

Photos of the Whole-of-America COVID-19 Response Volume 2

Release Date: ?? 27, 2020

WASHINGTON — FEMA continues to lead the Whole-of-America response in fighting the coronavirus pandemic. Today, the hospital ship USNS Mercy arrived in Los Angeles to relieve strains on local hospital systems and is expected to be operational in a week. The U.S. Army Corps of Engineers is also in California assessing eight state-selected facilities to develop large-scale facilities to expand existing hospital capacity by 50,000 beds.

Under the direction of the White House Coronavirus Task Force, FEMA, HHS and our federal partners are working with state, local, tribal and territorial governments to execute a whole of government response to fight the COVID-19 pandemic and protect the public.

LOS ANGELES — Military Sealift Command hospital ship USNS Mercy arrives in Los Angeles on March 27. Mercy deployed in support of the nation’s COVID-19 response efforts, and will serve as a referral hospital for non-COVID-19 patients currently admitted to shore-based hospitals, allowing those medical teams to focus their efforts on COVID-19 cases.
