Applicants who wish to apply for disaster assistance should have the following information ready for their registration: Social Security number; pre-disaster address of the primary residence; name of all occupants of the pre-disaster household, types of insurance coverage; current telephone number and mailing address; bank account and routing numbers for direct deposit of financial assistance, if eligible.

Survivors should keep their contact information updated with FEMA as the agency may need to call to schedule a home inspection or get additional information.

Disaster assistance is not a substitute for insurance and cannot compensate for all losses caused by a disaster. The assistance is intended to meet basic needs and supplement disaster recovery efforts.
