

# Preliminary Damage Assessment Report

## **Bear River Band of the Rohnerville Rancheria – Earthquake FEMA-4692-DR**

### ***Declared March 8, 2023***

On February 16, 2023, Chairwoman Josefina Frank requested a major disaster declaration due to an earthquake during the period of December 20, 2022, to January 1, 2023. The Chairwoman requested a declaration for Public Assistance and Hazard Mitigation for the Bear River Band of the Rohnerville Rancheria. During the period of January 13-17, 2023, joint federal, tribal, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested areas and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the tribe and the affected local governments, and that Federal assistance is necessary.<sup>1</sup>

On March 8, 2023, President Biden declared that a major disaster exists for the Bear River Band of the Rohnerville Rancheria. This declaration made Public Assistance available to the Bear River Band of the Rohnerville Rancheria. This declaration also made Hazard Mitigation Grant Program assistance available for hazard mitigation measures for the Bear River Band of the Rohnerville Rancheria.<sup>2</sup>

<sup>1</sup> The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

<sup>2</sup> When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

<sup>3</sup> Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

<sup>4</sup> By law, Federal disaster assistance cannot duplicate insurance coverage. 42 U.S.C. § 5155 and 44 C.F.R. § 206.48(b)(5).

<sup>5</sup> Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

<sup>6</sup> Ibid. 44 C.F.R. § 206.48(b)(3).

<sup>7</sup> Based on State population in the 2020 Census.
