CRS COMMUNITY CERTIFICATIONS FOR ENVIRONMENTAL AND HISTORIC PRESERVATION

OMB Control Number: 1660-0022 Expiration: 10/31/2023

Public reporting burden for this form is estimated to average 1.6 hours for the environmental and historic preservation certifications, per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is voluntary. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street, S.W., Washington, D.C. 20472, Paperwork Reduction Project (1660-0022). NOTE: Do not send your completed form to this address.

Privacy Notice

This Privacy Notice serves to inform you of why DHS is requesting the information on this form.

AUTHORITY: FEMA is authorized to collect the information requested on this form pursuant to The National Flood Insurance Reform Act (NFIRA) of 1994 (P.L. 103-325, Sec. 541).

PURPOSE: FEMA is requesting this information to assist in the administration of the Community Rating System (CRS). FEMA will use this information to determine eligibility of a community to participate in the CRS, to facilitate communication between FEMA and communities for floodplain management, and to assist in reducing the flood insurance rates for policyholders within a CRS eligible community. Additionally, FEMA uses the information to maintain a listing of communities participating in the National Flood Insurance Program.

ROUTINE USES: The information requested on this form may be shared externally with floodplain management partners and contractors to assist the Department of Homeland Security in administering the CRS or other floodplain management activities.

CONSEQUENCES OF FAILURE TO PROVIDE INFORMATION: Providing this information to FEMA is voluntary. However, failure to provide this information may result in FEMA's determination that a community is not eligible to participate in the CRS and in turn reducing potential NFIP flood insurance premium savings. Individuals and communities who do not provide this information may contact Bill Lesser, FIMA CRS Coordinator at FEMA at FEMA-CRS@fema.dhs.gov for further assistance.

This packet contains forms for a community's certification of its compliance with environmental and historic preservation requirements. These certifications are part of the documentation needed to obtain credit for certain activities under the National Flood Insurance Program's Community Rating System (CRS). The certification forms are designed to be used in conjunction with the *CRS Coordinator's Manual*.

Community certification forms for non-environmental aspects of the CRS are available in a separate packet.

Instructions for completing the certification forms can be found on each page.

Federal Funding	No Federal Funding	Certification Statement for Acquisition and Relocation Projects	
		All properties marked "FEMA Funded" on CC-520EHP-1 were included in the above description of the FEMA-funded project.	
		State and local requirements: In addition to federal laws, implementing regulations, and executive orders, this project took into consideration the requirements of all state and local environmental and historic preservation laws, ordinances, and permits that apply to this type of project. Communication with the appropriate state agency and/or local government entity took place before project implementation. Any recommendations made by the agency or office were carried out.	
		National Historic Preservation Act: If any acquired or relocated structure affected by this project was 50 years of age or older at the time of the acquisition, communication with the State Historic Preservation Officer or Tribal Historic Preservation Officer (if on tribal land or reservation) took place to determine if the structure was either on or eligible for the National Register of Historic Places (historic property) and to resolve any adverse effect(s) to the historic property.	
		Protection of floodplains (E.O. 11988—Floodplain Management): Consideration was given to the project's long- and short-term adverse impacts that are associated with the occupance and modification of floodplains, and to avoiding direct and indirect support of floodplain development wherever there was a practicable alternative.	
		E.O. 11990—Protection of Wetlands: Consideration was given to the possible loss or degradation of wetlands associated with the construction of this project, as well as to the preservation and enhancement of the natural and beneficial values of wetlands.	
		E.O. 12898—Environmental Justice in Minority and Low-income Populations: Consideration was given to the possible negative impacts associated with the implementation of this project on minority and low-income populations, and to avoiding those impacts where practicable.

OMB Control Number: 1660-0022 CRS COMMUNITY CERTIFICATIONS FOR ENVIRONMENTAL AND HISTORIC PRESERVATION Expiration: 10/31/2023 Community _____ State ____ CID ____ (6-digit NFIP Community Identification Number) **CC-530EHP Flood Protection Compliance with Environmental and Historic Preservation Requirements** (see Section 531.b(4) in the CRS Coordinator's Manual) NOTE: The self-certification of compliance with environmental and historic preservation requirements incorporated into this certification applies ONLY to projects implemented AFTER the effective date of the 2013 Coordinator's Manual (April 1, 2013). Part A. Retrofitting Projects (TUE, TUD, TUW, TUS) In the table below, list each retrofitted property for which credit is desired under Activity 530, indicate the type of project, check the box that identifies the source of project funding, and insert the project date. Add additional copies of this page (CC-530EHP-1) as needed for the number of properties. Then, complete pages CC-530EHP-2 and CC-530EHP-3 as appropriate, based on the project's funding source. If any FEMA funding was included in the project, then the source of funding is "FEMA." FEMA funding includes FEMA Hazard Mitigation Assistance grants (under the Hazard Mitigation Grant Program or the Pre-disaster Mitigation, Flood Mitigation Assistance, Repetitive Flood Claims, or Severe Repetitive Loss programs) or FEMA Public Assistance funds. If no FEMA funding was used but any other federal funds were included (e.g., from the Corps of Engineers), then the funding source is "Other Federal Agency." If the project was funded only by state, local, and/or private funds, the source is "No Federal Funds." An NFIP claim payment, including funds provided under Increased Cost of Compliance coverage, is considered "No Federal Funds." Type of Project Source of Project Funding TUE=Elevation **Date Project Property Address for Retrofitted** TUD=Dry Floodproofing No Federal Other Federal Permitted or **FEMA** TUW=Wet Floodproofing Building **Funds** Agency Initiated TUS=Sewer backup
