

Fact Sheet: FEMA Inspectors and Inspections

Release Date: June 17, 2019

FEMA housing inspectors are assisting eligible Oklahoma survivors of the severe storms, straight-line winds, tornadoes and flooding that occurred between May 7 and June 9, 2019 by setting appointments with applicants to verify eligible disaster-related damage.

Inspectors are currently making appointments in Canadian, Cherokee, Creek, Delaware, Kay, Le Flore, Logan, Mayes, Muskogee, Noble, Nowata, Okmulgee, Osage, Ottawa, Payne, Pottawatomie, Rogers, Sequoyah, Tulsa, Wagoner and Washington counties.

As additional counties get designated for FEMA Individual Assistance, inspectors will move into those areas.

- FEMA housing inspections are an essential part of the recovery process.
- Homeowners and renters must first register with FEMA. If it is determined an inspection is required, an inspector will call the applicant to set up an appointment.
- Appointments should not be missed; a delay in an inspection is a delay in the assistance process.
- Inspectors will present authorized identification.
- Applicants are advised not to demolish damaged property before inspections take place.
- Applicants may be asked to voluntarily participate in a subsequent quality control inspection.

For the inspector's visit, applicants should:

- Ensure their home or mailbox number is clearly visible from the road.
- Present a valid identification and provide documentation verifying ownership or demonstrating possession such as a lease to rent.
- Tell the inspector about other property losses or disaster-related needs such as transportation, medical or dental care, tools needed for a trade, and educational materials.

Individual Assistance for homeowners and renters can include grants to help pay for

temporary housing, home repairs and other serious disaster-related expenses not met by insurance or other assistance programs.

Low-interest disaster loans from the U.S. Small Business Administration (SBA) are available to businesses, private nonprofit organizations, homeowners and renters to cover residential and business losses as a result of the disaster.

If possible, homeowners, renters and businesses should have contacted their insurance company and registered with FEMA before visiting a recovery center. Registration is available in the following ways:

- Online at DisasterAssistance.gov.
- Phone 800-621-3362 (voice, 711/VRS-Video Relay Service) (TTY: 800-462-7585). Multilingual operators are available (press 2 for Spanish).
- Via the FEMA app, available for Apple and Android mobile devices. To download visit: fema.gov/mobile-app.

Affected residents and business owners in the designated counties may also apply for disaster assistance by visiting their nearest state/federal Disaster Recovery Center (DRC). Recovery specialists from FEMA, the SBA and the Oklahoma Department of Emergency Management (OEM) are available at DRCs to talk about assistance and to help anyone who needs guidance in filing an application. Oklahomans can find their nearest DRC by searching at fema.gov/ESF6/DRCLocator.
