

# Community Disaster Resilience Zone Designations

The [Community Disaster Resilience Zones \(CDRZ\) Act](#) was signed into law by President Biden on Dec.20, 2022. The Act amends the [Robert T. Stafford Disaster Relief and Emergency Assistance Act](#) and requires FEMA to utilize a natural hazard risk assessment index to identify census tracts that are most at risk of the effects of natural hazards and climate change.

Using the [National Risk Index's](#) datasets, the White House Council on Environmental Quality's [Climate and Economic Justice Screening Tool](#) and in collaboration with Tribal Nations and U.S. Territories, FEMA has identified some of the most at-risk and in-need census tracts to create Community Disaster Resilience Zones. These designated zones will provide geographic focus for financial and technical assistance from public, private and philanthropic agencies and organizations for the planning and implementation of resilience projects.
