Shelter-in-Place for Hurricane (High Wind, Flooding and Storm Surge)

if you are in a manufactured or Mobile Home: Evacuate to the nearest shelter site.

- **Get out!** Go to the nearest shelter. Manufactured structures such as mobile homes are unsafe during a hurricane.
- **Do not** walk, swim, or drive through flood waters.
- Take your go-bag and critical documents with you.

Shelter-in-Place for Hurricane
(High Wind, Flooding and Storm Surge)

If told not to evacuate or it is too late to evacuate and you are in a 1- to 2-Story or Multistory Building:

- **For flood or storm surge danger:**
  - Go to the highest level of the building or onto the roof if necessary.
  - Do not climb into a closed attic—you may become trapped by rising flood water.
  - Call 911.

- **For high wind:** Go to a small, interior, windowless room in a sturdy building on the lowest level.

If floodwaters rise to a dangerous level, go to the highest level of the building. Do not climb into a closed attic—you may become trapped by rising flood water.

**Go inside** as quickly as possible. Bring any pets indoors.

**Use** a generator or other gasoline-powered machinery *ONLY outdoors* and 20 feet from the house and away from windows.

**Save** phone calls for emergencies. Use text messages or social media to communicate.

**Listen** for current emergency information and instructions.
