

FEMA NFIP Metadata Profile¹ for Discovery Datasets

Version 1.0.5

Legend:

Required Elements:

Text with Regular Font: Elements that appear in regular font were ***required*** in the Federal Geographic Data Committee (FGDC) standard and ***remain required*** for Federal Emergency Management Agency (FEMA) National Flood Insurance Program (NFIP) purposes. They are noted as “Optionality: Mandatory”.

Text with Bold Font: Elements that appear in bold font were ***required if applicable in the FGDC standard but were made required*** for NFIP purposes. They are noted as “Optionality: Mandatory for FEMA”.

Optional Elements:

Text with Gray Font: Elements that appear in gray font were ***required if applicable or optional*** in the FGDC standard and are ***optional*** for NFIP purposes. They are noted as “Optionality: Optional” or “Optionality: Optional for FEMA”.

FEMA Business Rules and Recommendations:

Text highlighted in gray contains profile-specific comments, recommendations and business rules regarding the noted element. They are noted as “FEMA Business Rules”.

Notes:

1. An asterisk (*) after an element means that this element can be repeated an unlimited number of times.
Example:
1.1.10 *OnLink** -- Online Linkage – etc. means onlink can be repeated. (Note that *OnLink* is the "official" abbreviation for Online Linkage and hence should be used as the column name in the database.)
 2. All required elements are shown in bold and regular text (no gray!). Optional elements (shown in gray text), if supplied are also supported.
 3. "MIP Submission Date" is the date on which an "intermediate" study artifact or Draft, Preliminary or Effective FIRM dataset was entered into the Mapping Information Platform (MIP) database.
- (1) Discovery metadata files should be named according to the respective convention: <Project ID>_Discovery_metadata. The Project ID may be an 8-digit Hydrologic Unit Code (HUC) identifying the watershed; a text description of the area's flooding source (e.g., Delaware Bay); or a FEMA Community Identification (CID) or Federal Information Processing Standards (FIPS) code identifying the primary county or community mapped.

¹ Federal Geographic Data Committee (FGDC) Content Standard for Digital Geospatial Metadata (CSDGM), FGDC-STD-001-1998. Available at <https://www.fgdc.gov/metadata/csdgm-standard>.

1 *Idinfo* – Identification Information – Basic information about the data set

Optionality: Mandatory

FEMA Business Rules: This section is required for all FEMA Discovery submissions.

1.1 *Citation* -- Citation -- information to be used to reference the data set

Optionality: Mandatory

FEMA Business Rules: The Citation section describes the Data Package.

1.1.1 *Citeinfo* -- Citation Information -- the recommended reference to be used for the data set.

Optionality: Mandatory

1.1.1.1 *Origin** -- Originator -- the name of an organization or individual that developed the data set.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: For existing data, Originator would be the data provider.

For data developed for the study, Originator would be the responsible party, for example the Indefinite Delivery/Indefinite Quantity (IDIQ) contractor, Cooperating Technical Partner (CTP), or other Federal agency.

1.1.1.2 *Pubdate* -- Publication Date -- the date when the data set is published or otherwise made available for release.

Optionality: Mandatory

Domain: free date

FEMA Business Rules: Must be in the form of YYYYMMDD

For existing data, Publication Date would be the date the data were published by the originator.

For data developed for the study, Publication Date would be the submittal date to the MIP.

1.1.1.3 *Pubtime* -- Publication Time -- the time of day when the data set is published or otherwise made available for

Optionality: Optional

Domain: "Unknown" free time

1.1.1.4 *Title* -- Title -- the name by which the data set is known.

Optionality: Mandatory

Domain: **FEMA Business Rules: Title should be of format: “name of data-package type for MIP Project Title”, where name of data-package type reflects this submission and the “MIP Project Title” follows rules for constructing MIP project title (e.g., “Discovery Data Capture Submittal for Lower Trinity Watershed, TX”)**

1.1.1.5 *Edition* -- Edition -- the version of the title.

Optionality: Mandatory for FEMA

Domain: FEMA Business Rules: This should match the latest VERSION_ID in the Flood Insurance Rate Map (FIRM) Database (e.g., “Version 2.6.5.6”).

1.1.1.6 Geoform -- Geospatial Data Presentation Form -- the mode in which the geospatial data are represented.

Optionality: Mandatory for FEMA

Domain: FEMA Business Rules: For a FEMA Data Capture Submittal (DCS) Discovery metadata submission, the geospatial presentation form is “FEMA-DCS-Discovery”

1.1.1.7 *Serinfo* -- Series Information -- the identification of the series publication of which the data set is a part.
Optionality: Optional for FEMA

1.1.1.7.1 *Sername* -- Series Name -- the name of the series publication of which the data set is a part.
Optionality: Optional for FEMA
Domain: free text

1.1.1.7.2 *Issue* -- Issue Identification -- information identifying the issue of the series publication of which the data set is a part.
Optionality: Optional for FEMA
Domain: free text

1.1.1.8 Pubinfo -- Publication Information -- publication details for published data sets.
Optionality: Mandatory for FEMA

1.1.1.8.1 *Pubplace* -- Publication Place -- the name of the city (and state or province, and country, if needed to identify the city) where the data set was published or released.
Optionality: Mandatory
Domain: free text
FEMA Business Rules: “Washington, DC”

1.1.1.8.2 *Publish* -- Publisher -- the name of the individual or organization that published the data set.
Optionality: Mandatory
Domain: free text
FEMA Business Rules: User has the option of specifying whether these data will be distributed directly by FEMA or by the user’s organization (FEMA maintains an archived copy in this case). If the user will be distributing the data, then this contact information should be identical to the distribution contact information (Section 6).

See also element 1.9 Point of Contact

1.1.1.9 *Othercit* -- Other Citation Details -- other information required to complete the citation.
Optionality: Optional for FEMA
Domain: free text

1.1.1.10 Onlink* -- Online Linkage -- the name of an online computer resource that contains the data set. Entries should follow the Uniform Resource Locator (URL) convention of the Internet.
Optionality: Mandatory for FEMA
Domain:

FEMA Business Rules: For case where FEMA is the steward, Online Linkage should be the high-level URL “<https://hazards.fema.gov>”.
For case where FEMA is not the steward, Online Linkage should be the steward’s high-level URL.

1.1.1.11 Lworkcit -- Larger Work Citation -- the information identifying a larger work in which the data set is included.

Optionality: Mandatory for FEMA

FEMA Business Rules: Lworkcit refers to the FEMA case under which the data package was uploaded. The ‘lworkcit’ element is a compound element and does not take a value.

1.1.1.11.1 Citeinfo

Optionality: Mandatory

FEMA Business Rules: Note: This Citeinfo block is used to reference the FEMA Case study.

1.1.1.11.1.1 Origin*

Optionality: Mandatory

FEMA Business Rules: Domain: “Federal Emergency Management Agency”

1.1.1.11.1.2 Pubdate

Optionality: Mandatory

FEMA Business Rules: Domain: “Unknown”

1.1.1.11.1.3 Pubtime

Optionality: Optional

1.1.1.11.1.4 Title

Optionality: Mandatory

FEMA Business Rules: Domain: Title must be “FEMA CASE num” where num is the case number associated to the project by FEMA of the form:

“yy-rr-nnnnS”

where:

yy = year

rr = FEMA region number

nnnn = 4-character project code.

1.1.1.11.1.5 Edition

Optionality: Optional for FEMA

1.1.1.11.1.6 Geoform

Optionality: Optional for FEMA

1.1.1.11.1.7 Serinfo/sername & serinfo/issue

Optionality: Optional for FEMA

1.1.1.11.1.8 Pubinfo/pubplace & pubinfo/publish

Optionality: Optional for FEMA

1.1.1.11.1.9 Othercit

Optionality: Optional for FEMA

1.1.1.11.1.10 *Onlink*

Optionality: Optional

1.1.1.11.1.11 *Lworkcit*

Optionality: Optional for FEMA

1.2 *Descript* -- Description -- a characterization of the data set, including its intended use and limitations.

Optionality: Mandatory

1.2.1 *Abstract* -- Abstract -- a brief narrative summary of the data set.

Optionality: Mandatory

Domain:

FEMA Business Rules: *“Discovery, as defined in FEMA’s Guidelines and Standards for Flood Risk Analysis and Mapping, involves data collection, stakeholder engagement, a Discovery Meeting, and post-meeting activities. Data gathered during Discovery include information that influences flood risk decision-making, historical flooding information, existing flood hazard data and information, and mitigation activities. It may also include other datasets used in Discovery, including Coordinated Needs Management Strategy (CNMS) data, Average Annualized Loss (AAL), gages, high water marks, community concerns, flood control structures, existing flood hazards, etc. A Discovery Meeting is held after an analysis of the collected information is completed. This analysis is summarized in the Discovery Report and may be shown on the Discovery Map. The Discovery dataset may include an inventory of the data collected during Discovery, spatial and tabular data, the Discovery Report and Map, and a project charter”.*

If Large Scale Automated Engineering or Base Level Engineering was performed during Discovery, the following may also be included: *“Recent innovations and efficiencies in floodplain mapping have allowed FEMA to develop processes called Large Scale Automated Engineering and Base Level Engineering, which can be used to address current program challenges including the validation of Zone A studies and the availability of flood risk data in the early stages of a Flood Risk Project. The Large Scale Automated Engineering and Base Level Engineering processes involve using best available data and automated techniques to mass produce estimates of flood hazard boundaries for multiple flood recurrence intervals”.*

1.2.2 *Purpose* -- Purpose -- a summary of the intentions with which the data set was developed.

Optionality: Mandatory

Domain:

FEMA Business Rules: *“Discovery is conducted on a selected watershed of interest and provides the exchange of information among the state, Tribal, Other Federal Agency, non-profit, and other stakeholders involved. Data are gathered prior to the Discovery Meeting and stakeholders are asked to provide information on local datasets. The Discovery Meeting allows FEMA to gain a better understanding of the watershed and evaluate the needs of the communities. Results from Discovery will help FEMA decide whether a flood risk project is appropriate and, if so, collaborate on the project planning in*

detail. If a flood risk project is appropriate and flood hazard mapping will be included, data and information collected during Discovery will be used to evaluate the potential effects of the study. This evaluation must be discussed with the watershed stakeholders to set expectations about the outcomes of the flood risk project. The final project scope and project charter must be coordinated with the watershed stakeholders. Discovery is required for all new and updated flood risk projects. A flood risk project includes any combination of the following activities: flood hazard mapping (such as the formation of new Flood Insurance Rate Maps and Flood Insurance Studies); flood risk assessments (such as Hazus runs or refined Hazus analysis); and/or mitigation planning technical assistance (such as training, outreach, assistance in understanding risk data, and improving mitigation plans, especially risk assessments and mitigation strategies)”.

If Large Scale Automated Engineering or Base Level Engineering was performed during Discovery, the following may also be included: “The Large Scale Automated Engineering and Base Level Engineering processes leverage the best available data and methods and use automated techniques to mass produce estimates of flood hazard boundaries for multiple flood recurrence intervals. These data may be used to evaluate Zone A studies in the Coordinated Needs Management Strategy (CNMS) inventory that are “unknown” or that require revalidation. Additionally, Large Scale Automated Engineering or Base Level Engineering data can be used in the Discovery process to identify the potential changes in flood elevation and extent that may result from a proposed project scope and share this information with stakeholders. Another important goal of the Large Scale Automated Engineering and Base Level Engineering processes is the scalability of the results. Scalability means that the results of Large Scale Automated Engineering or Base Level Engineering can not only be used for CNMS evaluations of Zone A studies and Discovery, but also leveraged throughout the Risk MAP program. The large volume of data resulting from Large Scale Automated Engineering or Base Level Engineering may be able to be used for the eventual production of regulatory and flood risk products, outreach and risk communication, and MT-1 processing”.

1.2.3 *Suppl* -- Supplemental Information -- other descriptive information about the data set.

Optionality: Optional

Domain: free text

1.3 *Timeperd* --Time Period of Content -- time period(s) for which the data set corresponds to the currentness reference.

Optionality: Mandatory

1.3.1 *Timeinfo* – Time Period of Information – Information about date and time of event.

Optionality: Mandatory

1.3.1.1 *Sngdate* – Single Date/Time – means of encoding a single date and time.

Optionality: Mandatory

1.3.1.1.2 *Caldate* – Calendar Date – the year (and optionally month, or month and day)

Optionality: Mandatory

Domain: single_date

FEMA Business Rules: Must be in the form of YYYYMMDD

Date should be MIP Submission Date.

1.3.2 *Current* -- Currentness Reference -- the basis on which the time period of content information is determined.

Optionality: Mandatory

Domain:

FEMA Business Rules: Currentness Reference should be “MIP Submission Date”.

1.4 *Status* -- Status -- the state of and maintenance information for the data set.

Optionality: Mandatory

1.4.1 *Progress* -- Progress -- the state of the data set.

Optionality: Mandatory

Domain: "Complete" "In work"

FEMA Business Rules: For FEMA-DCS-Discovery: “In work”

1.4.2 *Update* -- Maintenance and Update Frequency -- the frequency with which changes and additions are made to the data set after the initial data set is completed.

Optionality: Mandatory

Domain: **FEMA Business Rules: “Unknown”**

1.5 *Spdom* -- Spatial Domain - the geographic areal domain of the data set.

Optionality: Mandatory

1.5.1 *Bounding* -- Bounding Coordinates - the limits of coverage of a data set expressed by latitude and longitude values in the order western-most, eastern-most, northernmost, and southern-most. For data sets that include a complete band of latitude around the earth, the West Bounding Coordinate shall be assigned the value -180.0, and the East Bounding Coordinate shall be assigned the value 180.0

Optionality: Mandatory

1.5.1.1 *Westbc* -- West Bounding Coordinate -- western-most coordinate of the limit of coverage expressed in longitude.

Optionality: Mandatory

Domain: -180.0 <= real number < 180.0

1.5.1.2 *Eastbc* -- East Bounding Coordinate -- eastern-most coordinate of the limit of coverage expressed in longitude.

Optionality: Mandatory

Domain: -180.0 <= real number <= 180.0

1.5.1.3 *Northbc* -- North Bounding Coordinate -- northern-most coordinate of the limit of coverage expressed in latitude.

Optionality: Mandatory

Domain: -90.0 <= real number <= 90.0;

North Bounding Coordinate >= South Bounding Coordinate

1.5.1.4 *Southbc* -- South Bounding Coordinate -- southern-most coordinate of the limit of coverage expressed in latitude.

Optionality: Mandatory

Domain: $-90.0 \leq \text{real number} \leq 90.0$;
South Bounding Coordinate \leq North Bounding Coordinate

1.5.2 *Dsgpoly** -- Data Set G-Polygon -- coordinates defining the outline of an area covered by a data set.
Optionality: Optional

1.5.2.1 *Dsgpolyo* -- Data Set G-Polygon Outer G-Ring -- the closed nonintersecting boundary of an interior area.
Optionality: Optional

1.5.2.2 *Dsgpolyx* -- Data Set G-Polygon Exclusion G-Ring -- the closed nonintersecting boundary of a void area (or "hole" in an interior area).
Optionality: Optional

1.6 *Keywords* -- Keywords -- words or phrases summarizing an aspect of the data set.
Optionality: Mandatory

1.6.1 *Theme** -- Theme -- subjects covered by the data set (for a list of some commonly used thesauri, see Part IV: Subject/index term sources in Network Development and MACHINE-Readable Cataloging (MARC) Standards Office, 1988, USMARC code list for relators, sources, and description conventions: Washington, Library of Congress).
Optionality: Mandatory

FEMA Business Rules: All metadata submissions must have two separate 'theme' elements, each referencing distinct topic category thesauri and keywords. The first theme element should reference the International Organization for Standardization (ISO) "ISO 19115 Topic Category" thesaurus (theme.themekt) and keywords (theme.themekey). The second 'theme' element should reference the "FEMA NFIP Topic Category" thesaurus and keywords.

1.6.1.1 *Themekt* -- Theme Keyword Thesaurus -- reference to a formally registered thesaurus or a similar authoritative source of theme keywords.

Optionality: Mandatory

Domain: "None" free text

FEMA Business Rules: "ISO 19115 Topic Category" and "FEMA NFIP Topic Category"

1.6.1.2 *Themekey** -- Theme Keyword -- common-use word or phrase used to describe the subject of the data set.

Optionality: Mandatory

Domain:

FEMA Business Rules: For the "ISO 19115 Topic Category" thesaurus, for FEMA-DCS-Discovery submissions, these keywords are required: "boundaries", "elevation", "environment", "inlandWaters", "transportation". If appropriate, the "oceans" keyword should also be used.

In addition, data producers should use the following additional ISO Topic Category keywords such as those from the following list that are applicable to this submission: "farming", "biota", "climatologyMeteorologyAtmosphere", "economy", "geoscientificInformation", "health", "imageryBaseMapsEarthCover", "intelligenceMilitary", "location", "planningCadastre", "society", "structure", "utilitiesCommunication"

For the “*FEMA NFIP Topic Category*” thesaurus, for FEMA-DCS-Discovery submissions, these keywords are required: “*Discovery*”

In addition, for the “*FEMA NFIP Topic Category*” thesaurus, data producers should use additional keywords from the following list that are applicable to the submission: “*CNMS*”, “*Coordinated Needs Management Strategy*”, “*Hazus*”, “*Bathymetry*”, “*Flood Control Structures*”, “*Dams*”, “*Levees*”, “*Gages*”, “*Letters of Map Change*”, “*Wind Stations*”, “*Primary Frontal Dunes*”, “*High Water Marks*”, “*AAL*”, “*Average Annualized Loss*” free text.

1.6.2 *Place** -- Place -- geographic locations characterized by the data set.

Optionality: Mandatory for FEMA

1.6.2.1 *Placekt* -- Place Keyword Thesaurus -- reference to a formally registered thesaurus or a similar authoritative source of place keywords.

Optionality: Mandatory for FEMA

Domain: "None" "Geographic Names Information System" free text

1.6.2.2 *Placekey** -- Place Keyword -- the geographic name of a location covered by a data set.

Optionality: Mandatory for FEMA

FEMA Business Rules: Domain: The following seven (7) Place Keywords are required for each Place (1.6.2) element:

- “*REGION num*” where *num* is the *FEMA Region number*.
- “*STATE abbreviation*” where *abbreviation* is the 2-letter *Federal Information Processing Standard (FIPS) standard state abbreviation* (e.g., “*STATE VA*” for Virginia).
- “*COUNTY name*” where *name* is the *name of the county*.
- “*COUNTY-FIPS code*” where *code* is the *county FIPS code*.
- “*COMMUNITY name*” where *name* is *name of the community*.
- “*FEMA-CID code*” where *code* is the *FEMA Community ID (CID) code*.
- “*HYDROLOGIC UNIT code*” where *code* is the *8-digit HUC*.

Users may include additional Place Keyword elements using free text.

1.6.3 *Stratum** -- Stratum -- layered, vertical locations characterized by the data set.

Optionality: Optional for FEMA

1.6.3.1 *Stratkt* -- Stratum Keyword Thesaurus -- reference to a formally registered thesaurus or a similar authoritative source of stratum keywords.

Optionality: Optional for FEMA

Domain: "None" free text

1.6.3.2 *Stratkey** -- Stratum Keyword -- the name of a vertical location used to describe the locations covered by a data set.

Optionality: Optional for FEMA

Domain: free text

1.6.4 *Temporal** -- Temporal -- time period(s) characterized by the data set.

Optionality: Optional for FEMA

1.6.4.1 *Tempkt* -- Temporal Keyword Thesaurus -- reference to a formally registered thesaurus or a similar authoritative source of temporal keywords.

Optionality: Optional for FEMA

Domain: "None" free text

1.6.4.2 *Tempkey** -- Temporal Keyword -- the name of a time period covered by a data set.

Optionality: Optional

Domain: free text for FEMA

1.7 *Accconst* -- Access Constraints -- restrictions and legal prerequisites for accessing the data set. These include any access constraints applied to assure the protection of privacy or intellectual property, and any special restrictions or limitations on obtaining the data set.

Optionality: Mandatory

Domain:

FEMA Business Rules: “Restricted” “View-only” “None”

1.8 *Useconst* -- Use Constraints -- restrictions and legal prerequisites for using the data set after access is granted. These include any use constraints applied to assure the protection of privacy or intellectual property, and any special restrictions or limitations on using the data set.

Optionality: Mandatory

Domain:

FEMA Business Rules: “The Discovery dataset may include an inventory of the data collected during Discovery, spatial and tabular data, the Discovery Report and Map, and a project charter. Acknowledgment of FEMA would be appreciated in products derived from these data”.

1.9 *Ptcontac* -- Point of Contact -- contact information for an individual or organization that is knowledgeable about the data set.

Optionality: Optional

FEMA Business Rules: The user may wish to provide Point of Contact information here (Section 1.9) in cases where the Originator (1.1.1) of the dataset is not also the Distributor (6.1) of the dataset, for whom Contact Information is provided in Section 6.1. In cases such as this, providing Contact Information here will facilitate contact with the Originator of the dataset.

1.9.1 *Cntinfo* -- Contact Information -- Identity of, and means to communicate with, person(s) and organization(s) associated with the data set.

Optionality: Optional

1.9.1.1 *Cntperp*² -- Contact Person Primary -- the name of the individual to which the contact type.

Optionality: Optional

1.9.1.1.1 *Cntper* -- Contact Person -- the name of the individual to which the contact type applies.

Optionality: Optional

Domain: free text

1.9.1.1.2 *Cntorg* -- Contact Organization -- the name of the organization to which the contact type applies.

Optionality: Optional

² Note: Use of the *Cntinfo.Cntperp* and *Cntinfo.Cntorgp* elements is mutually exclusive.

Domain: free text

1.9.1.2 *Cntorgp* -- Contact Organization Primary -- the organization, and the member of the organization associated with the data set. Used in cases where the association of the organization to the data set is more significant than the association of the person to the data set.

Optionality: Optional

Domain: Compound

1.9.1.2.1 *Cntorg* -- Contact Organization -- the name of the organization to which the contact type applies.

Optionality: Optional

Domain: free text

1.9.1.2.2 *Cntper* -- Contact Person -- the name of the individual to which the contact type applies.

Optionality: Optional

Domain: free text

1.9.1.3 *Cntpos* -- Contact Position -- the title of individual.

Optionality: Optional

Domain: free text

1.9.1.4 *Cntaddr** -- Contact Address -- the address for the organization or individual.

Optionality: Optional

1.9.1.4.1 *Addrtype* -- Address Type -- the information provided by the address.

Optionality: Optional

Domain: "mailing" "physical" "mailing and physical", free text

1.9.1.4.2 *Address** -- Address -- an address line for the address.

Optionality: Optional

Domain: free text

1.9.1.4.3 *City* -- City -- the city of the address.

Optionality: Optional

Domain: free text

1.9.1.4.4 *State* -- State or Province -- the state or province of the address.

Optionality: Optional

Domain: free text

1.9.1.4.5 *Postal* -- Postal Code -- the ZIP or other postal code of the address.

Optionality: Optional

Domain: free text

1.9.1.4.6 *Country* -- Country -- the country of the address.

Optionality: Optional

Domain: **FEMA Business Rules: USA**

1.9.1.5 *Cntvoice** -- Contact Voice Telephone -- the telephone number by which individuals can speak to the organization or individual.

Optionality: Optional

Domain: free text

1.9.1.6 *Cnttdd** -- Contact Telephone Device for the Deaf/Text Telephone (TDD/TTY) Telephone -- the telephone number by which hearing impaired individuals can contact the organization or individual.

Optionality: Optional

Domain: free text

1.9.1.7 *Cntfax** -- Contact Facsimile Telephone -- the telephone number of a facsimile machine of the organization or individual.

Optionality: Optional

Domain: free text

1.9.1.8 *Cntemail** -- Contact Electronic Mail Address -- the address of the electronic mailbox of the organization or individual.

Optionality: Optional

Domain: free text

1.9.1.9 *Hours* -- Hours of Service -- time period when individuals can speak to the organization or individual.

Optionality: Optional

Domain: free text

1.9.1.10 *Cntinst* -- Contact Instructions -- supplemental instructions on how or when to contact the individual or organization.

Optionality: Optional

Domain: free text

1.10 *Browse** -- Browse Graphic -- a graphic that provides an illustration of the data set. The graphic should include a legend for interpreting the graphic.

Optionality: Optional

1.10.1 *Browse_n* -- Browse Graphic File Name -- name of a related graphic file that provides an illustration of the data set.

Optionality: Optional

Domain: free text

1.10.2 *Browse_d* -- Browse Graphic File Description -- a text description of the illustration.

Optionality: Optional

Domain: free text

1.10.3 *Browse_t* -- Browse Graphic File Type -- graphic file type of a related graphic file.

Optionality: Optional

Domain: domain values in the table below; free text

Value	Definition
"CGM"	Computer Graphics Metafile
"EPS"	Encapsulated Postscript format
"EMF"	Enhanced Metafile
"GIF"	Graphic Interchange Format
"JPEG"	Joint Photographic Experts Group format
"PBM"	Portable Bit Map format
"PS"	Postscript format
"TIFF"	Tagged Image File Format
"WMF"	Windows metafile
"XWD"	X-Windows Dump

1.11 *Datacred* -- Data Set Credit -- recognition of those who contributed to the data set.
Optionality: Optional
Domain: free text

1.12 *Secinfo* -- Security Information -- handling restrictions imposed on the data set because of national security, privacy, or other concerns.

Optionality: Optional

FEMA Business Rules: Security information is optional; however, if some of the data contain sensitive information (bridges, dams, etc.), the publisher can specify that information in this Section.

1.12.1 *Secsys* -- Security Classification System -- name of the classification system.

Optionality: Optional

Domain: free text

1.12.2 *Secclass* -- Security Classification -- name of the handling restrictions on the data set.

Optionality: Optional

Domain: "Top secret" "Secret" "Confidential" "Restricted" "Unclassified" "Sensitive" free text

1.12.3 *Sechandl* -- Security Handling Description -- additional information about the restrictions on handling the data set.

Optionality: Optional

Domain: free text

1.13 *Native* -- Native Data Set Environment -- a description of the data set in the producer's processing environment, including items such as the name of the software (including version), the computer operating system, file name (including host-, path-, and filenames), and the data set size.

Optionality: Mandatory for FEMA

FEMA Business Rules: This section is used to capture information about production of the FIRM Database. It must include the software release of any submitted geodatabase.

Domain is free text

Example: "Original data development environment may vary. Finishing of the data is done using Esri's ArcGIS software. The submitted geodatabase was created using ArcGIS version 10.5."

1.14 *Crossref** -- Cross Reference -- information about other, related data sets that are likely to be of interest.

Optionality: Optional

FEMA Business Rules: The Cross Reference section is optional but can be used to relate the Study Package to the Effective Map/Flood Insurance Study (FIS). This relationship is more generally established using the COMMUNITY name and FEMA-CID code in the place keywords list (see 1.6.2.2)

1.14.1 *Citeinfo* -- Citation Information -- the recommended reference to be used for the data set.

Optionality: Optional

1.14.1.1 *Origin**

Optionality: Optional

- 1.14.1.2 *Pubdate*
Optionality: Optional
- 1.14.1.3 *Pubtime*
Optionality: Optional
- 1.14.1.4 *Title*
Optionality: Optional
- 1.14.1.5 *Edition*
Optionality: Optional
- 1.14.1.6 *Geoform*
Optionality: Optional
- 1.14.1.7 *Serinfo/sername & serinfo/issue*
Optionality: Optional
- 1.14.1.8 *Pubinfo/pubplace & pubinfo/publish*
Optionality: Optional
- 1.14.1.9 *Othercit*
Optionality: Optional
- 1.14.1.10 *Onlink**
Optionality: Optional
- 1.14.1.11 *Lworkcit*
Optionality: Optional

2 *dataqual* -- Data Quality Information -- General assessment of the quality of the data set

Optionality: Mandatory for FEMA

FEMA Business Rules: This section is required for all Discovery submissions

2.1 *Attracc* -- Attribute Accuracy -- an assessment of the accuracy of the identification of entities and assignment of attribute values in the data set.

Optionality: Mandatory for FEMA

2.1.1 *Attraccr* -- Attribute Accuracy Report -- an explanation of the accuracy of the identification of the entities and assignments of values in the data set and a description of the tests used.

Optionality: Mandatory

Domain:

FEMA Business Rules: “*The Discovery dataset consists of vector files and associated attributes produced in conjunction with the Discovery Map and Discovery Report. Details of FEMA’s requirements for Discovery data are available in the Guidelines and Standards for Flood Risk Analysis and Mapping. Discovery data are aggregated from multiple sources or large geographic areas and are intended to be used for reference and display only. No standardization of the data and their attributes is guaranteed. Where possible the data are unaltered from the source. In some cases, multiple data sources are combined into one feature class and attributes are not carried over*”.

Additional entities may be added as free text to describe Large Scale Automated Engineering or Base Level Engineering data, if applicable.

2.1.2 *Qatracc** -- Quantitative Attribute Accuracy Assessment -- a value assigned to summarize the accuracy of the identification of the entities and assignments of values in the data set and the identification of the test that yielded the value.

Optionality: Optional

2.1.2.1 *Attraccv* -- Attribute Accuracy Value -- an estimate of the accuracy of the identification of the entities and assignments of attribute values in the data set.

Optionality: Optional

Domain: "Unknown" free text

2.1.2.2 *Attracce* -- Attribute Accuracy Explanation -- the identification of the test that yielded the Attribute Accuracy Value.

Optionality: Optional

Domain: free text

2.2 *Logic* -- Logical Consistency Report -- an explanation of the fidelity of relationships in the data set and tests used.

Optionality: Mandatory

Domain:

FEMA Business Rules: “The Discovery package may include an inventory of the data collected during Discovery, spatial and tabular data, the Discovery Report and Map, and a project charter. When FEMA produces a Discovery Report and Map, previous studies are checked to avoid duplication of data. Other data sources are compared to that of previous studies to insure information provided is ‘best available’. Care is taken to ensure that the data are relevant to the information contained in the Discovery Report and Map. Discovery data are aggregated from multiple sources or large geographic areas and are intended to be used for reference and display only. No standardization of the data and their attributes is guaranteed. The data are provided in order to create the maps provided in the report and serve as a starting point for communicating relevant phenomena within stakeholders’ areas of interest. Where possible, stakeholders are encouraged to provide more useful relevant data to aid in this communication”.

Additional entities may be added as free text to describe Large Scale Automated Engineering or Base Level Engineering data, if applicable.

2.3 *Complete* -- Completeness Report -- information about omissions, selection criteria, generalization, definitions used, and other rules used to derive the data set.

Optionality: Mandatory

Domain:

FEMA Business Rules: “Data contained in the Discovery package highlight the data obtained during Discovery to demonstrate a holistic picture of flooding issues, flood risk, and flood mitigation capabilities within the study watershed. The data and information obtained during the Discovery process were used to develop a Discovery Report and Map and will contribute to regulatory (FIRMs and FISs) and non-regulatory flood risk products (Flood Risk Reports, Flood

Risk Maps, and Flood Risk Databases). Discovery data reflect the content of the source materials. Features may have been eliminated or generalized on the source graphic, due to scale and legibility constraints”.

Additional entities may be added as free text to describe Large Scale Automated Engineering or Base Level Engineering data, if applicable.

2.4 Posacc -- Positional Accuracy -- an assessment of the accuracy of the positions of spatial objects.
Optionality: Mandatory for FEMA

2.4.1 Horizpa -- Horizontal Positional Accuracy -- an estimate of accuracy of the horizontal positions of the spatial objects.

Optionality: Mandatory for FEMA

2.4.1.1 Horizpar -- Horizontal Positional Accuracy Report -- an explanation of the accuracy of the horizontal coordinate measurements and a description of the tests used.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: Example: “The Discovery dataset consists of digital data and associated attributes aggregated to produce Discovery products. The published Discovery Report and Discovery Map are used to convey information aggregated for the area of investigation within the Discovery report. Details of FEMA’s requirements for the Discovery Report and Map are available in the Guidelines and Standards for Flood Risk Analysis and Mapping. Horizontal accuracy was tested by manual comparison of source graphics with hardcopy plots and a symbolized display on an interactive computer graphic system. Independent quality control testing of FEMA’s Discovery deliverable(s) was also performed”.

Additional entities may be added as free text to describe Large Scale Automated Engineering or Base Level Engineering data, if applicable.

2.4.1.2 Qhorizpa* -- Quantitative Horizontal Positional Accuracy Assessment -- numeric value assigned to summarize the accuracy of the horizontal coordinate measurements and the identification of the test that yielded the value.

Optionality: Optional

2.4.1.2.1 Horizpav -- Horizontal Positional Accuracy Value -- an estimate of the accuracy of the horizontal coordinate measurements in the data set expressed in (ground) meters.

Optionality: Optional

Domain: free real

2.4.1.2.2 Horizpae -- Horizontal Positional Accuracy Explanation -- the identification of the test that yielded the Horizontal Positional Accuracy Value.

Optionality: Optional

Domain: free text

2.4.2 Vertacc -- Vertical Positional Accuracy -- an estimate of accuracy of the vertical positions in the data set.

Optionality: Optional for FEMA

2.4.2.1 *Vertaccr* -- Vertical Positional Accuracy Report -- an explanation of the accuracy of the vertical coordinate measurements and a description of the tests used.

Optionality: Optional for FEMA

Domain: free text

2.4.2.2 *Qvertpa** -- Quantitative Vertical Positional Accuracy Assessment -- numeric value assigned to summarize the accuracy of vertical coordinate measurements and the identification of the test that yielded the value.

Optionality: Optional

2.4.2.2.1 *Vertaccv* -- Vertical Positional Accuracy Value -- an estimate of the accuracy of the vertical coordinate measurements in the data set expressed in (ground) meters.

Optionality: Optional

Domain: free real

2.4.2.2.2 *Vertacce* -- Vertical Positional Accuracy Explanation -- the identification of the test that yielded the Vertical Positional Accuracy Value.

Optionality: Optional

Domain: free text

2.5 *Lineage* -- Lineage -- information about the events, parameters, and source data which constructed the data set, and information about the responsible parties.

Optionality: Mandatory

2.5.1 *Srcinfo** -- Source Information -- list of sources and a short discussion of the information contributed by each.

Optionality: Mandatory for FEMA

FEMA Business Rules: Discovery datasets must reference all sources used in their production. Publishers should create a unique source information entry for each of the following types of input sources that were used:

- **BASE**
- **FIRM**
- **FHBM**
- **FBFM**
- **LOMC**
- **FIS**
- **STUDY**
- **SURVEY**
- **TOPO**
- **TSDN**
- **REF**
- **HAZUS**

Each source information element must be uniquely labeled using the source citation abbreviation "lineage/srcinfo/srccitea" element (2.5.1.5). Use guidance described in the *FIRM Database Technical Reference Table 3: "The Mapping Partner shall assign each data source a Source Citation Abbreviation (e.g., BASE1, BASE2, BASE3)". Source citation abbreviation elements may be subsequently referenced by optional "lineage/procstep/srcused" elements (2.5.2.2).*

Additional entities may be added as free text to describe submitted datasets.

2.5.1.1 *Srccite* -- Source Citation -- reference for a source data set.
Optionality: Mandatory

2.5.1.1.1 *Citeinfo*
Optionality: Mandatory

2.5.1.1.1.1 *Origin**
Optionality: Mandatory

2.5.1.1.1.2 *Pubdate*
Optionality: Mandatory

2.5.1.1.1.3 *Pubtime*
Optionality: Optional

2.5.1.1.1.4 *Title*
Optionality: Mandatory

2.5.1.1.1.5 *Edition*
Optionality: Optional for FEMA

2.5.1.1.1.6 *Geoform*
Optionality: Optional for FEMA

2.5.1.1.1.7 *Serinfo/sername & serinfo/issue*
Optionality: Optional for FEMA

2.5.1.1.1.8 *Pubinfo/pubplace & pubinfo/publish*
Optionality: Optional for FEMA

2.5.1.1.1.9 *Othercit*
Optionality: Optional for FEMA

2.5.1.1.1.10 *Onlink**
Optionality: Optional

2.5.1.1.1.11 *Lworkcit*
Optionality: Optional for FEMA

2.5.1.2 *Srcscale* -- Source Scale Denominator -- the denominator of the representative fraction on a map (for example, on a 1:24,000-scale map, the Source Scale Denominator is 24000).

Optionality: Optional

Domain: integer > 1

FEMA Business Rules: Note: This is an integer number and must not contain a comma character, decimal point or the numerator part of the representative fraction.

2.5.1.3 *Typesrc* -- Type of Source Media -- the medium of the source data set.
Optionality: Mandatory

Domain:

FEMA Business Rules: “online” “CD-ROM” “DVD-ROM” free text

2.5.1.4 *Srcetime* -- Source Time Period of Content -- time period(s) for which the source data set corresponds to the ground.

Optionality: Mandatory

2.5.1.4.1 *Timeinfo* -- Time Period of Information -- Information about date and time of event.

Optionality: Mandatory

2.5.1.4.1.1 *Sngdate* -- Single Date/Time -- means of encoding a single date and time.

Optionality: Mandatory

2.5.1.4.1.1.1 *Caldate* -- Calendar Date -- the year (and optionally month, or month and day)

Optionality: Mandatory

2.5.1.4.2 *Srccurr* -- Source Currentness Reference -- the basis on which the source time period of content information of the source data set is determined.

Optionality: Mandatory

Domain: "ground condition" "publication date" free text

2.5.1.5 *Srccitea* -- Source Citation Abbreviation -- short-form alias for the source citation.

Optionality: Mandatory

Domain:

FEMA Business Rules: Can be one of the following (Note that if more than one instance of a source was used, then the citation abbreviations are numbered; e.g., BASE1, BASE2, etc.):

- BASE
- FIRM
- FHBM
- FBFM
- LOMC
- FIS
- STUDY
- SURVEY
- TOPO
- TSDN
- REF
- HAZUS

2.5.1.6 *Srctr* -- Source Contribution -- brief statement identifying the information contributed by the source to the data set.

Optionality: Mandatory

Domain: free text

2.5.2 *Procstep** -- Process Step -- information about a single event.

Optionality: Mandatory

2.5.2.1 *Procdesc* -- Process Description -- an explanation of the event and related parameters or tolerances.

Optionality: Mandatory

Domain:

FEMA Business Rules: First occurrence of Process Description must state:

“Discovery data are compiled in conjunction with the Discovery Report and Map to demonstrate a holistic picture of flooding issues, flood risk, and flood mitigation capabilities within the study area. The data and information obtained during Discovery are used to develop the Discovery package and contribute to regulatory products (FIRMs and FISs) and non-regulatory flood risk products (Flood Risk Reports, Flood Risk Maps, and Flood Risk Databases)”.

If applicable, additional occurrences should be used to document Large Scale Automated Engineering or Base Level Engineering data sources, methodology used, and any limitations of the output data. If Base Level Engineering methods were used, documentation of the Base Level Engineering tier used for the study should be included in this section.

Additional occurrences optional.

2.5.2.2 *Srcused** -- Source Used Citation Abbreviation -- the Source Citation Abbreviation of a data set used in the processing step.

Optionality: Optional for FEMA

Domain: Source Citation Abbr. from the Source info entries for the data set.

FEMA Business Rules: A comma delimited list of <srccitea> values is NOT VALID. Each <srccitea> must be listed individually using one or more <srcused> elements.

2.5.2.3 *Procdate* -- Process Date -- the date when the event was completed.

Optionality: Mandatory

Domain: free date

FEMA Business Rules: Must be in the form of YYYYMMDD

For existing data, Publication Date would be the date the data were published by the originator.

For data developed for the study, Publication Date would be the submittal date to the MIP.

See also Section 1.1.1.2 and Section 1.3.1

2.5.2.4 *Proctime* -- Process Time -- the time when the event was completed.

Optionality: Optional

Domain: free time

2.5.2.5 *Srcprod* -- Source Produced Citation Abbreviation -- the Source Citation Abbreviation of an intermediate data set that (1) is significant in the opinion of the data producer, (2) is generated in the processing step, and (3) is used in later processing steps.

Optionality: Optional for FEMA

Domain: Source Citation Abbr. from the Source info entries for the data set.

2.5.2.6 *Procont* -- Process Contact -- the party responsible for the processing step information.

Optionality: Optional

- 2.5.2.6.1 *Cntinfo* – Contact Information -- Identity of, and means to communicate with, person(s) and organization(s) associated with the data set.
 Optionality: Optional
- 2.5.2.6.1.1 *Cntperp*² -- Contact Person Primary -- the name of the individual to which the contact type.
 Optionality: Optional
- 2.5.2.6.1.1.1 *Cntper* -- Contact Person -- the name of the individual to which the contact type applies.
 Optionality: Optional
 Domain: free text
- 2.5.2.6.1.1.2 *Cntorg* -- Contact Organization -- the name of the organization to which the contact type applies.
 Optionality: Optional
 Domain: free text
- 2.5.2.6.1.2 *Cntorgp* -- Contact Organization Primary -- the organization, and the member of the organization associated with the data set. Used in cases where the association of the organization to the data set is more significant than the association of the person to the data set.
 Optionality: Optional
 Domain: Compound
- 2.5.2.6.1.2.1 *Cntorg* -- Contact Organization -- the name of the organization to which the contact type applies.
 Optionality: Optional
 Domain: free text
- 2.5.2.6.1.2.2 *Cntper* -- Contact Person -- the name of the individual to which the contact type applies.
 Optionality: Optional
 Domain: free text
- 2.5.2.6.1.3 *Cntpos* -- Contact Position -- the title of individual.
 Optionality: Optional
 Domain: free text
- 2.5.2.6.1.4 *Cntaddr** -- Contact Address -- the address for the organization or individual.
 Optionality: Optional
- 2.5.2.6.1.4.1 *Addrtype* -- Address Type -- the information provided by the address.
 Optionality: Optional
 Domain: "mailing" "physical" "mailing and physical", free text
- 2.5.2.6.1.4.2 *Address** -- Address -- an address line for the address.
 Optionality: Optional
 Domain: free text
- 2.5.2.6.1.4.3 *City* -- City -- the city of the address.
 Optionality: Optional
 Domain: free text
- 2.5.2.6.1.4.4 *State* -- State or Province -- the state or province of the address.
 Optionality: Optional
 Domain: free text

2.5.2.6.1.4.5 *Postal* -- Postal Code -- the ZIP or other postal code of the address.

Optionality: Optional

Domain: free text

2.5.2.6.1.4.6 *Country* -- Country -- the country of the address.

Optionality: Optional

Domain: free text

2.5.2.6.1.5 *Cntvoice** -- Contact Voice Telephone -- the telephone number by which individuals can speak to the organization or individual.

Optionality: Optional

Domain: free text

2.5.2.6.1.6 *Cnttdd** -- Contact TDD/TTY Telephone -- the telephone number by which hearing impaired individuals can contact the organization or individual.

Optionality: Optional

Domain: free text

2.5.2.6.1.7 *Cntfax** -- Contact Facsimile Telephone -- the telephone number of a facsimile machine of the organization or individual.

Optionality: Optional

Domain: free text

2.5.2.6.1.8 *Cntemail** -- Contact Electronic Mail Address -- the address of the electronic mailbox of the organization or individual.

Optionality: Optional

Domain: free text

2.5.2.6.1.9 *Hours* -- Hours of Service -- time period when individuals can speak to the organization or individual.

Optionality: Optional

Domain: free text

2.5.2.6.1.10 *Cntinst* -- Contact Instructions -- supplemental instructions on how or when to contact the individual or organization.

Optionality: Optional

Domain: free text

2.6 *Cloud* -- Cloud Cover -- area of a data set obstructed by clouds, expressed as a percentage of the spatial extent.

Optionality: Optional

Domain: 0 <= Integer <= 100 "Unknown"

3 *Spdoinfo* -- Spatial Data Organization Information -- the mechanism used to represent spatial information in the data set.

Optionality: Optional for FEMA

FEMA Business Rules: This section is not required for Discovery submissions.

3.1 *Indspref* -- Indirect Spatial Reference -- name of types of geographic features, addressing schemes, or other means through which locations are referenced in the data set.

Optionality: Optional for FEMA

Domain: free text

3.2 *Direct* -- Direct Spatial Reference Method -- the system of objects used to represent space in the data set.

Optionality: Optional for FEMA

Domain: "Point" "Vector" "Raster"

3.3 *Ptvcinf*³ -- Point and Vector Object Information -- the types and numbers of vector or nongridded point spatial objects in the data set.

Optionality: Optional

3.3.1 *Sdtsterm** -- SDTS Terms Description -- point and vector object information using the terminology and concepts from Spatial Data Transfer Standard (SDTS)

Optionality: Optional

3.3.1.1 *Sdstype* -- SDTS Point and Vector Object Type -- name of point and vector spatial objects used to locate zero-, one-, and two-dimensional spatial locations in the data set.

Optionality: Optional

Domain: "Point" "Entity point" "Label point" "Area point" "Node, planar graph" "Node, network" "String" "Link" "Complete chain" "Area chain" "Network chain, planar graph" "Network chain, nonplanar graph" "Circular arc, three point center" "Elliptical arc" "Uniform B-spline" "Piecewise Bezier" "Ring with mixed composition" "Ring composed of strings" "Ring composed of chains" "Ring composed of arcs" "G-polygon" "GT-polygon composed of rings" "GT-polygon composed of chains" "Universe polygon composed of rings" "Universe polygon composed of chains" "Void polygon composed of rings" "Void polygon composed of chains"

3.3.1.2 *Ptvcnt* -- Point and Vector Object Count -- the total number of the point or vector object type occurring in the data set.

Optionality: Optional

Domain: Integer > 0

3.3.2 *Vpfterm* -- VPF Terms Description -- point and vector object information using the terminology and concepts from Department of Defense, 1992, Vector Product Format (MILSTD- 600006)

Optionality: Optional

3.3.2.1 *Vpflevel* -- VPF Topology Level -- the completeness of the topology carried by the data set. The levels of completeness are defined in Department of Defense, 1992, Vector Product Format (VPF) (MIL-STD-600006).

Optionality: Optional

Domain: 0 <= Integer <= 3

3.3.2.2 *Vpfinfo** -- VPF Point and Vector Object Information -- information about VPF point and vector objects

Optionality: Optional

3.3.2.2.1 *Vpftype* -- VPF Point and Vector Object Type -- name of point and vector spatial objects used to locate zero-, one-, and two-dimensional spatial locations in the data set.

Optionality: Optional

Domain: "Node" "Edge" "Face" "Text"

3.3.2.2.2 *Vpfent* -- VPF Point and Vector Object Count.

Optionality: Optional

Domain: Integer > 0

³ Note: Use of the *spdoinfo.ptvcinf* and *spdoinfo.rastinfo* elements is mutually exclusive.

3.4 *Rastinfo*³ -- Raster Object Information -- the types and numbers of raster spatial objects in the data set.
Optionality: Optional

3.4.1 *Rasttype* -- Raster Object Type -- raster spatial objects used to locate zero-, two-, or three-dimensional locations in the data set.

Optionality: Optional

Domain: "Point" "Pixel" "Grid Cell" "Voxel"

3.4.2 *Rowcount* -- Row Count -- the maximum number of raster objects along the ordinate (y) axis. For use with rectangular raster objects.

Optionality: Optional

Domain: Integer > 0

3.4.3 *Colcount* -- Column Count -- the maximum number of raster objects along the abscissa (x) axis. For use with rectangular raster objects.

Optionality: Optional

Domain: Integer > 0

3.4.4 *Vrtcount* -- Vertical Count -- the maximum number of raster objects along the vertical (z) axis. For use with rectangular volumetric raster objects (voxels).

Optionality: Optional

Domain: Integer > 0

4 *Spref* -- Spatial Reference Information -- the description of the reference frame and the means to encode coordinates in the data set.

Optionality: Mandatory for FEMA

FEMA Business Rules: This section is required for Discovery submissions

4.1 *Horizsys* -- Horizontal Coordinate System Definition -- the reference frame or system from which linear or angular quantities are measured and assigned to the position that a point occupies.

Optionality: Mandatory

FEMA Business Rules: Must specify either Geograph (4.1.1) OR Planar (4.1.2) OR Local (4.1.3), exclusive.

4.1.1 *Geograph*⁴ -- Geographic -- the quantities of latitude and longitude which define the position of a point on the Earth's surface with respect to a reference spheroid.

Optionality: Mandatory if applicable

4.1.1.1 *Latres* -- Latitude Resolution -- the minimum difference between two adjacent latitude values expressed in Geographic Coordinate Units of measure.

Optionality: Mandatory if applicable

Domain: real > 0.0

4.1.1.2 *Longres* -- Longitude Resolution -- the minimum difference between two adjacent longitude values expressed in Geographic Coordinate Units of measure.

Optionality: Mandatory if applicable

Domain: real > 0.0

4.1.1.3 *Geogunit* -- Geographic Coordinate Units -- units of measure used for the latitude and longitude values.

Optionality: Mandatory if applicable

⁴Note: Use of the *horizsys.geograph*, *horizsys.planar* and *horizsys.local* elements is mutually exclusive (i.e., only one of these can be used).

Domain: "Decimal degrees" "Decimal minutes" "Decimal seconds" "Degrees and decimal minutes" "Degrees, minutes, and decimal seconds" "Radians" "Grads"

4.1.2 *Planar** -- Planar⁴-- the quantities of distances, or distances and angles, which define the position of a point on a reference plane to which the surface of the Earth has been projected.

Optionality: Mandatory if applicable

4.1.2.1 *Mapproj*⁵ -- Map Projection -- the systematic representation of all or part of the surface of the Earth on a plane or developable surface.

Optionality: Mandatory if applicable

4.1.2.1.1 *Mapprojn* -- Map Projection Name -- name of the map projection.

Optionality: Mandatory if applicable

Domain: "Albers Conical Equal Area" "Azimuthal Equidistant" "Equidistant Conic" "Equirectangular" "General Vertical Nearsided Projection" "Gnomonic" "Lambert Azimuthal Equal Area" "Lambert Conformal Conic" "Mercator" "Modified Stereographic for Alaska" "Miller Cylindrical" "Oblique Mercator" "Orthographic" "Polar Stereographic" "Polyconic" "Robinson" "Sinusoidal" "Space Oblique Mercator" "Stereographic" "Transverse Mercator" "van der Grinten" free text

4.1.2.1.2 [*map projection parameters for selected projection, e.g., projection center, meridian, false easting/northing, etc.]*

Optionality: Mandatory if applicable

4.1.2.2 *Gridsys* -- Grid Coordinate System -- a plane-rectangular coordinate system usually based on, and mathematically adjusted to, a map projection so that geographic positions can be readily transformed to and from plane coordinates.

Optionality: Mandatory if applicable

4.1.2.2.1 *Gridsysn* -- Grid Coordinate System Name -- name of the grid coordinate system.

Optionality: Mandatory if applicable

Domain: "Universal Transverse Mercator" "Universal Polar Stereographic" "State Plane Coordinate System 1927" "State Plane Coordinate System 1983" "ARC Coordinate System" "other grid system"

4.1.2.2.2 [*grid system parameters for selected grid system. e.g., Universal Transverse Mercator (UTM) or state zone]*

Optionality: Mandatory if applicable

4.1.2.3 *Localpd* -- Local Planar -- any right-handed planar coordinate system of which the z-axis coincides with a plumb line through the origin that locally is aligned with the surface of the Earth.

Optionality: Mandatory if applicable

4.1.2.3.1 *Localpd* -- Local planar description (Domain: free text)

Optionality: Mandatory if applicable

4.1.2.3.2 *Localpgi* -- Georeference Information (Domain: free text)

⁵ Note: Use of the *planar.mapproj*, *planar.gridsys* and *planar.localp* elements is mutually exclusive (i.e., only one of these can be used).

Optionality: Mandatory if applicable

4.1.2.4 *Planci* -- Planar Coordinate Information -- information about the coordinate system developed on the planar surface.

Optionality: Mandatory if applicable

4.1.2.4.1 *Plance* – planar coordinate encoding method (Domain: “Coordinate pair” “Distance and bearing” “Row and column”)

Optionality: Mandatory if applicable

4.1.2.4.2 *Coordrep*⁶ – coordinate representation (specify either *coordrep* OR *distbrep* NOT BOTH)

Optionality: Mandatory if applicable

4.1.2.4.2.1 *Absres* – Abscissa resolution (Domain: real)

Optionality: Mandatory if applicable

4.1.2.4.2.2 *Ordres* – Ordinate resolution (Domain: real)

Optionality: Mandatory if applicable

4.1.2.4.3 *Distbrep*⁶ – distance and bearing representation

Optionality: Optional for FEMA

4.1.2.4.3.1 *Distres* – Distance resolution (Domain: real)

Optionality: Optional for FEMA

4.1.2.4.3.2 *Bearres* – Bearing resolution (Domain: real)

Optionality: Optional for FEMA

4.1.2.4.3.3 *Bearunit* – Bearing units (Domain: “Decimal degrees” “Decimal minutes” “Decimal seconds” “Degrees and decimal minutes” “Degrees, minutes, and decimal seconds” “Radians” “Grads”

Optionality: Optional for FEMA

4.1.2.4.3.4 *Bearrefd* – Bearing reference direction (Domain: “North” “South”)

Optionality: Optional for FEMA

4.1.2.4.3.5 *Bearrefm* – Bearing reference meridian (Domain: “Assumed” “Grid” “Magnetic” “Astronomic” “Geodetic”)

Optionality: Optional for FEMA

4.1.2.4.4 *Plandu* – Planar Distance Units

Optionality: Mandatory if applicable

4.1.3 *Local*⁴ -- Local -- a description of any coordinate system that is not aligned with the surface of the Earth.

Optionality: Mandatory if applicable

4.1.3.1 *Localdes* -- Local Description -- a description of the coordinate system and its orientation to the surface of the Earth.

Optionality: Mandatory if applicable

Domain: free text

4.1.3.2 *Localgeo* -- Local Georeference Information -- a description of the information provided to register the local system to the Earth (e.g., control points, satellite ephemeral data, inertial navigation data).

⁶ Note: Use of the *planci.coordrep* and *planci.distbrep* elements is mutually exclusive. Since *planci.coordrep* is mandatory, use of *planci.distbrep* element is therefore invalid.

Optionality: Mandatory if applicable
Domain: free text

4.1.4 Geodetic -- Geodetic Model -- parameters for the shape of the earth.

Optionality: Mandatory for FEMA

4.1.4.1 Horizdn -- Horizontal Datum Name -- the identification given to the reference system used for defining the coordinates of points.

Optionality: Mandatory for FEMA

Domain: "North American Datum of 1927" "North American Datum of 1983" free text

4.1.4.2 *Ellips* -- Ellipsoid Name -- identification given to established representations of the Earth's shape.

Optionality: Mandatory

Domain: "Clarke 1866" "Geodetic Reference System 80" free text

4.1.4.3 *Semiaxis* -- Semi-major Axis -- radius of the equatorial axis of the ellipsoid.

Optionality: Mandatory

Domain: real > 0.0

4.1.4.4 *Denflat* -- Denominator of Flattening Ratio -- the denominator of the ratio of the difference between the equatorial and polar radii of the ellipsoid when the numerator is set to 1.

Optionality: Mandatory

Domain: Denominator of Flattening > 0.0

4.2 *Vertdef* -- Vertical Coordinate System Definition -- the reference frame or system from which vertical distances (altitudes or depths) are measured.

Optionality: Optional for FEMA

4.2.1 *Altsys* -- Altitude System Definition -- the reference frame or system from which altitudes (elevations) are measured. The term "altitude" is used instead of the common term "elevation" to conform to the terminology in Federal Information Processing Standards 70-1 and 173.

Optionality: Optional for FEMA

4.2.1.1 *Alt datum* -- Altitude Datum Name -- the identification given to the surface taken as the surface of reference from which altitudes are measured.

Optionality: Optional for FEMA

Domain: "National Geodetic Vertical Datum of 1929" "North American Vertical Datum of 1988" free text

4.2.1.2 *Altres** -- Altitude Resolution -- the minimum distance possible between two adjacent altitude values, expressed in Altitude Distance Units of measure.

Optionality: Optional for FEMA

Domain: real > 0.0

4.2.1.3 *Altunits* -- Altitude Distance Units -- units in which altitudes are recorded.

Optionality: Optional for FEMA

Domain: "meters" "feet" free text

4.2.1.4 *Altenc* -- Altitude Encoding Method -- the means used to encode the altitudes.

Optionality: Optional for FEMA

Domain: "Explicit elevation coordinate included with horizontal coordinates"
 "Implicit coordinate" "Attribute values"

4.2.2 *Depthsys* -- Depth System Definition -- the reference frame or system from which depths are measured.
 Optionality: Optional for FEMA

4.2.2.1 *Depthdn* -- Depth Datum Name -- the identification given to surface of reference from which depths are measured.

Optionality: Optional for FEMA
 Domain: see FGDC standard

4.2.2.2 *Depthres** -- Depth Resolution -- the minimum distance possible between two adjacent depth values, expressed in Depth Distance Units of measure.

Optionality: Optional for FEMA
 Domain: real > 0.0

4.2.2.3 *Depthdu* -- Depth Distance Units -- units in which depths are recorded.

Optionality: Optional for FEMA
 Domain: "meters" "feet" free text

4.2.2.4 *Depthem* -- Depth Encoding Method -- the means used to encode depths.

Optionality: Optional for FEMA
 Domain: "Explicit depth coordinate included with horizontal coordinates"
 "Implicit coordinate" "Attribute values"

5 *eainfo* –Entity and Attribute Information – details about information content of the data set, including entity types, their attributes and the domains from which attribute values may be assigned.

Optionality: Mandatory for FEMA

FEMA Business Rules: This section is required for all FEMA-DCS-Discovery submissions. This section describes the various elements of the submission package.

5.1 *Detailed** -- Detailed Description -- description of the entities, attributes, attribute values, and related characteristics encoded in the data set.

Optionality: Mandatory

FEMA Business Rules: Create an entity type for each entity enclosed in the current submission (entity type label and definition included below). Only spatial tables used in a submission should be included as entities.

5.1.1 *Enttyp* -- Entity Type -- the definition and description of a set into which similar entity instances are classified.

Optionality: Mandatory

FEMA Business Rules: Users may specify from the table below the entities that are provided with their submission (Source: FEMA Data Capture Technical Reference). Additional entities can be entered as free text.

EnttypI	EnttypD
<i>DCS_S_Pol_Ar</i>	<i>A spatial dataset that depicts the political boundaries that cover the geographic extent of the Discovery project.</i>
<i>DCS_S_Trnsport_Ln</i>	<i>A spatial dataset that depicts the transportation features that cover the geographic extent of the Discovery project.</i>

Enttypl	Enttypd
DCS_S_HUC	<i>A spatial dataset that depicts the Hydrologic Units that cover the geographic extent of the Discovery project.</i>
DCS_S_Discovery_Map	<i>A spatial dataset that depicts flooding sources that cover the geographic extent of the Discovery project. Sources include FIRM Databases, National Hydrography Dataset (NHD), or best available streamline data.</i>
DCS_S_Prpr_FirmPan	<i>A spatial dataset that depicts the proposed panel scheme for the flood risk project area and the panels to be updated as a result of the Discovery process.</i>

5.1.1.1 *Enttypl* -- Entity Type Label -- the name of the entity type.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: See table above.

5.1.1.2 *Enttypd* -- Entity Type Definition -- the description of the entity type.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: See table above.

5.1.1.3 *Enttypls* -- Entity Type Definition Source -- the authority of the definition.

Optionality: Mandatory

Domain:

FEMA Business Rules: “*FEMA Data Capture Technical Reference* (available at <https://www.fema.gov/guidelines-and-standards-flood-risk-analysis-and-mapping> and on the FEMA Risk MAP Knowledge Sharing Site)”.

Additional definition sources may be included as free text.

5.1.2 *Attr** -- Attribute -- a defined characteristic of an entity.

Optionality: Optional for FEMA

5.1.2.1 *Attrlabl* -- Attribute Label -- the name of the attribute.

Optionality: Optional for FEMA

Domain: free text

5.1.2.2 *Attrdef* -- Attribute Definition -- the description of the attribute.

Optionality: Optional for FEMA

Domain: free text

5.1.2.3 *Attrdefs* -- Attribute Definition Source -- the authority of the definition.

Optionality: Optional for FEMA

Domain: free text

5.1.2.4 *Attrdomv** -- Attribute Domain Values -- the valid values that can be assigned for an attribute.

Optionality: Optional for FEMA

5.1.2.4.1 *Edom* – *enumerated domain (value & definition & source)*

Optionality: Optional for FEMA

5.1.2.4.2 *Rdom* – range domain

Optionality: Optional for FEMA

5.1.2.4.3 *Codesetd* – codeset domain

Optionality: Optional for FEMA

5.1.2.4.4 *Udom* – unrepresentable domain

Optionality: Optional for FEMA

5.1.2.5 *Begdatea** -- Beginning Date of Attribute Values -- earliest or only date for which the attribute values are current. In cases when a range of dates are provided, this is the earliest date for which the information is valid.

Optionality: Optional

Domain: free date

5.1.2.6 *Enddatea** -- Ending Date of Attribute Values -- latest date for which the information is current. Used in cases when a range of dates are provided.

Optionality: Optional

Domain: free date

5.1.2.7 *Attrvai* -- Attribute Value Accuracy Information -- an assessment of the accuracy of the assignment of attribute values.

Optionality: Optional

5.1.2.7.1 *Attrva* – attribute value accuracy

Optionality: Optional

5.1.2.7.2 *Attrvae* – attribute value accuracy explanation

Optionality: Optional

5.1.2.8 *Attrmfrq* -- Attribute Measurement Frequency -- the frequency with which attribute values are added.

Optionality: Optional

Domain: "Unknown" "As needed" "Irregular" "None planned" free text

5.2 Overview* -- Overview Description -- summary of, and citation to detailed description of, the information content of the data set.

Optionality: Mandatory for FEMA

5.2.1 *Eaover* -- Entity and Attribute Overview -- detailed summary of the information contained in a data set.

Optionality: Mandatory

Domain:

FEMA Business Rules: “The Discovery dataset contains both spatial and attribute information collected during the Discovery process. These data and information may be shown on the Discovery Map and demonstrate a holistic picture of flooding issues, flood risk, and flood mitigation capabilities within the study area”.

5.2.2 *Eadetci** -- Entity and Attribute Detail Citation -- reference to the complete description of the entity types, attributes, and attribute values for the data set.

Optionality: Mandatory

Domain:

FEMA Business Rules: “FEMA’s Guidelines and Standards for Flood Risk Analysis and Mapping contains a detailed description of the Discovery data collection requirements and a reference to other relevant information”.

6 *distinfo* – Distribution Information – information about the distributor of and options for obtaining the data set. *

Optionality: Mandatory for FEMA

FEMA Business Rules: This section is required for all Discovery submissions. The distributor of the data can be either FEMA or the publisher of the metadata.

6.1 *Distrib* -- Distributor -- the party from whom the data set may be obtained.

Optionality: Mandatory

FEMA Business Rules: If FEMA is the Distributor (6.1) of the data, then the FEMA information for the elements provided below should be used. If FEMA is not the Distributor of the Discovery data, then contact information for the Distributor must be provided in Section 6.1.

6.1.1 *Cntinfo* -- Contact Information -- Identity of, and means to communicate with, person(s) and organization(s) associated with the data set.

Optionality: Mandatory

6.1.1.1 *Cntperp*² -- Contact Person Primary -- the name of the individual to which the contact type.

Optionality: Optional

FEMA Business Rules: Contact Person Primary (Cntperp 6.1.1.1) is not used; Contact Organization Primary (Cntorgp 6.1.1.2) serves as primary contact.

6.1.1.2 *Cntorgp*² -- Contact Organization Primary -- the organization, and the member of the organization associated with the data set. Used in cases where the association of the organization to the data set is more significant than the association of the person to the data set.

Optionality: Mandatory

Domain: Compound

6.1.1.2.1 *Cntorg* -- Contact Organization -- the name of the organization to which the contact type applies.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: *FEMA, Mapping Information Platform*

6.1.1.2.2 *Cntper* -- Contact Person -- the name of the individual to which the contact type applies.

Optionality: Optional

Domain: free text

6.1.1.3 *Cntpos* -- Contact Position -- the title of individual.

Optionality: Optional

Domain: free text

6.1.1.4 *Cntaddr** -- Contact Address -- the address for the organization or individual.

Optionality: Mandatory

6.1.1.4.1 *Addrtype* -- Address Type -- the information provided by the address.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: *mailing*

6.1.1.4.2 Address* -- Address -- an address line for the address.

Optionality: Mandatory for FEMA

Domain: free text

FEMA Business Rules: *500 C Street, S.W.*

6.1.1.4.3 City -- City -- the city of the address.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: *Washington*

6.1.1.4.4 State -- State or Province -- the state or province of the address.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: *District of Columbia*

6.1.1.4.5 Postal -- Postal Code -- the ZIP or other postal code of the address.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: *20472*

6.1.1.4.6 Country -- Country -- the country of the address.

Optionality: Mandatory for FEMA

Domain: free text

FEMA Business Rules: *USA*

6.1.1.5 Cntvoice* -- Contact Voice Telephone -- the telephone number by which individuals can speak to the organization or individual.

Optionality: Mandatory

Domain: free text

FEMA Business Rules: *1-877-336-2627*

6.1.1.6 Cnttdd* -- Contact TDD/TTY Telephone -- the telephone number by which hearing-impaired individuals can contact the organization or individual.

Optionality: Optional

Domain: free text

6.1.1.7 Cntfax* -- Contact Facsimile Telephone -- the telephone number of a facsimile machine of the organization or individual.

Optionality: Optional

Domain: free text

6.1.1.8 Cntemail* -- Contact Electronic Mail Address -- the address of the electronic mailbox of the organization or individual.

Optionality: Mandatory for FEMA

Domain: free text

FEMA Business Rules: FEMA-RiskMAP-ITHelp@fema.dhs.gov

6.1.1.9 Hours -- Hours of Service -- time period when individuals can speak to the organization or individual.

Optionality: Optional

Domain: free text

6.1.1.10 *Cntinst* -- Contact Instructions -- supplemental instructions on how or when to contact the individual or organization.

Optionality: Optional
Domain: free text

6.2 *Resdesc* -- Resource Description -- the identifier by which the distributor knows the data set.

Optionality: Optional
Domain: free text

6.3 *Distliab* -- Distribution Liability -- statement of the liability assumed by the distributor.

Optionality: Mandatory
Domain:

FEMA Business Rules: “No warranty expressed or implied is made by FEMA regarding the utility of the data on any other system nor shall the act of distribution constitute any such warranty”.

6.4 *Stdorder** -- Standard Order Process -- the common ways in which the data set may be obtained or received, and related instructions and fee information.

Optionality: Mandatory for FEMA

FEMA Business Rules: Note: the child elements, <nondig> (6.4.1) and <digform> (6.4.2) are mutually exclusive (i.e., only one can occur within a given <stdorder> element).

6.4.1 *Nondig* -- Non-digital Form -- the description of options for obtaining the data set on non-computer-compatible media.

Optionality: Optional
Domain: free text

6.4.2 *Digform** -- Digital Form -- the description of options for obtaining the data set on computer-compatible media

Optionality: Mandatory

6.4.2.1 *Digtinfo* -- Digital Transfer Information - description of the form of the data to be distributed.

Optionality: Mandatory

6.4.2.1.1 *Formname* -- Format Name -- the name of the data transfer format.

Optionality: Mandatory
Domain: domain values from the table below; free text

FEMA Business Rules:

Value	Definition
"Esri Shapefile"	Esri Shapefile (SHP)
"fGDB"	Esri File Geodatabase
"GML"	Geography Markup Language
"PGDB"	Esri Personal Geodatabase

6.4.2.1.2 *Formvern* – format version (specify either a version or a version date NOT BOTH)
Optionality: Optional

6.4.2.1.3 *Formverd* – format version date
Optionality: Optional

6.4.2.1.4 *Formspec* - Format specification
Optionality: Optional

6.4.2.1.5 *Formcont* – format information content
Optionality: Optional

6.4.2.1.6 *Filedesc* – file decompression technique
Optionality: Optional for FEMA

6.4.2.1.7 *Transize* – transfer size
Optionality: Optional

6.4.2.2 *Digtopt* -- Digital Transfer Option -- the means and media by which a data set is obtained from the distributor. (specify either *Onlinopt* or *Offoptn* NOT BOTH)
Optionality: Mandatory

6.4.2.2.1 *Onlinopt** - ⁷Online Option -- information required to directly obtain the data set electronically. Only <onlinopt> is valid for Floodplain Mapping and Redelineation dataset submissions.
Optionality: Mandatory

6.4.2.2.1.1 *Computer** -- Computer Contact Information -- instructions for establishing communications with the distribution computer.
Optionality: Mandatory

6.4.2.2.1.1.1 *Networka* - network address
Optionality: Mandatory

6.4.2.2.1.1.1.1 *Networkr** - Resource name
Optionality: Mandatory
Domain:

FEMA Business Rules: URL where dataset may be obtained. (e.g., <https://hazards.fema.gov>)

6.4.2.2.1.2 *Accinstr* -- Access Instructions -- instructions on the steps required to access the data set.
Optionality: Optional

⁷ digform/digtinfo/digtopt/onlinopt and digform/digtinfo/digtopt/offoptn are mutually exclusive (e.g., one or the other but not both must be specified)

6.4.2.2.1.3 *Oncomp* – Online Computer and Operating system
Optionality: Optional

6.4.2.2.2 *Offoptn* -- Offline Option -- information about media-specific options for receiving the *data set*.
Optionality: Optional

6.4.2.2.2.1 *Offmedia* – *Offline Media*
Optionality: Optional
Domain: "CD-ROM" "3-1/2-inch floppy disk" "5-1/4-inch floppy disk" "9-track tape" "4 mm cartridge tape" "8 mm cartridge tape" "1/4-inch cartridge tape" free text

6.4.2.2.2.2 *Reccap* – *recording capacity*
Optionality: Optional

6.4.2.2.2.3 *Recfmt* – *recording format*
Optionality: Optional

6.4.2.2.2.4 *Compat* – *compatibility information*
Optionality: Optional

6.4.3 *Fees* -- Fees -- the fees and terms for retrieving the data set.

Optionality: Mandatory

Domain: **FEMA Business Rules: "Contact Distributor"** free text

6.4.4 Ordering -- Ordering Instructions -- general instructions and advice about, and special terms and services provided for, the data set by the distributor.
Optionality: Optional
Domain: free text

6.4.5 Turnarnd -- Turnaround -- typical turnaround time for the filling of an order.
Optionality: Optional
Domain: free text

6.5 Custom -- Custom Order Process -- description of custom distribution services available, and the terms and conditions for obtaining these services.
Optionality: Optional for FEMA
Domain: free text

6.6 Techreq -- Technical Prerequisites -- description of any technical capabilities that the consumer must have to use the data set in the form(s) provided by the distributor.
Optionality: Optional
Domain: free text

6.7 Availabl -- Available Time Period -- the time period when the data set will be available from the distributor.
Optionality: Optional
Domain: timeperiod (single, multiple, range of dates)

7 *metainfo* – Metadata Reference Information – information on the currentness of the metadata information and the responsible party.

Optionality: Mandatory

FEMA Business Rules: This section is required for all FGDC-compliant metadata

7.1 *Metd* -- Metadata Date -- the date that the metadata were created or last updated
Optionality: Mandatory
Domain: free date

7.2 *Metrd* -- Metadata Review Date -- the date of the latest review of the metadata entry.
Optionality: Optional
Domain: free date; Metadata Review Date later than Metadata Date

7.3 *Metfrd* -- Metadata Future Review Date -- the date by which the metadata entry should be reviewed.
Optionality: Optional
Domain: free date; Metadata Future Review Date later than Metadata Review Date

7.4 *Metc* -- Metadata Contact -- the party responsible for the metadata information.
Optionality: Mandatory

7.4.1 *Cntinfo* -- Contact Information -- Identity of, and means to communicate with, person(s) and organization(s) associated with the data set.
Optionality: Mandatory

7.4.1.1 *Cntperp* -- Contact Person Primary -- the name of the individual to which the contact type.
Optionality: Mandatory
Domain: Compound

7.4.1.1.1 *Cntper* -- Contact Person -- the name of the individual to which the contact type applies.
Optionality: Mandatory
Domain: free text

7.4.1.1.2 *Cntorg* -- Contact Organization -- the name of the organization to which the contact type applies.
Optionality: Mandatory
Domain: free text

7.4.1.2 *Cntorgp* -- Contact Organization Primary -- the organization, and the member of the organization associated with the data set. Used in cases where the association of the organization to the data set is more significant than the association of the person to the data set.
Optionality: Optional

FEMA Business Rules: Contact Organization Primary (Cntorgp 7.4.1.2) is not used; Contact Person Primary (Cntperp 7.4.1.1) serves as primary contact.

7.4.1.3 *Cntpos* -- Contact Position -- the title of individual.
Optionality: Optional
Domain: free text

7.4.1.4 *Cntaddr** -- Contact Address -- the address for the organization or individual.
Optionality: Mandatory

7.4.1.4.1 *Addrtype* -- Address Type -- the information provided by the address.
Optionality: Mandatory

Domain: free text

7.4.1.4.2 Address* -- Address -- an address line for the address.

Optionality: Mandatory for FEMA

Domain: free text

7.4.1.4.3 City -- City -- the city of the address.

Optionality: Mandatory

Domain: free text

7.4.1.4.4 State -- State or Province -- the state or province of the address.

Optionality: Mandatory

Domain: free text

7.4.1.4.5 Postal -- Postal Code -- the ZIP or other postal code of the address.

Optionality: Mandatory

Domain: free text

7.4.1.4.6 Country -- Country -- the country of the address.

Optionality: Mandatory for FEMA

Domain: free text

7.4.1.5 Cntvoice* -- Contact Voice Telephone -- the telephone number by which individuals can speak to the organization or individual.

Optionality: Mandatory

Domain: free text

7.4.1.6 Cnttdd* -- Contact TDD/TTY Telephone -- the telephone number by which hearing-impaired individuals can contact the organization or individual.

Optionality: Optional

Domain: free text

7.4.1.7 Cntfax* -- Contact Facsimile Telephone -- the telephone number of a facsimile machine of the organization or individual.

Optionality: Optional

Domain: free text

7.4.1.8 Cntemail* -- Contact Electronic Mail Address -- the address of the electronic mailbox of the organization or individual.

Optionality: Mandatory for FEMA

Domain: free text

7.4.1.9 Hours -- Hours of Service -- time period when individuals can speak to the organization or individual.

Optionality: Optional

Domain: free text

7.4.1.10 Cntinst -- Contact Instructions -- supplemental instructions on how or when to contact the individual or organization.

Optionality: Optional

Domain: free text

7.5 Metstdn -- Metadata Standard Name -- the name of the metadata standard used to document the data set.

Optionality: Mandatory

Domain: "FGDC Content Standard for Digital Geospatial Metadata" free text

7.6 *Metstdv* -- Metadata Standard Version -- identification of the version of the metadata standard used to document the data set.

Optionality: Mandatory

Domain: "FGDC-STD-001-1998" free text

7.7 *Mettc* -- Metadata Time Convention -- form used to convey time of day information in the metadata entry. Used if time of day information is included in the metadata for a data set.

Optionality: Optional for FEMA

Domain: "local time" "local time with time differential factor" "universal time"

7.8 *Metac* -- Metadata Access Constraints -- restrictions and legal prerequisites for accessing the metadata. These include any access constraints applied to assure the protection of privacy or intellectual property, and any special restrictions or limitations on obtaining the metadata.

Optionality: Optional

Domain: free text

7.9 *Metuc* -- Metadata Use Constraints -- restrictions and legal prerequisites for using the metadata after access is granted. These include any metadata use constraints applied to assure the protection of privacy or intellectual property, and any special restrictions or limitations on using the metadata.

Optionality: Optional

Domain: free text

7.10 *Metsi* -- Metadata Security Information -- handling restrictions imposed on the metadata because of national security, privacy, or other concerns.

Optionality: Optional

7.10.1 *Metscs* -- Metadata Security Classification System -- name of the classification system for the metadata.

Optionality: Optional

Domain: free text

7.10.2 *Metsc* -- Metadata Security Classification -- name of the handling restrictions on the metadata.

Optionality: Optional

Domain: "Top secret" "Secret" "Confidential" "Restricted" "Unclassified"

"Sensitive" free text

7.10.3 *Metshd* -- Metadata Security Handling Description -- additional information about the restrictions on handling the metadata.

Optionality: Optional

Domain: free text

7.11 *Metextns -- Metadata Extensions a reference to extended elements to the standard which may be defined by a metadata producer or a user community. Extended elements are elements outside the Standard, but needed by the metadata producer. If extended elements are created, they must follow the guidelines in Appendix D, Guidelines for Creating Extended Elements to the Content Standard for Digital Geospatial Metadata.**

Optionality: Mandatory for FEMA

7.11.1 Onlink* -- Online Linkage -- the name of an online computer resource that contains the metadata extension information for the data set. Entries should follow the Uniform Resource Locator convention of the Internet.

Optionality: Mandatory for FEMA

Domain:

FEMA Business Rules: Two onlinks are required:

- Link to URL on MIP for information on this profile:

<https://hazards.fema.gov>

- Link to the data's Ethernet POWERLINK Standardization Group (EPSG) code (in the form of a URL). More info about EPSG code can be found at:

<https://www.epsg.org/>

7.11.2 Metprof -- Profile Name -- the name given to a document that describes the application of the Standard to a specific user community.

Optionality: Mandatory for FEMA

Domain:

FEMA Business Rules: "*FEMA NFIP Metadata Content and Format Standard*"

Table of Revisions

The following summary of changes details revisions to the Discovery Metadata Profile subsequent to its most recent version in February 2019.

Version Number	Date	Description
1.0.5	November 2021	Updated Version ID. Updated ArcGIS version number example. Updated MIPHelp email address. Updated URLs.
