

Commonwealth of Pennsylvania

To provide you details on the impacts of Risk Rating 2.0, we've converted the percentages into the actual policy counts. We are using the percentages as shown on the color bar graph in the state profile for **Pennsylvania** which can be viewed at <http://www.fema.gov/nfiptransformation>.

Summary of breakouts:

Here's what the picture looks like in **Pennsylvania**:

1. Beginning with the more **extreme ranges** for the **green** and **grey** bars of the breakout:
 - **For all structure types of Pennsylvania National Flood Insurance Program policies:** (Commercial, Condos, Multi-Family, Single Family)
 - The attached breakout shows **4,689 policyholders** will see **decreases** of more than \$100 per month (\$1200 in the first year) (**Extreme end of the Green Bar**).
 - **147 policyholders** seeing **increases** over \$100 per month (\$1200 in the first year) (**Extreme end of the Grey Bar**).
 - **For all single-family home Pennsylvania policies:**
 - The attached breakout shows **2,676 single-family home policyholders** will see **decreases** of more than \$100 per month (\$1200 in the first year) (**Extreme end of the Green Bar**).
 - **0 single-family home policyholders** seeing **increases** over \$100 per month (\$1200 in the first year) (**Extreme end of the Grey Bar**).
2. Next, **the full range of policy counts** for the **green** and **grey** bars of the breakout:
 - **For all structure types of Pennsylvania National Flood Insurance Program policies:** (Commercial, Condos, Multi-Family, Single Family)
 - The sheet showed **15,572 policyholders** seeing decreases (**Green Bar**). (note slight difference with the detailed data is due to rounding differences)
 - **3,526 policyholders** seeing **increases** over \$20 per month (**Grey Bar**).

FEMA

- **For all single-family home Pennsylvania policies:**
 - The attached breakout shows **10,263 single-family home policyholders** seeing **decreases (Green Bar)**.
 - **914 single-family home policyholders** seeing **increases** over \$20 per month **(Grey Bar)**.
- 3. Finally, the **remaining policy counts** grouped in the **light blue** and **dark blue** bars.
 - For all structure types of **Pennsylvania National Flood Insurance Program policies:** (Commercial, Condos, Multi-Family, Single Family)
 - The sheet showed **28,619 policyholders** seeing increases of \$0 to \$10 per month **(light blue bar)**.
 - **3,838 policyholders** seeing **increases** of \$10 to \$20 per month **(dark blue bar)**.
 - **For all single-family home Pennsylvania National Flood Insurance Program policies:**
 - The attached breakout shows **22,784 single-family home policyholders** seeing increase of \$0 to \$10 per month **(light blue bar)**.
 - **2,275 single-family home policyholders** seeing **increases** of \$10 to \$20 per month **(dark blue bar)**.

Additional Notes

- Under the current rating methodology policyholders have been seeing an average annual increase of just over 11% or \$8 per month. Thus, Risk Rating 2.0 would increase the annual premium for these two groups roughly between \$2 and \$12 per month.
- Premiums are ultimately driven by variables that an individual policyholder controls. Upon receipt of a premium, a policyholder can change the parameters (such as the level of coverage limits, deductibles, and other additional data or take a mitigation action) that impact their properties unique rate. This is the same process that exists today under the current methodology.
