

District of Columbia – Hurricane Irene FEMA-4036-DR

Declared September 28, 2011

On September 22, 2011, Mayor Vincent C. Gray requested a major disaster declaration due to Hurricane Irene during the period of August 26 to September 1, 2011. The Governor requested a declaration for Public Assistance and Hazard Mitigation for the District of Columbia. During the period of August 29 to September 12, 2011, joint federal, district, and local government Preliminary Damage Assessments (PDAs) were conducted in the District of Columbia and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the state and the affected local governments, and that Federal assistance is necessary.¹

On September 28, 2011, President Obama declared that a major disaster exists in the District of Columbia. This declaration made Public Assistance requested by the Mayor available to district and eligible local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by Hurricane Irene in the District of Columbia. This declaration also made Hazard Mitigation Grant Program assistance requested by the Mayor available for hazard mitigation measures in the District of Columbia.²

Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster

Individual Assistance - (*Not requested*)

- Total Number of Residences Impacted:³ -
 - Destroyed - -
 - Major Damage - -
 - Minor Damage - -
 - Affected - -

- Percentage of insured residences:⁴ -
- Percentage of low income households:⁵ -
- Percentage of elderly households:⁶ -
- Total Individual Assistance cost estimate: N/A

Public Assistance

- Primary Impact: Debris removal
- Total Public Assistance cost estimate: \$2,400,610
- Statewide per capita impact:⁷ \$3.99
- Statewide per capita impact indicator:⁸ \$1.30
- Countywide per capita impact: District of Columbia (\$3.99)
- Countywide per capita impact indicator:⁹ \$3.27

¹ The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor's request for a major disaster or emergency declaration, and by the President in determining a response to the Governor's request (44 CFR § 206.33).

² When a Governor's request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA's regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

³ Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

⁴ By law, Federal disaster assistance cannot duplicate insurance coverage (44 CFR § 206.48(b)(5)).

⁵ Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance (44 CFR § 206.48(b)(3)).

⁶ Ibid (44 CFR § 206.48(b)(3)).

⁷ Based on State population in the 2010 Census.

⁸ Statewide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.

⁹ Countywide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.
