

Preliminary Damage Assessment Report

Sac & Fox Tribe of the Mississippi in Iowa – Severe Storms and Straight-line Winds

FEMA-4561-DR

Declared September 10, 2020

On August 14, 2020, Tribal Council Chairwoman Judith Bender requested a major disaster declaration due to severe storms and straight-line winds on August 10, 2020. The Chairwoman requested a declaration for Individual Assistance, Public Assistance, and Hazard Mitigation for the Sac & Fox Tribe of the Mississippi in Iowa. On September 8, 2020, the Chairwoman withdrew her request for Individual Assistance. During the period of August 14-20, 2020, joint federal, tribal, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested areas and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the state and the affected local governments, and that Federal assistance is necessary.¹

On September 10, 2020, President Trump declared that a major disaster exists for the Sac & Fox Tribe of the Mississippi in Iowa. This declaration made Public Assistance requested by the Chairwoman available to the Sac & Fox Tribe of the Mississippi in Iowa on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by the severe storms and straight-line winds. This declaration also made Hazard Mitigation Grant Program assistance requested by the Chairwoman available for hazard mitigation measures for the Sac & Fox Tribe of the Mississippi in Iowa.²

¹ The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

² When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

³ Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

⁴ By law, Federal disaster assistance cannot duplicate insurance coverage. 42 U.S.C. § 5155 and 44 C.F.R. § 206.48(b)(5).

⁵ Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

⁶ Ibid. 44 C.F.R. § 206.48(b)(3).

⁷ Based on State population in the 2010 Census.
