

USING NATURE-BASED SOLUTIONS ACROSS LANDSCAPES

FEMA

NBS projects can be larger in size in rural or less developed areas. These solutions reduce risk for communities by working at the source in coastal, mountain and rural lands nearby.

FIRE MANAGEMENT

SETBACK LEVEE

LAND CONSERVATION

TREE CANOPY

RAIN GARDENS

PERMEABLE PAVEMENT

GREEN ROOFS

RAINWATER HARVESTING

GREEN STREETS

WATERFRONT PARKS

In more developed areas, small NBS and hybrid projects can add up over time. Many different types of NBS can work across a community to reduce risk at a larger scale.

COASTAL WETLANDS

CORAL REEF

LIVING SHORELINES
