

IPAWS Alerting Tools Portal

Mark Lucero, Branch Chief,
Engineering

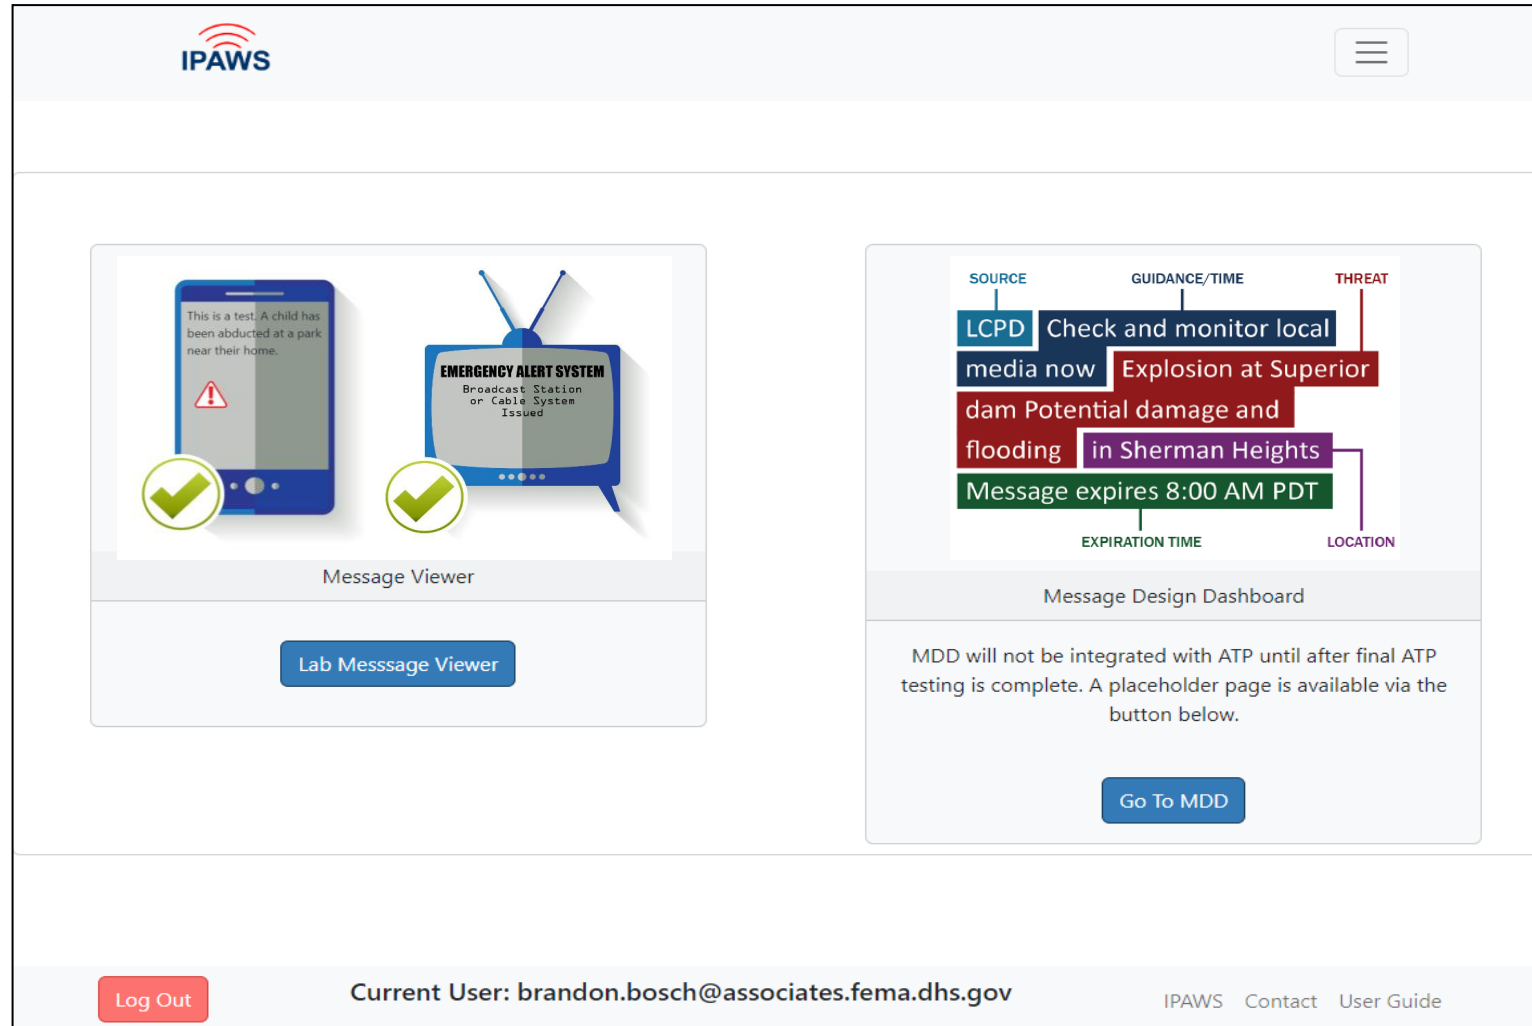

Purpose of the IPAWS Alerting Tools Portal*

- One stop shopping for IPAWS testing and training resources
- Need-driven capabilities for Alerting Authorities
- Quick turn-around products

**not to be confused with the IPAWS User Portal*

The screenshot shows the IPAWS ATP interface. At the top left is the IPAWS logo, and at the top right is a hamburger menu icon. The main content area is divided into two columns. The left column features a 'Message Viewer' section with two icons: a smartphone displaying a test message and a television displaying an 'EMERGENCY ALERT SYSTEM' message. Below these is a 'Lab Message Viewer' button. The right column features a 'Message Design Dashboard' section with a diagram showing message components: SOURCE (LCPD), GUIDANCE/TIME (Check and monitor local media now), THREAT (Explosion at Superior dam Potential damage and flooding in Sherman Heights), and EXPIRATION TIME (Message expires 8:00 AM PDT). Below the diagram is a 'Go To MDD' button and a note: 'MDD will not be integrated with ATP until after final ATP testing is complete. A placeholder page is available via the button below.' The footer contains a 'Log Out' button, the current user 'brandon.bosch@associates.fema.dhs.gov', and links for 'IPAWS', 'Contact', and 'User Guide'.

ATP Mockup. Actual product still in development

IPAWS Contact User Guide

The screenshot shows the IPAWS Alerting Tools Portal Login page. At the top left is the IPAWS logo, and at the top right is a hamburger menu icon. Below the header is a navigation bar with 'Login' (highlighted in blue) and 'Signup' (in grey). The main content area has the title 'Alerting Tools Portal Login'. It features two input fields: 'Email address' and 'Password'. Below the email field is a message: 'Your E-Mail must be properly formatted. If the 'Change Account E-Mail' button is yellow, your E-Mail is not properly formatted.' Below the password field is a red button labeled 'Forgot Password?' and a yellow button labeled 'Login'. At the bottom right of the page are links for 'IPAWS', 'Contact', and 'User Guide'.

ATP will be user-specific

ATP will support user profiles for a tailored experience
