³ Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

⁴ By law, Federal disaster assistance cannot duplicate insurance coverage (44 CFR § 206.48(b)(5)).

⁵ Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance (44 CFR § 206.48(b)(3)).

⁶ Ibid (44 CFR § 206.48(b)(3)).

⁷ Based on State population in the 2000 Census.

⁸ Statewide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.

⁹ Countywide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.
