

Preliminary Damage Assessment Report

Muscogee (Creek) Nation – Severe Winter Storm FEMA-4690-DR

Declared March 3, 2023

On February 14, 2023, Principal Chief David W. Hill requested a major disaster declaration due to a severe winter storm during the period of December 21-25, 2022. The Principal Chief requested a declaration for Public Assistance and Hazard Mitigation for the Muscogee (Creek) Nation. During the period of January 9 to February 11, 2023, joint federal, tribal, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested areas and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the tribe and the affected local governments, and that Federal assistance is necessary.¹

On March 3, 2023, President Biden declared that a major disaster exists in the Muscogee (Creek) Nation. This declaration made Public Assistance requested by the Principal Chief available to the Muscogee (Creek) Nation Oglala Sioux Tribe. This declaration also made Hazard Mitigation Grant Program assistance requested by the Principal Chief available for hazard mitigation measures for the Muscogee (Creek) Nation.²

¹ The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

² When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

³ Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

⁴ By law, Federal disaster assistance cannot duplicate insurance coverage. 42 U.S.C. § 5155 and 44 C.F.R. § 206.48(b)(5).

⁵ Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

⁶ Ibid. 44 C.F.R. § 206.48(b)(3).

⁷ Based on State population in the 2020 Census.
