

Resource Typing Definition for Situational Assessment
Incident Management

TECHNICAL SPECIALIST - SMALL UNMANNED AIRCRAFT SYSTEM

RESOURCE CATEGORY	Incident Management
RESOURCE KIND	Personnel
OVERALL FUNCTION	The Technical Specialist – small Unmanned Aircraft System (sUAS) provides technical support to the sUAS Team, including managing data recording equipment and software, managing communications systems and frequencies, and maintaining documentation in the appropriate chain of custody
COMPOSITION AND ORDERING SPECIFICATIONS	<ol style="list-style-type: none"> 1. This position can be ordered as a single resource or in conjunction with a National Incident Management System (NIMS)-typed team (small Unmanned Aircraft System Team) 2. Discuss logistics for deploying this position, such as security, lodging, transportation, and meals, prior to deployment 3. This position typically works 12 hours per shift, is self-sustainable for 72 hours, and is deployable for up to 14 days

Each type of resource builds on the qualifications of the type below it. For example, Type 1 qualifications include the qualifications in Type 2, plus an increase in capability. Type 1 is the highest qualification level.

COMPONENT	SINGLE TYPE	NOTES
DESCRIPTION	<p>The Technical Specialist:</p> <ol style="list-style-type: none"> 1. Ensures that data recording and streaming equipment is operational preflight, during flight, and post-flight to achieve the mission objectives 2. Communicates safety, hazards, needs, and concerns relating to data gathering and streaming equipment to the flight observer 3. Maintains the flow of streamed data to the receiver while the aircraft is in flight 4. Ensures that backup recording devices are operational before launch 5. Checks that data is recorded, creates a backup copy, and forwards the original to designated operations and planning authorities 6. Documents the chain of custody for information gathered from the aircraft 	Not Specified
EDUCATION	Not Specified	Not Specified
