CTP COOPERATING
TECHNICAL
PARTNERS

The CTP Program enhances partnerships between the Federal Emergency Management Agency (FEMA) and eligible entities. FEMA teams up with these partners to deliver high-quality hazard identification, risk assessments and provide outreach support. This helps empower communities to bring more awareness and take action to reduce their risk through the latest data and resources.

CTP ALIGNMENT WITH FEMA PRIORITIES

FEMA STRATEGIC PLAN GOALS

Instill Equity as a Foundation of Emergency Management

Lead Whole of Community in Climate Resilience

Promote and Sustain a Ready FEMA and Prepared Nation

RISK MANAGEMENT STRATEGIC PLAN GOALS

Invest in strategic partnership networks that expand our reach to increase the Nation's resiliency.

Translate knowledge into actionable resilience policies and practices.

Consult with communities to act on their present and emerging resilience opportunities.

Better communication and guidance for improved program delivery to communities.

Equip communities with accessible solutions to meet their multi-hazard risk information needs.

Be the trusted source of comprehensive flood hazard and risk information.

CTP OPERATION PLAN GOALS

Increased CTP Program knowledge to allow for more comprehensive data development and delivery.

CTP experience and knowledge has been integrated into FEMA program planning and execution.

Program innovations, efficiencies, and best practices to better serve communities.

Ensure quality data through enhanced program measures and metrics.

MAY 2022

FEMA

Cooperating Technical Partners Program Mission

The mission of the Cooperating Technical Partners Program is to strengthen the effectiveness of the National Flood Insurance Program and support the Federal Emergency Management Agency's mitigation objectives by leveraging partnerships to deliver high-quality hazard identification and risk assessment products, provide outreach support, and empower communities to take action to reduce risk based on informed multihazard based data and resources.

FEMA Strategic Plan

The Strategic Plan positions the agency to respond to a changing landscape in which the emergency management community must embrace its expanding role. To meet this challenge, the Strategic Plan outlines three bold and ambitious goals. Emergency management is centered around people — those who work with FEMA and those who are served by the agency.

GOAL 1: Instill Equity as a Foundation of Emergency Management.

GOAL 2: Lead Whole of Community in Climate Resilience.

GOAL 3: Promote and Sustain a Ready FEMA and Prepared Nation.
