

PUBLIC NOTICE
Notice of Availability of the Programmatic Environmental Assessment for the
Post-Hurricane Maria Recovery of the Commonwealth of Puerto Rico's Transportation
System (Bridges, Culverts, Roadways, and Landslides)
FEMA-DR-4339-PR

Notification is hereby given to the public of the intent of the Department of Homeland Security-Federal Emergency Management Agency (DHS-FEMA) to provide federal funding to the Commonwealth of Puerto Rico, Applicant, for the replacement and repair of damaged bridges, culverts, roadways and landslides caused by Hurricane Maria. A disaster declaration was issued for Hurricane Maria on September 20, 2017 encompassing the entire territory. The declaration authorized federal public assistance to affected communities and certain non-profit organizations per FEMA, and in accordance with the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974 (42 U.S.C. 5172) as amended; the Sandy Recovery Improvement Act (SRIA) of 2013; and the Bipartisan Budget Act of 2018 (Public Law 115-123). The Central Office of Recovery, Reconstruction and Resiliency (COR3) is the Applicant for FEMA grants and multiple agencies may be subrecipients for specific projects.

The need for the action is to re-establish a safe and reliable transportation network through replacement, repair, and upgrade of system elements in order to reconnect the communities affected by Hurricane Maria. The elements of the transportation system covered under this Programmatic Environmental Assessment (PEA) are defined as bridges, culverts, and roadways. The goal is to develop a resilient transportation network and help reduce the potential for future disruptions in service caused by future storm events.

In accordance with the National Environmental Policy Act (NEPA), a PEA has been prepared to assess the potential impacts of the proposed action on the human environment. DHS-FEMA's requirement of addressing floodplain management and wetlands protection in accordance with 44 CFR Part 9 is incorporated within the PEA. This Transportation PEA is available for agency and public review and comment for a period of thirty (30) days. The public information process will include a public notice via a local Puerto Rico newspaper. The publicly available materials will include a Spanish translation of the PEA and Executive Summary. The Transportation PEA is available for download at <https://www.fema.gov/emergency-managers/practitioners/environmental-historic/region/2> and <https://www.recovery.pr/en/document-library>.

A hard copy of the PEA will be available for review at the following locations:

Caguas Municipality
City Hall William Miranda Marin
Environmental Affairs Office, Second Floor
Street Padial, corner Jose Mercados Avenue
Caguas, Puerto Rico

Humacao Municipality
Municipal Government Center & City Hall

Annex num. 56
Planning Office
Aibonito, Puerto Rico

Bayamon Municipality
Bayamon City Hall
Environmental Ranger Program, Fourth Floor
Street Num. 2, Km. 11
Bayamon, Puerto Rico

This PEA reflects the evaluation and assessment of the federal government, the decision maker for the federal action; however, FEMA will take into consideration any substantive comments received during the public review period to inform the final decision regarding grant approval and project implementation. The public is invited to submit written comments by emailing FEMA-EHP-DR4339@fema.dhs.gov or via mail to: Federal Emergency Management Agency Region II – DR-4339-PR Puerto Rico Joint Recovery Office 50 State Road 165 Guaynabo, PR 00968 Attn: Puerto Rico Transportation PEA Public Comments. If FEMA receives no substantive comments from the public and/or agency reviewers, FEMA will adopt the PEA as final and will issue a FONSI. If FEMA receives substantive comments, it will evaluate and address comments as part of the FONSI documentation or in a Final PEA.
